Data Push Apps with HTML5 SSE Darren Cook,2014-03-20 Make sure your website or web application users get content updates right now with minimal latency. This concise guide shows you how to push new data from the server to clients with HTML5 Server-Sent Events (SSE), an exceptional technology that doesn't require constant polling or user interaction. You'll learn how to build a real-world SSE application from start to finish that solves a demanding domain problem. You'll also discover how to increase that application's desktop and mobile browser support from 60% to 99%, using different fallback solutions. If you're familiar with HTML, HTTP, and basic JavaScript, you're ready to get started. Determine whether SSE, WebSockets, or data pull is best for your organization Develop a working SSE application complete with backend and frontend solutions Address error handling, system recovery, and other issues to make the application production-quality Explore two fallback solutions for browsers that don't support SSE Tackle security issues, including authorization and disallowed origin Develop realistic, repeatable data that's useful in test-driven SSE design Learn SSE protocol elements not covered in the example application

Proceedings of the SSEME Workshop on Social Sciences and Education (SSEME-SSE 2023) Jia Li,2023-10-28 This is an open access book. SSEME workshop on social sciences and education serves as an international platform for scholars and engineers from around the world with the focus on education and other social sciences related fields. It aims to promote scientific information interchange of research advances and technologies addressing emerging trends and challenges for the generation of new ideas and establish research and/or business links for potential collaboration. As a professional academic workshop, SSEME-SSE 2023 showcases high quality keynote speeches, oral and poster presentations of refereed papers. SSEME-SSE 2023 is soliciting original and high-quality submissions in terms of research novelty, technical excellence, or unique applications in the real world. All paper submissions will be peer reviewed by at least 2-3 independent reviewers. SSEME-SSE 2023 warmly welcomes new insights from both industry and academia, on both basic and applied researches.
