El interés público en América Latina Torres, María Lucía, Uregui Parra, Paola Marcela, Senior Serrano, Sebastián, 2015-11-30 El derecho se entiende hoy como una herramienta idónea para producir cambios en las sociedades y atender las necesidades y desafíos modernos, lo cual era casi impensable hace algunos años; se concibe como un medio para formar profesionales, pero, ante todo, abogados que son conscientes de su rol transformador en un contexto social con amplias necesidades. Por ello, la preocupación actual de las universidades y organizaciones sociales en el mundo, es formar líderes propositivos, apropiados de su papel como ciudadanos, con gran sentido social y de pertenencia, con destacadas habilidades para incidir en la formación de leyes, sentencias y políticas públicas, y resolver problemas cotidianos de grandes y pequeñas comunidades y emprender litigios a lo largo y ancho del mundo. Así, las universidades han empezado a actualizar sus currículos y las formas de enseñar el Derecho, implementando nuevos modelos pedagógicos que brindan a los futuros profesionales elementos necesarios para responder a las necesidades de su contexto social y del mundo moderno. En este libro, profesores de América Latina y España reflexionan alrededor del trabajo ProBono, la educación legal clínica y el litigio estratégico, como herramientas para la defensa del interés público, la transformación social, el acceso a la justicia de los grupos vulnerables y la protección de los derechos humanos.

Purchena. Proyecto Marca Pueblo Jaime de Pablo Valenciano, 2023-03-24 En el presente trabajo se va a realizar un diagnóstico del municipio almeriense de Purchena. Para ello, se parte una introducción de este que explica tanto su situación a nivel poblacional como de los recursos disponibles más importantes. Seguidamente y gracias a distintas metodologías, de las que destacan los métodos PIN y ETP0, los análisis DAFO y PESTEL, el Globo Volador, el Lienzo Canvas, y los análisis estratégicos de la Agenda Competitiva y el Enfoque del Marco Lógico, se pretende ofrecer una diferenciación del municipio. Complementariamente a esto, se aportan una serie de actuaciones y proyectos recomendables a llevar a cabo dentro del enfoque propio de la ciudad. Para finalizar y como orientaciones a seguir en todo momento, se deja remarcado un decálogo de buenas prácticas.

Zacatecas, conquista y transformación de la frontera en el siglo XVI Carlos Sempat Assadourian, 2008 Este libro muestra que al contrario de la conquista del centro de Nueva España, fulgurante y rápida, la ocupación de las tierras del Norte, semidesiertas de gente, parte de ella aun en el estadio de la organización tribal, con una cultura material de recolectores itinerantes, ensombrecido durante muchas décadas el orgullo militar de los europeos. Se observa como los europeos perseveraron en la odisea chichimeca por el ansia de la plata. El autor concede una elevada jerarquía analítica a la grave tensión en el bando europeo entre el proyecto de la conquista militar por la hueste privada y el proyecto de obtener de un modo pacífico el sometimiento de las naciones indias mediante la predicación evangelizadora de los padres apostólicos.

Medellín: environment urbanism society Michel Hermelin Arbaux, Alejandro Echeverri Restrepo, Jorge Giraldo, 2012-01-01 In recent times what has become known as the case of Medellín has generated a growing interest in the international community. These urban transformation that Medellín has experimented have become a focus of attention and reference for experts in many fields, around the world. The book Medellín: Environment, Urbanism and Society ; that now published the Center for Urban and Environmental Studies, Urbam, of EAFIT University is a testimony of the value given by our culture to the accomplishments of the city, to the idea of the public sphere and the growing relationship between the technical sphere and the political sphere, understood in the broad sense as a form of disciplinary knowledge and construction of civil society. This book brings together a knowledge of the city from multiple perspectives; knowledge that is, without any doubt, impressive for its extension and profundity, as well as for its capacity to combine objective data with conceptual reflections about the scope and impact of the different perspectives concerning the theme of urban transformation and the different actors that have participated in such processes. The book weaves a broad net over the city, its history and development, adopting a multidisciplinary vision. I think that this will be the first step in creating a speech that might finally liberate itself from the strict disciplinary boundaries, building a trans-disciplinary perspective that can amplify the urban dimension of the city. This is the beginning of a profound and complex reflection that is, at the same time, a project of knowledge and an instrument of action and participation.
