  Mendadak Hafizh Padahal Buta Huruf Arab H. Brilly El-Rasheed, S.Pd.,2023-01-20 Buku ini, lebih kepada kajian 'ulum Al-Qur`an yang terkait dengan fiqih, bukan terkait tafsir maupun lughah apalagi Saintek (sains dan

teknologi) yang terkait dengan Al-Qur`an. Kenapa pilihan saya jatuh ke bidang fiqih? Karena masyarakat awam tentu lebih butuh kepada fiqih dalam rangka menjaga amaliyah (praktek ibadah) secara langsung. Mengingat fakta tidak sedikit orang yang bergaya peduli Al-Qur`an tapi nol besar adabnya terhadap Al-Qur`an. Hanya saja, buku ini bukan buku ilmiah, sekali lagi, sehingga tidak ada pembagian bab, dan buku ini memang 'sebatas' antologi, kumpulan tulisan-tulisan saya yang bermula dari dua sesi program dakwah di Quantum Fiqih yaitu TAUFIQ dan KASYAF. TAUFIQ adalah akronim dari Taushiyyah Fiqhiyyah (satu arah), sedangkan KASYAF adalah akronim dari Konsultasi Syari'ah dan Fiqih (dua arah: saya dan jama'ah). Pun demikian, target buku ini adalah kalangan beginners (pemula) yang ingin menyelami Al-Qur`an secara serius, sehingga wajar bila di sana-sini ditemukan istilah-istilah yang terasa asing. Kesengajaan saya dalam setiap buku-buku saya dalam penggunaan kata asli dalam bahasa 'Arab yang ditransliterasikan adalah dilatarbelakangi kejahilan terhadap bahasa 'Arab yang notabene wajib untuk diketahui apalagi terkait agama Islam. Betul, wajib.

  A Feast of Creatures Craig Williamson,2011-11-29 In A Feast of Creatures, Craig Williamson recasts nearly one hundred Old English riddles of the Exeter Book into a modern verse mode that yokes the cadences of Aelfric with the sprung rhythm of Gerard Manley Hopkins. Like the early English riddlers before him, Williamson gives voice to the nightingale, plow, ox, phallic onion, and storm-wind. In lean and taut language he offers us mead disguised

as a mighty wrestler, the sword as a celibate thane, the silver wine-cup as a seductress, the horn transformed from head-warrior to ink-belly or battle-singer. In his notes and commentary he gives us possible and probable solutions, sources, and analogues, a shrewd sense of literary play, and traces the literary and cultural contexts in which each riddle may be viewed. In his introduction, Williamson traces for us the history of riddles and riddle scholarship.

Wuthering Heights Emily Bronte,2020-09-28 Wuthering Heights is the name of Mr. HeathcliffÕs dwelling. ÔWutheringÕ being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of

crumbling griffins and shameless little boys, I detected the date Ô1500,Õ and the name ÔHareton Earnshaw.Õ I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here Ôthe houseÕ pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the

dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

The Talent Code Daniel Coyle,2009-04-28 What is the secret of talent? How do we unlock it? This groundbreaking work provides readers with tools they can use to maximize potential in themselves and others. Whether you're coaching soccer or teaching a child to play the piano, writing a novel or trying to improve your golf swing, this revolutionary book shows you how to grow talent by tapping into a newly discovered brain mechanism. Drawing on cutting-edge neurology and firsthand research gathered on journeys to nine of the world's talent hotbeds—from the baseball fields of the Caribbean to a classical-music academy in upstate New York—Coyle identifies the three key elements that will allow you to develop your gifts and optimize your performance in sports, art, music, math, or just about anything. • Deep Practice Everyone knows that practice is a key to success. What everyone doesn't know is that specific kinds of practice can increase skill up to ten times faster than conventional practice. • Ignition We all need a little motivation to get started. But what separates truly high achievers from the

rest of the pack? A higher level of commitment—call it passion—born out of our deepest unconscious desires and triggered by certain primal cues. Understanding how these signals work can help you ignite passion and catalyze skill development. • Master Coaching What are the secrets of the world's most effective teachers, trainers, and coaches? Discover the four virtues that enable these "talent whisperers" to fuel passion, inspire deep practice, and bring out the best in their students. These three elements work together within your brain to form myelin, a microscopic neural substance that adds vast amounts of speed and accuracy to your movements and thoughts. Scientists have discovered that myelin might just be the holy grail: the foundation of all forms of greatness, from Michelangelo's to Michael Jordan's. The good news about myelin is that it isn't fixed at birth; to the contrary, it grows, and like anything that grows, it can be cultivated and nourished. Combining revelatory analysis with illuminating examples of regular people who have achieved greatness, this book will not only change the way you think about talent, but equip you to reach your own highest potential.

  Programming, The Impossible Challenge B. Walraet,2014-06-28 In its modern form, the computer is only about 40 years old. And so is the job of the computer programmer. This book is a critical history of programming, written to give programmers and analysts in the commercial application field a more pragmatic insight into the background of their profession. It tells the story

of why the technology evolved as it did, and how Fifth Generation techniques are already changing the situation. As well as charting the real advances and the passing fashions, this unusual book looks at the situation in perspective, drawing some sad and maybe surprising conclusions while discussing questions such as ``Is programming a job for human beings?'' ``Is it High Noon for the world of programming?''

  Proceedings of the 4th International Conference on Informatics, Technology and Engineering 2023 (InCITE 2023) Markus Hartono,Hudiyo Firmanto,Connie Susilawati,2023-11-18 This is an open access book.Adaptive, Resilient & Collaborative EngineeringTowards Faster Recovery & Impactful Solutions The world in the last decade has been facing global issues such as accelerated global warming, depleting natural resources, food waste and scarcity, water contamination and shortage, energy conservation, etc. Enter the COVID-19 pandemic in 2020 and we face what people term as double disruption. Not only solutions to the above problems are becoming more critical, but they are also needed fast. Timely and effective solutions are called for so that we can recover from the pandemic while at the same time carry our efforts to better our world. It is no longer sufficient to find solutions that can only delay the negative impacts from the above problems, but it is imperative to tip the balance and reverse the impacts to our advantage. Engineers and engineering have a vital role in inventing mechanisms, systems, and/or products that can address the solutions. Digital technologies and artificial intelligence have

been at the forefront of such exploration and we can expect some hints for a better future, if we continue being adaptive, resilient, and collaborative. Given the above background, Faculty of Engineering - Universitas Surabaya, will host the fourth bi-annual international conference "The 4th International Conference on Informatics, Technology and Engineering 2023 (InCITE 2023)" in Yogyakarta, Indonesia, September 14th—15th, 2023. This event is a continuation of the past events successfully held in 2017, 2019, and 2021. We invite academia and business practitioners all around the globe to share ideas and best practices relevant to the above conference topic. We hope that this event can also serve as a platform of gathering for anyone interested in exploring potential solutions of our common problems today. Accepted and presented paper will be submitted for publication in reputable International Proceeding (Atlantis Press). See you in Yogyakarta!

  A Secret Order H. Albarelli, Jr.,2013-04-01 Reporting new and never-before-published information about the assassination of John F. Kennedy, this investigation dives straight into the deep end, and seeks to prove the CIA's involvement in one of the most controversial topics in American history. Featuring intelligence gathered from CIA agents who reported their involvement in the assassination, the case is broken wide open while covering unexplored ground. Gritty details about the assassination are interlaced

throughout, while primary and secondary players to the murder are revealed in the in-depth analysis. Although a tremendous amount has been written in the nearly five decades since the assassination, there has never been, until now, a publication to explore the aspects of the case that seemed to defy explanation or logic.
