W. R. Thompson

Tooth And Claw Doranna Durgin, 2012-08-21 Assigned to help evacuate the planet Ntigan before the total failure of its sun, the crew of the Starship Enterprise are engaged in delicate negotiations with the only people who can help them: a proud and volatile neighbouring race known as the Tsorans. To assist their efforts, Riker and Worf are assigned a different diplomatic task. As a show of friendship and good faith, they are serving as honor guards to a young Tsoran prince, accompanying him to a royal hunting preserve. There, a combination of technology-damping fields and some of the galaxy's deadliest predators are supposed to test the skills of the young Tsoran noble in the 'kaphoora' - the hunt. When their shuttlecraft crashes inside the preserve, however, what should have been a civilised formality turns into a terrifying struggle for survival. Cut off from both Tsora and the Enterprise, without the benefit of either tricorders or phasers, Riker, Worf and their royal charge must fight for their lives with the only resources they have: spear and bat'leth - tooth and claw.

Warped Mike McMahan, 2015-10-13 The official parody guide to the unaired eighth season of Star Trek: The Next Generation, based on the popular @TNG_S8 Twitter account from creator Mike McMahan! In the basement of the Star Trek archives, behind shelves of U.S.S. Enterprise NCC-1701-D models, bags of wigs, and bins of plastic phasers, sits a dusty cardboard box. Inside is a pile of VHS tapes that contain never-before-seen episodes and behind-the-scenes footage for something truly amazing. The world thinks there are only seven seasons of Star Trek: The Next Generation, but there's one more. A secret season. Actually, not really. But that didn't stop Mike McMahan, creator of the parody Twitter

account @TNG_S8, from making a guide full of: REAL* TNG SEASON 8 FACTS AND STORIES! REAL* TNG SEASON 8 DIALOGUE AND IMAGES! (* Again, not really, of course. This is humor. Sorry.) So impress your friends and bewilder your enemies with your newfound knowledge of these very lost Star Trek episodes! Engage! ™, ®, & © 2015 CBS Studios, Inc. Star Trek: The Next Generation: Before Dishonor Peter David, 2007-10-30 An enemy so intractable that it cannot be reasoned with. The entire race thinks with one mind and strives toward one purpose: to add our biological distinctiveness to their own and wipe out individuality, to make every living thing Borg. In over two centuries, the Federation has never encountered a greater threat. Twice Starfleet assembled and threw countless starships to stand against them. The Borg were stopped, the price paid in blood. Humanity breathed a sigh of relief, assuming it was safe. And with the destruction of the transwarp conduits, the Federation believed that the killing blow had finally been struck against the Borg. Driven to the point of extinction, the Borg continue to fight for their very existence, for their culture. They will not be denied. They must not be stopped. The old rules and assumptions regarding how the Collective should act have been dismissed. Now the Borg kill first, assimilate later. When the Enterprise manages to thwart them once again, the Borg turn inward. The dark places that even the drones never realized existed are turned outward against the enemy they have never been able to defeat. What is revealed is the thing that no one believed the Borg could do.

Maximum Warp Book One Dave Galanter, 2012-08-28 Seven months ago, Captain Jean-Luc Picard and the USS Enterprise rescued a Federation cargo ship and a Romulan Warbird, both drained of power by an unknown source and mysteriously trapped together in the Neutral Zone. Five months ago, the captain of the USS Exeter launched a log buoy from her helpless ship, reporting it adrift and without energy for reasons she is unable to explain. Now, a power plant on Mars has gone down, leaving tens of millions in the dark. Reports of remote outposts losing power, ships stranded in space, and unexplained dead zones throughout the United Federation of Planets are beginning to cause a general panic. But Starfleet sends Picard and the Enterprise to Romulan space with orders to enter as covertly as possible and rendezvous with a high-ranking Romulan named T Sart. An infamous war criminal and a cold-blooded killer, T Sart's expertise runs from biological warfare to high-tech weaponry. Now he claims he is planning to defect - but even though the rendezvous was arranged with Vulcan Ambassador Spock's authentication codes, no contact with the Ambassador himself can be established. Sabotaging the project of his one-time protege, T Sart arranges the destruction of a Romulan warbird - the distraction for his pickup - with disturbing ease. But T Sart insists he is trying to save the universe, not destroy it - and the Federation may have no choice but to take him at his word.
