**TV (The Book)** Alan Sepinwall, Matt Zoller Seitz, 2016-09-06 Is The Wire better than Breaking Bad? Is Cheers better than Seinfeld? What's the best high school show ever made? Why did Moonlighting really fall apart? Was the Arrested Development Netflix season brilliant or terrible? For twenty years—since they shared a TV column at Tony Soprano's hometown newspaper—critics Alan Sepinwall and Matt Zoller Seitz have been debating these questions and many more, but it all ultimately boils down to this: What's the greatest TV show ever? That debate reaches an epic conclusion in TV (THE BOOK). Sepinwall and Seitz have identified and ranked the 100 greatest scripted shows in American TV history. Using a complex, obsessively all-encompassing scoring system, they've created a Pantheon of top TV shows, each accompanied by essays delving into what made these shows great. From vintage classics like The Twilight Zone and I Love Lucy to modern masterpieces like Mad Men and Friday Night Lights, from huge hits like All in the Family and ER to short-lived favorites like Firefly and Freaks and Geeks, TV (THE BOOK) will bring the triumphs of the small screen together in one amazing compendium. Sepinwall and Seitz's argument has ended. Now it's time for yours to begin!

**The Television History Book** Michele Hilmes, Jason Jacobs, 2021-03-11 Traces the history of broadcasting and the influence developments in broadcasting have had over our social, cultural and economic practices. Examining the broadcasting traditions of the UK and USA, 'The Television History Book' make connections between events and tendencies that both unite and differentiate these national broadcasting traditions.

*Quality TV* Janet McCabe, Kim Akass, 2007-09-26 In his seminal book *Television's Second Golden Age*, Robert Thompson described quality TV as 'best defined by what it is not': 'it is not regular TV'. Audacious maybe, but his statement renewed debate on the meaning of this highly contentious term. Dealing primarily with the post-1996 era shaped by digital technologies and defined by consumer choice and brand marketing, this book brings together leading scholars, established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV. They go deep into contemporary American television fictions, from *The Sopranos* and *The West Wing*, to *CSI* and *Lost* - innovative, sometimes controversial, always compelling dramas, which one scholar has described as 'now better than the movies!' But how do we understand the emergence of these kinds of fiction? Are they genuinely new? What does quality TV have to tell us about the state of today's television market? And

is this a new Golden Age of quality TV? Original, often polemic, each chapter proposes new ways of thinking about and defining quality TV. There is a foreword from Robert Thompson, and heated dialogue between British and US television critics. Also included - and a great coup - are interviews with W. Snuffy Walden (scored *The West Wing* among others) and with David Chase (*The Sopranos* creator). Quality TV provides throughout groundbreaking and innovative theoretical and critical approaches to studying television and for understanding the current - and future - TV landscape.

*Mouse TV* Matt Novak, 1998-01-01 Each member of the Mouse family wants to watch something different on television, but they discover a solution to their problem one night when the television does not work.

**The Revolution Was Televised** Alan Sepinwall, 2013-02-19 A phenomenal account, newly updated, of how twelve innovative television dramas transformed the medium and the culture at large, featuring Sepinwall's take on the finales of Mad Men and Breaking Bad. In *The Revolution Was Televised*, celebrated TV critic Alan Sepinwall chronicles the remarkable transformation of the small screen over the past fifteen years. Focusing on twelve innovative television dramas that changed the medium and the culture at large forever, including *The Sopranos*, *Oz*, *The Wire*, *Deadwood*, *The Shield*, *Lost*, *Buffy the Vampire Slayer*, *24*, *Battlestar Galactica*, *Friday Night Lights*, *Mad Men*, and *Breaking Bad*, Sepinwall weaves his trademark incisive criticism with highly entertaining reporting about the real-life characters and conflicts behind the scenes. Drawing on interviews with writers David Chase, David

Simon, David Milch, Joel Surnow and Howard Gordon, Damon Lindelof and Carlton Cuse, and Vince Gilligan, among others, along with the network executives responsible for green-lighting these groundbreaking shows, *The Revolution Was Televised* is the story of a new golden age in TV, one that's as rich with drama and thrills as the very shows themselves.

*The Cult TV Book* Stacey Abbott, 2010-05-11 As evidenced by the recent proliferation of fan conventions, television show boxed sets, and collectible character figurines, cult TV shows have arguably become the most vital and interesting programming on television. The once-marginal genre manifests itself in a remarkable variety of programs, from the suburban mob drama *The Sopranos* to the beloved occult fantasy *Buffy the Vampire Slayer*. *The Cult TV Book* is a guide to this phenomenon, complete with lively and diverse analyses of the work that goes into conceiving and marketing a cult series, as well as numerous investigations that explore the unique cult appeal of individual programs. Leading scholars, journalists, and writers consider the many aspects of a show – both script-based and visual – that attract the kind of uncompromisingly loyal fan bases that we know as “Trekkies,” for example, or, more recently, “Losties.” *The Cult TV Book* sheds light on the heretofore under-examined science of addictive TV programming, pinpointing the complex arcs and intentionally inadequate explanations that keep viewers coming back for more. The contributors cover every corner of the cult map, all the while trying to define the elusive genre, to understand the cult TV obsession from

the outside in.

**It's Not TV** Felix Gillette, John Koblin, 2022-11-01 "A read so riveting, it's not hard to imagine watching it unfold on Sunday nights." –The Associated Press "An incisive account that is more than a rosy victory lap for one of TV's most influential channels." –Eric Deggans, NPR's "Books We Love" The inside story of HBO, the start-up company that reinvented television—by two veteran media reporters HBO changed how stories could be told on TV. The Sopranos, Sex and the City, The Wire, Game of Thrones. The network's meteoric rise heralded the second golden age of television with serialized shows that examined and reflected American anxieties, fears, and secret passions through complicated characters who were flawed and often unlikable. HBO's own behind-the-scenes story is as complex, compelling, and innovative as the dramas the network created, driven by unorthodox executives who pushed the boundaries of what viewers understood as television at the turn of the century. Originally conceived by a small upstart group of entrepreneurs to bring Hollywood movies into living rooms across America, the scrappy network grew into one of the most influential and respected players in Hollywood. It's Not TV is the deeply reported, definitive story of one of America's most daring and popular cultural institutions, laying bare HBO's growth, dominance, and vulnerability within the capricious media landscape over the past fifty years. Through the visionary executives, showrunners, and producers who shaped HBO, seasoned journalists Gillette and Koblin bring to life a dynamic cast of characters

who drove the company's creative innovation in astonishing ways—outmaneuvering copycat competitors, taming Hollywood studios, transforming 1980s comedians and athletes like Chris Rock and Mike Tyson into superstars, and in the late 1990s and 2000s elevating the commercial-free, serialized drama to a revered art form. But in the midst of all its success, HBO was also defined by misbehaving executives, internal power struggles, and a few crucial miscalculations. As data-driven models like Netflix have taken over streaming, HBO's artful, instinctual, and humanistic approach to storytelling is in jeopardy. Taking readers into the boardrooms and behind the camera, *It's Not TV* tells the surprising, fascinating story of HBO's ascent, its groundbreaking influence on American business, technology, and popular culture, and its increasingly precarious position in the very market it created.

*Bad Hare Day (Goosebumps #41)* R. L. Stine, 2018-09-25 Trick cards, floating scarves, disappearing doves. Tim Swanson loves magic tricks. Someday he wants to be a real magician. Just like his all-time favorite performer, Amaz-0. But then Tim goes to see Amaz-0's show. And he finds out his idol is really just a total grump. That's when Tim decides to steal the bag of tricks. Amaz-0's bag of secret tricks. Scary tricks. Like the one with the multiplying red balls. And all those hissing snakes...

**Cinematic TV** Rashna Wadia Richards, 2021-04-30 For decades after its invention, television was considered by many to be culturally deficient when

compared to cinema, as analyses rooted in communication studies and the social sciences tended to focus primarily on television's negative impact on consumers. More recently, however, denigration has largely been replaced by serious critical consideration of what television represents in the post-network era. Once derided as a media wasteland, TV is now praised for its visual density and complexity. In the last two decades, media scholars have often suggested that television has become cinematic. Serial dramas, in particular, are acclaimed for their imitations of cinema's formally innovative and narratively challenging conventions. But what exactly does cinematic TV mean? In *Cinematic TV*, author Rashna Wadia Richards takes up this question comprehensively, arguing that TV dramas quote, copy, and appropriate (primarily) American cinema in multiple ways and toward multiple ends. Constructing an innovative theoretical framework by combining intertextuality and memory studies, *Cinematic TV* focuses on four modalities of intermedial borrowings: homage, evocation, genre, and parody. Through close readings of such exemplary shows as *Stranger Things*, *Mad Men*, *Damages*, and *Dear White People*, the book demonstrates how serial dramas reproduce and rework, undermine and idolize, and, in some cases, compete with and outdo cinema.

**As Seen on TV** Meredith Schorr, 2022-06-07 Fans of the Hallmark Channel and Gilmore Girls will adore this delightful rom-com about a city girl who goes in search of small-town happiness, only to discover life—and love—are nothing like the TV movies. Emerging journalist Adina Gellar is done with dating in New York City. If she's learned anything from made-for-TV romance movies, it's that she'll find love in a small town—the kind with harvest festivals, delightful but quirky characters, and scores of delectable single dudes. So when a big-city real estate magnate targets tiny Pleasant Hollow for development, Adi knows she's found the perfect story—one that will earn her a position at a coveted online magazine, so she can finally start adulting for real . . . and maybe even find her dream man in the process. Only Pleasant Hollow isn't exactly "pleasant." There's no charming bakery, no quaint seasonal festivals, and the residents are more ambivalent than welcoming. The only upside is Finn Adams, who's more mouthwatering than the homemade cherry pie Adi can't seem to find—even if he does work for the company she'd hoped to bring down. Suddenly Adi has to wonder if maybe TV got it all wrong after all. But will following her heart mean losing her chance to break into the big time?

**Global TV** Denise D Bielby, C. Lee Harrington, 2008-08-17 A reporter for the Los Angeles Times once noted that "I Love Lucy is said to be on the air somewhere in the world 24 hours a day." That Lucy's madcap antics can be

watched anywhere at any time is thanks to television syndication, a booming global marketplace that imports and exports TV shows. Programs from different countries are packaged, bought, and sold all over the world, under the watch of an industry that is extraordinarily lucrative for major studios and production companies. In *Global TV*, Denise D. Bielby and C. Lee Harrington seek to understand the machinery of this marketplace, its origins and history, its inner workings, and its product management. In so doing, they are led to explore the cultural significance of this global trade, and to ask how it is so remarkably successful despite the inherent cultural differences between shows and local audiences. How do culture-specific genres like American soap operas and Latin telenovelas so easily cross borders and adapt to new cultural surroundings? Why is *The Nanny*, whose gum-chewing star is from Queens, New York, a smash in Italy? Importantly, Bielby and Harrington also ask which kinds of shows fail. What is lost in translation? Considering such factors as censorship and other such state-specific policies, what are the inevitable constraints of crossing over? Highly experienced in the field, Bielby and Harrington provide a unique and richly textured look at global television through a cultural lens, one that has an undeniable and complex effect on what shows succeed and which do not on an international scale.

Teen Television Sharon Marie Ross, Louisa Ellen Stein, 2008-03-22 This essay collection explores the phenomenon of teen TV in the United States, analyzing

the meanings and manifestations of this category of programming from a variety of perspectives. Part One views teen television through an industrial perspective, examining how networks such as WB, UPN, The CW, and The N have created a unique economic framework based on demographic niches and teen-focused narrowcasting. Part Two focuses on popular teen programs from a cultural context, evaluating how such programs reflect and at times stretch the envelope of the cultural contexts in which they are created. Finally, Part Three explores the cultures of reception (including the realms of teen consumerism, fan discourse, and unofficial production) through which teens and consumers of teen media have become authors of the teenage experience in their own right.

**TV Noir** Allen Glover,2019-09-24 The pioneering, incisive, lavishly illustrated survey of noir on television—the first of its kind Noir—as a

style, movement, or sensibility—has its roots in hardboiled detective fiction by writers like Chandler and Hammett, and films adapted from their novels were among the first called “film noir” by French cineastes. But film isn’t the only medium with a taste for a dark story. Hundreds of noir dramas have been produced for television, featuring detectives and femmes fatales, gangsters, and dark deeds, continuing week after week, with a new disruption of the social order. In *TV Noir*, television historian Allen Glover presents the first complete study of the subject. Deconstructing its key elements with astute analysis, from NBC’s adaptation of Woolrich’s *The Black Angel* to the anthology programs of the ’40s and ’50s, from the classic period of *Dragnet*, *M Squad*, and *77 Sunset Strip* to neo-noirs of the ’60s and ’70s including *The Fugitive*, *Kolchak*, and *Harry O.*, this is the essential volume on TV noir.
