### De Rerum Natura: The Latin Text of Lucretius

Titus Lucretius Carus, 1970 Titus Lucretius Carus (ca. 99 55 B. C.) is known primarily as the Roman author of the long didactic poem *De Rerum Natura* (On the Nature of Things). In it, he set out to explicate the universe, embracing and refuting ideas of the great Greek philosophers. Now available in paperback, this annotated scholarly edition of the Latin text of *De Rerum Natura* has long been hailed as one of the finest editions of this monumental work. It features an introduction to Lucretius's life and work by William Ellery Leonard, an introduction to and commentary on the poem by Stanley Barney Smith, the complete Latin text with detailed annotations, and an index of ancient sources.

**Wagner the Dramatist** H.F. Garten, 2018-01-01 Richard Wagner has fascinated every generation of opera-lovers for over a century, and a mass of literature has interpreted and reinterpreted not only his character, but also the components of the

great music dramas that are still some of the most captivating and complex operas in the international repertory today. In this excellent study, Garten examines the cultural and historical sources of these operas: the myths and legends that Wagner employed, in which much of his works' interest, other than the purely musical, can be found. Garten's study also shows how legends of the old Nordic gods, the troubadours and Minnesingers, the quest for the grail, as well as stories taken from folklore and history, were transformed into the theatrical mythology of Wagner's music dramas.
