*The History of White People* Nell Irvin Painter, 2011-04-18 A New York Times bestseller: "This terrific new book . . . [explores] the 'notion of whiteness,' an idea as dangerous as it is seductive."—Boston Globe Telling perhaps the most important forgotten story in American history, eminent historian Nell Irvin Painter guides us through more than two thousand years of Western civilization, illuminating not only the invention of race but also the frequent praise of "whiteness" for economic, scientific, and political ends. A story filled with towering historical figures, *The History of White People* closes a huge gap in literature that has long focused on the non-white and forcefully reminds us that the concept of "race" is an all-too-human invention whose meaning, importance, and reality have changed as it has been driven by a long and rich history of events.

Autonorama Peter Norton, 2021-10-21 In

**Autonorama: The Illusory Promise of High-Tech Driving**, historian Peter Norton argues that driverless cars cannot be the safe, sustainable, and inclusive mobility solutions that tech companies and automakers are promising us. The salesmanship behind the driverless future is distracting us from better ways to get around that we can implement now. Unlike autonomous vehicles, these alternatives are inexpensive, safe, sustainable, and inclusive. Norton takes the reader on an engaging ride--from the GM Futurama exhibit to smart highways and vehicles--to show how we are once again being sold car dependency in the guise of mobility. **Autonorama** is hopeful, advocating for wise, proven, humane mobility that we can invest in now, without waiting for technology that is forever just out of reach.

Somewhere near the Baltic Sea, Ross, Ashe, and McNeil begin building a Beaker trading post and learn from the locals that nearby is a land populated by ghosts, a land whither no man of good sense would go.
