David Temple

Motorama David Temple,2015-01-15 In an age of unbridled American enthusiasm and towering industrial might, the GM Motorama was a dazzling and elegant show that was unlike any automotive event before it or since. General Motors staged extravagant and elaborate Motorama shows that rivaled some fashion shows. It showcased some of the most revolutionary and innovative prototype and dream cars ever built. And it captured the imagination of the car-buying public from 1950 to 1961. Motorama expert and experienced author David Temple has comprehensively researched the show, the cars, and the personalities to create a fascinating new story with many new photos of these magnificent cars. Because television was in its infancy, GM's President Alfred Sloan believed that the Motorama was the most effective way to market GM products and design prowess. Legendary stylist Harley Earl led a talented group of designers and engineers to dream up, style, and develop some of the most remarkable prototype cars of all time. While current production Buick, Chevy, Cadillac, and Pontiac cars were showcased, the bold, radical, awe-inspiring prototype and dream cars stole the show. These included the GM Le Sabre, replete with aerospace design and an aluminum engine; the fiberglass-bodied Corvette dream car, which went into production after overwhelmingly positive response; and the jet engine-powered Firebird. Temple goes into fascinating detail on the body, frame, engine, drivetrain, and all the special features of each model. He has also retraced the ownership histories of some of these cars. Within the pages of this volume, you get to relive this glorious era of automotive history and revisit the advanced show cars that inspired so many new models. This book features fascinating period photography of Motorama cars at the show, in development, and at different locales. No other automotive show rivaled the Motorama for stunning productions and awe-inspiring cars, which makes this a must-have book.

Pale Horse Rider Mark Jacobson,2018-09-04 We are living in a time of unprecedented distrust in America... Faith in the government is at an all-time low, and political groups on both sides of the aisle are able to tout preposterous conspiracy theories as gospel, without much opposition. “Fake news” is the order of the day. This book is about a man to whom all of it points, the greatest conspiracist of this generation and a man you may not have heard of. A former U.S. naval intelligence worker, Milton William Cooper published his manifesto Behold a Pale Horse in 1991. Since then it has gone on to sell hundreds of thousands of copies, becoming the number-one bestseller in the American prison system. According to Behold a Pale Horse, JFK was assassinated—because he was about to reveal that extraterrestrials were about to take over the earth—by his driver, an alien himself; AIDS is a government conspiracy to decrease the population of blacks, Hispanics, and homosexuals; and the Illuminati are secretly involved with the U.S. government to manage relationships with extraterrestrials. Cooper died in a shootout with Apache County police in 2001, one month after September 11, in the year in which he had predicted catastrophe. In Pale Horse Rider, journalist Mark Jacobson not only tells the story of Cooper’s fascinating life but also provides the social and political context for American paranoia. Indeed, with the present NSA situation and countless other shadowy government dealings often in the news, aren’t we right to suspect that things may not be as they seem?
