102 Ways to Apply Career Training in Family History/Genealogy Anne Hart, 2006-09-12 Here are 102+ ways to use training in family history and genealogy when applied to real-world careers in education, business, or government, including creative entrepreneurial start-ups. With the future marriage of genealogy to smart cards, online databases, or similar authentication technology for family history, population registration (census), and library research, it may be easier to research family lines, not only by DNA matches through DNA testing for deep ancestry, but also with smart, electronic cards designed for electronic identity. It's also a way to track military records as another way to trace family history. Careers and research may focus on various state libraries or historical associations. History and family studies are part of an interdisciplinary liberal arts program that emphasizes research and writing. Journalism courses help round out your ability to express in plain language the results of your reading, explorations, and interpretations. Obtaining a degree or even taking one course or self-study in Family, Public, or Social History can lead to broad, interdisciplinary careers. Graduate work in library science, law, journalism, public history, or genetics counseling (with a double major in the life sciences and social work) also lead to careers in which an historical education may be used.

How to Start, Teach, & Franchise a Creative Genealogy Writing Class or Club Anne

Hart, 2008-06-12 It's easy to start, teach, and franchise a creative genealogy writing club, class, or publication. Start by looking at the descriptions of each business and outline a plan for how your group operates. Flesh out each category with your additional research pertaining

to your local area and your resources. Your goal always is to solve problems and get measurable results or find accurate records and resources. Or research personal history and DNA-driven genealogy interpretation reporting. You can make keepsake albums/scrapbooks, put video online or on disc, and create multimedia text and image with sound productions or work with researching records in archives, oral history, or living legacies and time capsules. A living legacy is a celebration of life as it is now. A time capsule contains projects and products, items, records, and research you want given to future generations such as genograms of medical record family history, family newsletters, or genealogy documents, diaries, photos, and video transcribed as text or oral history for future generations without current technology to play the video discs. Or start and plan a family and/or school reunion project or franchise, business or event. Another alternative is the genealogy-related play or skit, life story, or memoir.

How to Open a Business Writing and Publishing Memoirs, Gift Books, Or Success Stories for Clients Anne Hart, 2005-12 Learn what questions to ask and how to interview people for the significant moments in their life stories, and then write, publish, and bind by hand exquisitely-crafted personal gift books, memoirs, or business success stories. Words in memoirs or life success story gift books have a life of their own. The purpose of a hand-made, finely bound memoirs or business success-story gift book is to show how two or more people bring out the best in one another. You'd be surprised how many people are satisfied to pay up to \$10,000 (or more depending upon the publisher) to have only one copy of a hand-bound hardcover book published about their event or life story. What does it take to create and publish a memoirs gift book commemorating a

Bar Mitzvah, confirmation, wedding, or true experience? What quality of personal book do you want to make from scratch-writing, printing, and binding? As far as printing and binding, you can make one finished book at a cost to you of only \$1.50-\$4.50. What you charge a client depends on what it costs you. If you create and publish a custom gift book, you'd publish only one copy of a hand bound, hard-cover book. The tome would contain anywhere from 60 to 100 photos. Text material based on phone or live interviews running at least two hours for one person (or more if needed and about two hours spent per each interview) would be about 80 to 120 published pages-slightly more, but only if necessary. Look at yourself as a designer, writer, interviewer, and book binder. Learn how to make your own pop-up books for all ages.

Dramatizing 17th Century Family History of Deacon Stephen Hart & Other Early New England Settlers Anne Hart, 2005-02 Here is a step-by-step guide to writing historical skits, plays, or monologues for all ages from true life stories, genealogy records, oral history, DNA-driven anthropology, social issues, current events, and personal history of early colonial era settlers. Put direct experience in a small package and launch it worldwide. You could emphasize the early New England 17th century settlers and their diaries of family life, food, clothing, marriage, spirituality, customs, or significant life events, migrations, work, lifestyle, or turning points. Write your life story or your ancestor's or favorite historical person in short vignettes of 1,500 to 1,800 words. Write a longer novel or a short play for school audiences. Write a children's book with illustrations. Write a skit, a monologue, or a play based on genealogy, family history, or significant events. You can focus on relations between families, or early settlers and Native American tribes or on personal family history, marriages, and inter-family issues.

Become a health-aware feature writer, journalist, editor, indexer, abstractor, proofreader, information broker, book packager, investigative reporter, pharmaceutical copywriter, or documentary video producer. Here are the skills you'll need to transform your interest in popular science into writing health and medical feature and filler articles or columns for a wide variety of publications. You'll find not only how-to techniques, but contacts for networking, associations, and where to find the research. You don't need science courses to write about popular science. Feature articles and fillers are wanted on popular health-related subjects for general consumer, women's, men's, and niche magazines.

How to Start Personal Histories and Genealogy Journalism Businesses Anne Hart, 2006 Here's how to open your own genealogy, family history journalism, or personal history business. This includes a genealogy course template and

instruction on how to start and operate a home-based business working with personal and oral histories, genealogy, family history, and life story writing. You also learn how to interview people, what questions to ask, and how to put together a business and/or a course or book on any aspect of genealogy around the world, journalism, writing, personal history, and life story writing. Start your own course using the genealogy course template to inspire you to develop your own specialties and niche areas. Work with almost any ethnic group, and create businesses ranging from DNA-driven genealogy reporting services to family history, memoirs writing, or personal history videography services. Use social history to find information such as female ancestors' maiden names that had not been recorded using hidden and niche areas of information, including ethnic, religious, and institutional sources such as widows' military pension applications. Develop genealogy and personal history classes anywhere. You'll make history. To start, first you need to create a course syllabus-either to teach beginners genealogy or to train professionals in other fields to use personal history techniques to find hidden information, or organize information for the reports you generate for your clients or family. You'll learn how to write social history by using genealogy journalism resources, find hidden records, and market your own course or write your book or report in many different areas of personal history and genealogy journalism. Make family tree charts. Start your own business, club, franchise, or course.

Modern Voice Catherine Weate, 2012-06-11 Modern

Voice: Working with Actors on Contemporary Text has been designed to follow on from Catherine's previous book, Classic Voice: Working with Actors on Vocal Style, focusing on the less defined demands within contemporary drama. Lifting contemporary speech rhythms off the page can be a challenge for actors. Sometimes these rhythms are realistic, resembling or mirroring the speech patterns of real human beings, sometimes they are non-realistic, distorting speech patterns for particular effect. Modern Voice not only provides an accessible approach for understanding speech rhythm but also presents an overview of different types and styles of contemporary text (including the rise of dramatic realism in England, America and Australia). Along the way there are a myriad of practical ideas for directors, lecturers, teachers, trainers and coaches to explore in their workshops and rehearsals.
