The Start-up PUSH Terri Friel, George Vukotich, 2018-07-01 This book explores, documents and establishes how to help founders start businesses with the collaboration of local and international resources. An incubator, accelerator or science park all have this

goal but provide a variety of foci and support. At a minimum, it's important to not only attract entrepreneurs but to have support services that can include mentoring, financial support and other services that make the incubator really filled with energy and potential. It's becoming insufficient to just have office space and WiFi. It is also important to develop good interactions between directors, the start-up community and residents. Managing the community to help residents to launch successfully is the main goal of the director. It's also important to stay abreast of the innovations happening in start-up support. Today there are many ways to incubate from bare bones office space to Incubator 1.0 space with some support to Incubator 2.0 with a great deal of support including a fund. For that reason, it's important to develop a clear strategy for the type, style, clientele and support that will be built. This book provides guidance in three main areas: 1) What are the different options for incubators, accelerators and science parks, 2) How to assist the start-up founders (residents) and 3) How to manage the space.

Wake up to Praise Wilma Brumfield-Lofton, Elder Shirley Rice, 2020-12-28 In January 2016, Sister Wilma had just completed the Daniel Fast. It was put in her thoughts to start a Prayer Call for people who couldn’t get out to Church during the week. This call would be every Monday at 8:00 am CST. In March 2016 Elder Shirley Rice joined our Prayer Group. She Blessed us with the name Wake Up To Praise and went to Crown Point Indiana to legally get the rights to that name. Later we started a Bible Study Class on Thursday evenings at 7:00 pm CST. Elder Shirley taught our first class, Minister Adrienne Watson taught our second class. Every week we would have a different pastor speak from different states. Among them was Lady Pat’s husband Bishop Alfonso Boone. One day Lady Pat asked Pastor Patterson if he would teach our Bible Study Class, he said yes! We Thank God that Pastor Patterson has continued to teach along with Elder Shirley, empowering us with Gods News!! We are thankful to God for Blessing us with such dedicated and anointed teachers. We appreciate and thank Lady Pamela Patterson and Brother Larry Rice for always allowing their spouses to take time out of their busy schedules to Bless us with Gods Word.

Opening Up Education Toru Iiyoshi, M.S. Vijay Kumar, 2010-09-24 Experts discuss the potential for open education tools, resources, and knowledge to transform the economics and ecology of education. Given the abundance of open education initiatives that aim to make educational assets freely available online, the time seems ripe to explore the potential of open education to transform the economics and ecology of education. Despite the diversity of tools and resources already available—from well-packaged course materials to simple games, for students, self-learners, faculty, and educational institutions—we have yet to take full advantage of shared knowledge about how these are being used, what local innovations are emerging, and how to learn from and build on the experiences of others. *Opening Up Education* argues that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge: by providing incentives for faculty to use (and contribute to) open education goods, and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs. These essays by leaders in open education describe successes, challenges, and opportunities they have found in a range of open education initiatives. They approach—from both macro and micro perspectives—the central question of how open education tools, resources, and knowledge can improve the quality of education. The contributors (from leading foundations, academic institutions, associations, and projects) discuss the strategic underpinnings of their efforts first in terms of technology, then content, and finally knowledge. They also address the impact of their projects, and how close they come to achieving a vision of sustainable, transformative educational opportunities that amounts to much more than pervasive technology.
