Stephen J. Brennan

Photolab Design for Professionals Robert Cappel, Ted Cooper, Eastman Kodak Company, 1990 Includes information on planning photographic facilities, the equipment and materials required, and the influence of work methods on lab design. Places an emphasis on color printing and processing. Includes a section that showcases several state-of-the-art lab and studio operations. Specifically intended for professionals who are designing new labs or renovating existing ones.

Photolab Design Eastman Kodak Company, 1977

The Digital Photolab George Schaub, 2002 If black-and-white (and monotone) photography is your medium, here's the ultimate guide to taking full advantage of the digital revolution. A very thorough look into the how-to of sophisticated digital imaging. The effect is like being a part of a week-long Photoshop workshop in which Schaub's skills as an educator are revealed. A book for anyone with serious aspirations to produce fine-art digital images.--Rangefinder.

Mastering Nik Color Efex Pro 4 Robin Whalley, Newly expanded and revised, May 2021 In this latest edition covering Nik Color Efex Pro 4, landscape photographer Robin Whalley explains how to make the most of this powerful and versatile photo editor. In his usual straightforward style, he carefully guides you through using Nik Color Efex Pro 4 as both a plugin and standalone photo editor. After explaining the many features and how you might use them, the 55 Color Efex Pro filters are described in full. Each filter and its controls are detailed, together with usage tips and advice for combining the different filters. You will learn how to: · Use and manage Control Points to make complex selections and adjustments with ease. · Integrate Nik Color Efex Pro 4 into your workflow as either a Plugin or standalone editor. · Combine multiple filters to greatly improve your editing results. · Apply the non-destructive workflow introduced in the Nik Collection 3 by DxO. · Work with the Nik Selective Tool in Photoshop. At the end of the book are four full length editing examples using only Nik Color Efex Pro 4. The

examples demonstrate how to use the software to transform ordinary colour photography and elevate it to a new level. The starting images are available to download on the authors website, allowing you to follow the examples on your own computer. This comprehensive book assumes no prior knowledge of Nik Color Efex Pro 4 and is ideal for both the beginning and intermediate Nik user. It covers all versions of Nik Color Efex Pro 4 up to and including the version in the Nik Collection 3 by Dx0. Improve your Nik Color Efex Pro 4 skills with this book and take your photography to new heights.

Hand Colouring and Alternative Darkroom Processes Andrew Sanderson,2002 This well established series offers all-you-need-to-know about processing and printing With stunning images by contemporary photographers, and easy-to-follow diagrams and instructions, it is easy to see why each book is a must-have for everyone working within the black and white medium. The books benefit from the wide-ranging experience of top photographers who talk the reader through their own techniques, giving invaluable advice on presentation tips to add that finishing, professional touch. The simple design make them ideal to use in the darkroom. Traditional printing techniques and processes are enjoying a welcome revival as more and more photographers aspire to create hand-finished works of art that stand out from the mass of digital imagery and machine prints. Hand colouring, cyanotypes, platinum and gum oil printing are just a few of the many techniques carefully explained in *Hand Colouring & Alternative Processes*, the fourth book in the acclaimed *Photo-Lab* series. Drawing upon his extensive experience, Andrew Sanderson guides the reader through the various treatments in a simple no-nonsense way, making even the most complex techniques accessible. An informative and inspiring resource for all photographers interested in alternative printing techniques.
