Readers will be shocked by the sophistication and sheer size of this underworld. You'll meet the characters that control the flow of money as well as the hackers and programmers committed to keeping the enterprise up and running. You may disagree with their objectives, but you can't help but to marvel at their ingenuity and resourcefulness in defeating spam filters, avoiding being identified, and staying one step ahead of the law. Spam makes up now 64% of all email sent and it is said to be the most annoying part of being online.
