Joseph Harriss

Brainstorms and Mindfarts Tom Connor, Jim Downey, 2021-05-04 This informative and occasionally bizarre collection of American inventions will help you discover successful and significant ideas—along with the frivolous and utterly useless ones lost to history. Innovation and entrepreneurship appear inextricably woven into the American DNA. Throughout American history, the great inventors and innovators gazed into the future and saw the products and services that would transform the world. While passionate about creating this new thing called a democracy, our Founding Fathers were also driven to change the way humans lived and worked—to complete everyday tasks faster, easier, and more efficiently. As of 2018, the U.S. Patent & Trademark Office had granted its ten millionth patent. But with over 500,000 applications now being filed annually, fewer than half of these applicants will be granted patents and far fewer still—an estimated one percent—will realize commercial success, according to the Office. Some are flawed by mistakes or missing details, others too ridiculous to take seriously, still others simply ahead of their time. From the brightest and most innovative to the wackiest, most bizarre, and downright crazy, this collection of 100 patents includes funny and informative descriptions and original illustrations, all the while letting you in on what most successful patents have in common, what inspired their creators, and how great inventors view the world.

Marketing de contenidos Eva Sanagustín, 2013-04-23 El contenido ha tomado protagonismo en las estrategias de marketing. Con especial jerarquía, en los medios sociales, hasta el punto de llegar a ser una solución para muchas empresas. El marketing de contenidos utiliza todo tipo de canales y formatos para atraer a los clientes de forma no intrusiva y aportando valor. Pero no cualquier contenido es válido, ha de adaptarse a las necesidades del público objetivo y a las características del canal; si no es contenido de calidad, no resultará rentable. Por esta razón, se hace necesaria una estrategia que defina sus contenidos, para llevar a su empresa desde el lugar donde se encuentra, hasta el lugar que querría para ella. Aprenderá a acercarse al cliente sin venderle nada, pero generando confianza y credibilidad. Crecerá su visibilidad y reputación en los medios sociales. Esta es una obra imprescindible para todos aquellos que persiguen generar y usarlos contenidos de forma profesional y sobrevivir en el nuevo contexto digital.
