But this year, they are better prepared, joined in their battle by three women who have come to The Hollow. Since that day at The Pagan Stone, town lawyer Fox has been able to see into others' minds, a talent he shares with Layla. He must earn her trust, because their link will help fight the darkness that threatens to engulf the town. Thirty-Seven Peter Stenson,2019-02-05 The Survivors, their members known only by the order in which they joined, live alone in a rural Colorado mansion. They believe that sickness bears honesty, and that honesty bears change. Fueled by the ritualized Cytoxan treatments that leave them on the verge of death, they instigate the Day of Gifts, a day that spells shocking violence and the group's demise. Enter Mason Hues, formerly known as Thirty-Seven, the group's final member and the only one both alive and free. Eighteen years old and living in a spartan apartment after his release from a year of intensive mental health counseling, he takes a job at a thrift shop and expects to while away his days as quietly and unobtrusively as possible. But when his enigmatic boss Talley learns his secret, she comes to believe that there is still hope in the Survivor philosophy. She pushes Mason to start the group over again--this time with himself as One. PartFight Club, partThe Girls, and entirely unlike anything you've ever experienced, Peter Stenson's Thirty-Seven is an audacious and austere novel that explores our need to belong. Our need to be loved. Our need to believe in

something greater than ourselves, and ultimately our capacity for self-delusion.

The Seven Wonders of the Ancient World Peter A. Clayton,Martin Price,1988 First published in 1988. Can you name the Seven Wonders of the Ancient World? Did they even exist? The Pharos at Alexandria survived into the Middle Ages, but the Hanging Gardens of Babylon exist only in references by ancient authors and the Colossus of Rhodes if too improbable to have existed in the form and place traditionally ascribed to it. The Seven Wonders of the Ancient World sets the record straight, with an attractive account of each Wonder in the context in which it was built. The authors combine ancient sources with the results of modern scholarship and excavations to recreate a vivid picture of the Seven Wonders. All experts in their specialist fields, the contributors bring together facts and background that are remarkably difficult to find from any other single source and establish for the first time the archaeology and location of each Wonder.
