Undocumented Secrets of MATLAB-Java Programming Yair M. Altman,2011-12-05 For a variety of reasons, the MATLAB®-Java interface was never fully documented. This is really quite unfortunate: Java is one of the most widely used programming languages, having many times the number of programmers and programming resources as MATLAB. Also unfortunate is the popular claim that while MATLAB is a fine programming platform for prototyping, it is not suitable for real-world, modern-looking applications. *Undocumented Secrets of MATLAB®-Java Programming* aims to correct this misconception. This book shows how using Java can significantly improve MATLAB program appearance and functionality, and that this can be done easily and even without any prior Java knowledge. Readers are led step-by-step from simple to complex customizations. Code snippets, screenshots, and numerous online references are provided to enable the utilization of this book as both a sequential tutorial and as a random-access reference suited for immediate use. Java-savvy readers will find it easy to tailor code samples for their particular needs; for Java newcomers, an introduction to Java and numerous online references are provided. This book demonstrates how The MATLAB programming environment relies on Java for numerous tasks, including networking, data-processing algorithms and graphical user-interface (GUI) We can use MATLAB for easy access to external Java functionality, either third-party or user-created Using Java, we can extensively customize the MATLAB environment and application GUI, enabling the creation of visually appealing and usable applications

Leading From Behind Niva Retimanu,2016-03-28 Running a marathon isn't something that comes naturally to newsreader Niva Retimanu. But whether you come first or last, if you complete 42.2 kilometres, you're still a marathon runner. In *Leading from Behind*, Niva tells how she went from overweight, heavy-drinking junk-food fan to motivated, health-conscious marathon runner — and how much fun she's had along the way. Niva might finish last in her races, but she has kept up her party attitude, sometimes in costume and always trying to cross the finish line in style: hootin' and hollerin' and with a broad grin on her face. It hasn't all been a barrel of laughs though — take that storm in Queenstown, the extra kilometres in Beirut, or the time in New York when she lost the disabled athlete she was meant to be guiding. Life with Niva is never dull. As well as telling a host of great stories, *Leading from Behind* is a call to people of all ages, shapes and sizes to get out and do something active. If Niva can do it, so can you!

Mal Walden was seventeen when he applied for his first job in media. Starting out as a country radio announcer, he went on to work in Launceston and Melbourne before making the shift to television as a news anchor for channels Seven and Ten. At age seventy he gracefully crossed the finishing line to be recognised as the longest-serving newsman on Australian television. Each year Mal maintained a journal in which he recorded his many serendipitous and life-changing moments.
