The Twelve Keys AK Sharma,2021-01-31 In the Kingdom of Shengxiao a tradition has been carried on for centuries, the Annual Shengxiao Games. The Kingdom of Shengxiao was created by the Gods for the first twelve animals that won the Challenges of the Five Earthly Elements of Water, Fire, Metal, Earth, Wood. Their purpose was to guard the Heavenly Gates from enemies. When the murder of one of the Families' High Elders takes place, a Key is released for another family to claim, this also meant that all Twelve Keys had now been challenged. To protect the Kingdom, it is decreed that the games be changed back to the original Dragon Games which were fought to the death leaving only one winner. Only those who belonged to the Dragonian Clan could make a challenge for the Key. A Prince who is traitor to his father the King, a Prince who does not know he is a Prince, becomes the King's Spy, and a cousin of the King who wants the Crown are the main challengers for the Key. The Water Element Game is the first of the challenges to take place resulting in an unexpected winner. With four challenges remaining, the King's Spy must do everything he can to win the Games and the Kingdom for his King. AK Sharma is a published poet, writer of the Arlo the Ant children's book series, and author of her debut fantasy fiction novel The Twelve Keys. This is the first book of the 'Kingdom' series based on the Chinese Zodiac [Shengxiao in Mandarin]. A broadcaster with the BBC for six years, Anita's passion for the written word has finally been brought to life through her first novel. The inspiration for the novel comes from spending over eight years living and working in China. Anita travelled to over thirteen different cities and was able to discover and experience the rich culture that China has to offer. With two grown up daughters and two young grandsons, Anita fulfils her passion for writing in-between travelling for work and spending time with her family. With one of her 'bucket-list' dreams realised with The Twelve Keys, the second book of the series is now in the process of being written, so watch this space. Visit www.nannibooks.com to find out more about Anita and her children's books written under her pseudonym 'Nanni', the name given to her by her grandsons.

Eurythmy as Visible Singing Rudolf Steiner,2019-10-23 ‘The study of music is the study of the human being. The two are inseparable, and eurythmy is the art which brings this most clearly to expression. In these lectures, Rudolf Steiner guides us along a path toward an understanding of the human form as music comes to rest – the movements of eurythmy bringing this music back to life.’ – Dorothea Mier ‘Fundamentally speaking, music is the human being, and indeed it is from music that we rightly learn how to free ourselves from matter.’ – Rudolf Steiner The focus of these eight lectures is the source of movement and gesture in the human being. The movement in musical experience is thus traced back to its origin in the human instrument itself. Like the degrees of the musical scale, Rudolf Steiner leads his select audience of young artists through eight stages, focusing on the living principles of discovery and renewal. Eurythmy was born in the turbulent decades of the early twentieth century. From an individual question as to whether it was possible to create an art based on meaningful movement, Rudolf Steiner responded with fresh creative possibilities for a renewal of the arts in their totality. The new art of eurythmy was an unexpected gift. Today, music eurythmy, along with its counterpart based on speech, is practiced as an art, taught as a subject in schools, enjoyed as a social activity and applied as a therapy. This definitive translation of Steiner’s original lecture course on eurythmy includes a facsimile, transcription and translation of the lecturer’s notes, together with an introduction and index. The volume is supplemented with an extensive ‘companion’, featuring full commentary and notes compiled by Alan Stott, as well as a translation of Josef Matthias Hauer’s Interpreting Melos.

Twelve Keys Basil Valentine,2004-06-01 All flesh that is derived from the earth, must be decomposed and again reduced to earth; then the earthy salt produces a new generation by celestial resuscitation. For where there was not first earth, there can be no resurrection in our Magistry. For in earth is the balm of Nature, and the salt of the Sages.

Complete Improvisation, Fills & Chord Progressions Book GAIL SMITH,2011-02-24 This book was written to provide a methodology for improvisation on the piano. Patterns are analyzed in and notated in all keys. Examples are given to illustrate how and where a fill fits. Then, step by step you can learn how to add the left hand accompaniment based on a lead sheet, or improvise with the right hand. While improvising, patterns may be woven into a beautiful tapestry of sound. Just as a kaleidoscope creates beautiful colorful patterns before your eye, the patterns in this book will enable you to create a kaleidoscope of musical sounds for your ears. Most of the book consists of short examples using familiar tunes.
