But when rumors of a rebellion reach Briarlock, Jax wonders who he can trust--and if he'll even survive. Jax's best friend, Callyn, doesn't trust anyone--especially not a handsome stranger with magic, which killed her parents years ago. When another royal emissary arrives, seeing a co-conspirator, Callyn finds herself embroiled in a plot that could lead them all to ruin. . . As tensions flare throughout the kingdom, it

won't be long before everyone must choose a side. War is brewing. Passions are building. And magic may doom--or save--them all.

Gorky Park Martin Cruz Smith,2020-01-28 The “gripping, romantic, and dazzlingly original” (Cosmopolitan) Arkady Renko book that started it all: the #1 bestseller *Gorky Park*, an espionage classic that begins the series, by Martin Cruz Smith, “the master of the international thriller” (The New York Times). It begins with a triple murder in a Moscow amusement center: three corpses found frozen in the snow, faces and fingers missing. Chief homicide investigator Arkady Renko is brilliant, sensitive, honest, and cynical about everything except his profession. To identify the victims and uncover the truth, he must battle the KGB, FBI, and the New York City police as he pursues a rich, ruthless, and well-connected American fur dealer. Meanwhile, Renko is falling in love with a beautiful, headstrong dissident for whom he may risk everything. “Brilliant...there are enough enigmas within enigmas within enigmas to reel the mind” (The New Yorker) in this wonderfully textured, vivid look behind the Iron Curtain. “Once one gets going, one doesn’t want to stop...The action is gritty, the plot

complicated, and the overriding quality is intelligence” (The Washington Post). The first in a classic series, Gorky Park “reminds you just how satisfying a smoothly turned thriller can be” (The New York Times Book Review).

Lunar Park Bret Easton Ellis, 2005 A somewhat autobiographical novel about the life of the author, with some things true, other things exaggerated and other things completely fictitious.

Prizmism Toby Kamps, 2014-11-30 Over the last eight years Joseph Park has inserted a radical chapter to the timeless tradition of oil painting. Inspired by a J.G. Ballard story, and a tongue-in-cheek attitude toward the art's world's predilection for defined historical movements, Park developed an adjustable, custom-made easel, began studying fractals, crystal formation theory, and the permeating reality of pixels today, and from those elements formed Prizmism. Drawing inspiration from his painterly ancestors, as well as photography and sculpture, he has explored Prizmism through portraits, figures and a completed cycle shown at Elizabeth Leach Gallery in 2012 that is dazzling in its narrative, color, and surface. This is the first major monograph of Park's paintings, and focuses solely on this innovative endeavor.

The Inhabited Pathway Sebastiano Brandolini, 2014 Alberto Ponis was born in Genoa in 1933 and studied at Florence University, where he qualified as an architect in 1960. He worked in London with Erno Goldfinger and Denys Lasdun in 1960-64 under the strong and lasting influence also of the movements of Modernism and New Brutalism then prevailing in the theoretical discourse in British architecture. His own studio Ponis established in 1964 in Palau, on the Italian island of Sardinia, working since on private, public and urban planning commissions. In 1990 he was awarded the INARCH prize for the Village of Stazzo Pulcheddu in Palau. Ponis often refers to the natural conditions

and the social history of Sardinia when talking about his work in architecture. Besides of nature and society, he has also extensively studied the stazzo, Sardinia's typical rural building type. This thorough knowledge of conditions, traditions and requirements are the foundation of an oeuvre of more than 300 residential buildings. Each of them deeply rooted in its environment and connected with the land and other dwellings by the sentiero, the path leading to and from the house. Ponis's houses are meant to be summer homes, their inert warmth reflecting the architect's fundamental optimism. They show a natural modesty and simplicity rather than their owner's wealth or status. They express the architect's great formal skills and sensitivity. They are inconceivable without the Sardinian landscape and history and the island seems to have been expecting just these particular buildings, merging naturally with nature. The new book Alberto Ponis Sardinia is the first comprehensive monograph on this highly interesting and original yet little known architect. In five lavishly illustrated sections it documents his biography and early work, his extensive research on Sardinia, eight selected buildings created between 1965-98 that make traceable the evolution of Ponis's work, his philosophy (Thoughts and Forms), and a concluding essay on the essence of his architecture.
