Home Safe Elizabeth Berg, 2009-04-28 BONUS: This edition contains an excerpt from Elizabeth Berg's *Once Upon a Time, There Was You*. In this novel, beloved bestselling author Elizabeth Berg weaves a beautifully written and richly resonant story of a mother and daughter in emotional transit. Helen Ames—recently widowed, coping with loss and grief, unable to do the work that has always sustained her—is beginning to depend far too much on her twenty-seven-year-old daughter, Tessa, and is meddling in her life, offering unsolicited and unwelcome advice. Helen's problems are compounded by her shocking discovery that her mild-mannered and loyal husband was apparently leading a double life. The Ameses had painstakingly saved for a happy retirement, but that money disappeared in several large withdrawals made by Helen's husband before he died. In order to support herself and garner a measure of much needed independence, Helen takes an unusual job that ends up offering far more than she had anticipated. And then a phone call from a stranger sets Helen on a surprising path of discovery that causes both mother and daughter to reassess what they thought they knew about each other, themselves, and what really makes a home and a family.

Is It Safe? Sarah A. Vogel, 2013 We are all just a little bit plastic. Traces of bisphenol A or BPA, a chemical used in plastics production, are widely detected in our bodies and environment. Is this chemical, and its presence in the human body, safe? What is meant by safety? Who defines it, and according to what information? *Is It Safe?* narrates how the meaning of the safety of industrial chemicals has been historically produced by breakthroughs in environmental health research, which in turn trigger contests among trade associations, lawyers, politicians, and citizen activists to set new regulatory standards. Drawing on archival research and extensive interviews, author Sarah Vogel explores the roots of the contemporary debate over the safety of BPA, and the concerns presented by its estrogen-like effects even at low doses. Ultimately, she contends that science alone cannot resolve the political and economic conflicts at play in the definition of safety. To strike a sustainable balance between the interests of commerce and public health requires recognition that powerful interests will always try to shape the criteria for defining safety, and that the agenda for environmental health research should be protected from capture by any single interest group.

The Safety Trap Spencer Coursen, 2021-05-18 Threat management expert Spencer Coursen offers proactive strategies to protect yourself and your loved ones in the event of hostile encounters and emergency situations in *The Safety Trap: A Security Expert's Secrets for Staying Safe in a Dangerous World*. Despite what the news and social media would have you believe, we have never lived in a safer time than we are now. Unfortunately, we live under a false sense of security enforced by authorities that only alleviates fears without reducing risk. We have placed our personal safety, and our responsibilities of guarding it, into the hands of people trained only to respond to crises, not actively prevent them. Our blind faith in institutions to protect us has only dulled our natural survival instincts. The truth is that when we feel safest is actually when we are in the most danger. This is the paradox of The Safety Trap. When you don't expect danger, you simply fail to see the signs that something bad is about to happen. But the signs are always there, and staying safe is about training yourself to see them. In easy-to-implement methods of maintaining vigilance, assessing risk, and taking preventative measures, you'll discover how to be alert without anxiety and know how to best protect and defend yourself on the job, in school, in public places, at home, and online. With Coursen's simple formula of Awareness + Preparation = Safety as your guide—as well as real world examples of managing threats—you will learn how to develop the skills and confidence to reclaim your own security and avoid The Safety Trap.

Kids Need to Be Safe Julie Nelson, 2005-12-15 “Kids are important... They need safe places to live, and safe places to play.” For some kids, this means living with foster parents. In simple words and full-color illustrations, this book explains why some kids move to foster homes, what foster parents do, and ways kids might feel during foster care. Children often believe that they are in foster care because they are “bad.” This book makes it clear that the troubles in their lives are not their fault; the message throughout is one of hope and support. Includes resources and information for parents, foster parents, social workers, counselors, and teachers.

Fail-Safe Eugene Burdick, Harvey Wheeler, 2013-09-27 From the New York Times–bestselling authors, this “chilling and engrossing” nuclear-showdown thriller packs “a multi-megaton wallop” (Chicago Tribune). Originally published during the Cuban Missile Crisis, this suspenseful novel takes off as a group of American bombers—armed with a deadly payload of nuclear weapons—heads towards Moscow, their motives unknown. Suddenly, a nuclear apocalypse looms closer than it ever has, and the lives of millions depend on the high-stakes diplomacy of leaders on both sides of the divide. The basis for the classic 1964 movie starring Henry Fonda, this two-million-copy bestseller is not only a terrifying thriller, but a fascinating social commentary on Cold War politics and a look at how, in a world poised on the brink, accidents and mistakes can have catastrophic consequences. Exploring the thin line between peace and global destruction that characterized this turbulent era, it is as timely as ever—“gripping, exciting and almost unbearably fascinating” (Los Angeles Times). “Excruciatingly tense.” —The Wall Street Journal

Safe Food Marion Nestle, 2003-03-25 Food safety is a matter of intense public concern, and for good reason. Millions of annual cases of food poisonings raise alarm not only about the food served in restaurants and fast-food outlets but also about foods bought in supermarkets. The introduction of genetically modified foods—immediately dubbed Frankenfoods—only adds to the general sense of unease. Finally, the events of September 11, 2001, heightened fears by exposing the vulnerability of food and water supplies to attacks by bioterrorists. How concerned should we be about such problems? Who is responsible for preventing them? Who benefits from ignoring them? Who decides? Marion Nestle, author of the critically acclaimed *Food Politics*, argues that ensuring safe food involves more than washing hands or cooking food to higher temperatures. It involves politics. When it comes to food safety, billions of dollars are at stake, and industry, government, and consumers collide over issues of values, economics, and political power—and not always in the public interest. Although the debates may appear to be about science, Nestle maintains that they really are about control: Who decides when a food is safe? She demonstrates how powerful food industries oppose safety regulations, deny accountability, and blame consumers when something goes wrong, and how century-old laws for ensuring food safety no longer protect our food supply. Accessible, informed, and even-handed, *Safe Food* is for anyone who cares how food is produced and wants to know more about the real issues underlying today's headlines.

Your God is Too Safe Mark Buchanan, 2009-02-19 Here's a thoughtful, probing exploration of why Christians get stuck in the place of complacency, dryness, and tedium -- and how to move on to new levels of spiritual passion! Buchanan shows how the majority of Christians begin their

spiritual journey with excitement and enthusiasm -- only to get bogged down in a borderland -- an in-between space beyond the old life but short of the abundant, adventurous existence promised by Jesus. Citing Jonah, he examines the problem of borderland living -- where doubt, disappointment, guilt, and wonderlessness keep people in a quagmire of mediocrity -- then offers solutions ... effective ways to get unstuck and move into a bold, unpredictable, exhilarating walk with Christ. Inspired writing!

How to Be Safe: A Novel Tom McAllister, 2018-04-03 A Washington Post Notable Book of the Year A Kirkus Reviews Best Book of the Year "Explosive" -Entertainment Weekly "Scalding" -The New Yorker "One of the most highly acclaimed novels of the year thus far." -Bustle FORMER TEACHER HAD MOTIVE. Recently suspended for a so-called outburst, high school English teacher Anna Crawford is stewing over the injustice at home when she is shocked to

see herself named on television as a suspect in a shooting at the school where she works. Though she is quickly exonerated, and the actual teenage murderer identified, her life is nevertheless held up for relentless scrutiny and judgment as this quiet town descends into media mania. Gun sales skyrocket, victims are transformed into martyrs, and the rules of public mourning are ruthlessly enforced. Anna decides to wholeheartedly reject the culpability she's somehow been assigned, and the rampant sexism that comes with it, both in person and online. A piercing feminist howl written in trenchant prose, *How to Be Safe* is a compulsively readable, darkly funny exposé of the hypocrisy that ensues when illusions of peace are shattered.

Keep Her Safe Sophie Hannah, 2017-09-19 LIANE MORIARTY says that "No one writes twisted, suspenseful novels quite like Sophie Hannah." Packed with twists and

clues, simmering with tension, this electrifying new thriller shows why. She's the most famous murder victim in America. What if she's not dead? Pushed to the breaking point, Cara Burrows flees her home and family and escapes to a five-star spa resort she can't afford. Late at night, exhausted and desperate, she lets herself into her hotel room and is shocked to find it already occupied — by a man and a teenage girl. A simple mistake at the front desk... but soon Cara realizes that the girl she saw alive and well in the hotel room is someone she can't possibly have seen: the most famous murder victim in the country, Melody Chapa, whose parents are serving natural life sentences for her murder. Cara doesn't know what to trust — everything she's read and heard about the case, or the evidence of her own eyes. Did she really see Melody? And is she prepared to ask herself that question and answer it honestly if it means risking her own life?
