**Void Star** Zachary Mason, 2017-04-11 A riveting, beautifully written, fugue-like novel of AIs, memory, violence, and mortality. Not far in the future the seas have risen and the central latitudes are emptying, but it's still a good time to be rich in San Francisco, where weapons drones patrol the skies to keep out the multitudinous poor. Irina isn't rich, not quite, but she does have an artificial memory that gives her perfect recall and lets her act as a medium between her various employers and their AIs, which are complex to the point of opacity. It's a good gig, paying enough for the annual visits to the Mayo Clinic that keep her from aging. Kern has no such access; he's one of the many refugees in the sprawling drone-built favelas on the city's periphery, where he lives like a monk, training relentlessly in martial arts, scraping by as a thief and an enforcer. Thales is from a different world entirely—the mathematically inclined scion of a Brazilian political clan, he's fled to L.A. after the attack that left him crippled and his father dead. A ragged stranger accosts Thales and demands to know how much he can remember. Kern flees for his life after robbing the wrong mark. Irina finds a secret in the reflection of a laptop's screen in her employer's eyeglasses. None are safe as they're pushed together by subtle forces that stay just out of sight. Vivid, tumultuous, and propulsive, Void Star is Zachary Mason's mind-bending follow-up to his bestselling debut, The Lost Books of the Odyssey.

*Variable Star* Robert A. Heinlein, Spider Robinson, 2010-12-07 A never-before-published masterpiece from science fiction's greatest writer, rediscovered after more than half a century. When Joel Johnston first met Jinny Hamilton, it seemed like a dream come true. And when she finally agreed to marry him, he felt like the luckiest man in the universe. There was just one small problem. He was broke. His only goal in life was to become a composer, and he knew it would take years before he was earning enough to support a family. But Jinny wasn't willing to wait. And when Joel asked her what they were going to do for money, she gave him a most unexpected answer. She told him that her name wasn't really Jinny Hamilton---it was Jinny Conrad, and she was the granddaughter of Richard Conrad, the wealthiest man in the solar system. And now that she was sure that Joel loved her for herself, not for her wealth, she revealed her family's plans for him---he would be groomed for a place in the vast Conrad empire and sire a dynasty to carry on the family business. Most men would have jumped at the opportunity. But Joel Johnston wasn't most men. To Jinny's surprise, and even his own, he turned down her generous offer and then set off on the mother of all benders. And woke up on a colony ship heading out into space, torn between regret over his rash decision and his determination to forget Jinny and make a life for himself among the stars. He was on his way to succeeding when his plans--and the plans of billions of others--were shattered by a cosmic cataclysm so devastating it would take all of humanity's strength and ingenuity just to survive. **Star** Yukio Mishima, 2019-04-30 For the first time in English, a glittering novella about stardom from "one of the greatest avant-garde Japanese writers of the twentieth century" (Judith Thurman, *The New Yorker*) All eyes are on Rikio. And he likes it, mostly. His fans cheer, screaming and yelling to attract his attention--they would kill for a moment alone with him. Finally the director sets up the shot, the camera begins to roll, someone yells "action"; Rikio, for a moment, transforms into another being, a hardened young yakuza, but as soon as the shot is finished, he slumps back into his own anxieties and obsessions. Being a star, constantly performing, being watched and scrutinized as if under a microscope, is often a drag. But so is life. Written shortly after Yukio Mishima himself had acted in the film "Afraid to Die," this novella is a rich and unflinching psychological portrait of a celebrity coming apart at the seams. With exquisite, vivid prose, *Star* begs the question: is there any escape from how we are seen by others?
