L Manion

On the Trail of Ebola Guido van der Groen, 2016 In the mid-seventies, Guido van der Groen and his colleagues at the Institute for Tropical Medicine in Antwerp discovered the deadly virus Ebola. Forty years later, the virus breaks out again in West-Africa. Why is this virus seemingly unstoppable? Could the epidemic have been prevented? Do we have to fear an unprecedented pandemic? To answer these questions, Guido van der Groen, an internationally renowned virus fighter, goes back to where it all began. As a virus fighter, he dedicated the rest of his career to the study of Ebola, HIV and other viruses. Van der Groen puts this unprecedented manifestation of Ebola into an international health management perspective, lifting his book on the geopolitical shelf as well. The result is an exciting read, which makes critical observations about the present pandemic psychoses and which urges authorities to invest in durable solutions. -- ¤ From publisher's description

Computer Network Security Joseph Migga Kizza, 2005-12-05 A comprehensive survey of computer network security concepts, methods, and practices. This authoritative volume provides an optimal description of the principles and applications of computer network security in particular, and cyberspace security in general. The book is thematically divided into three segments: Part I describes the operation and security conditions surrounding computer networks; Part II builds from there and exposes readers to the prevailing security situation based on a constant security threat; and Part III - the core - presents readers with most of the best practices and solutions currently in use. It is intended as both a teaching tool and reference. This broad-ranging text/reference comprehensively surveys computer network security

concepts, methods, and practices and covers network security tools, policies, and administrative goals in an integrated manner. It is an essential security resource for undergraduate or graduate study, practitioners in networks, and professionals who develop and maintain secure computer network systems.

*Pandemics and Resilience: Lessons we should have learned from Zika* David M. Berube, 2023-05-05 The aim of the book was to produce the most comprehensive examination of a pandemic that has ever been attempted. By cataloging the full extent of the Zika pandemic, this book will be the most complete history and epistemic contextualization ever attempted to date. The work should function as the primary source for students, researchers, and scholars who need information about the Zika pandemic. This book examines the technical literature, digital and popular literature, and online materials to fully contextualize this event and provide a bona fide record of this event and its implications for the future. It is somewhat serendipitous that while this work was underway, we are going through another pandemic. One of the primary lessons we did not learn by Zika was pandemic events will return repeatedly, and we need to learn from each one of them to prepare the planet for the next one. Just because Zika seemed to have died out does not make it less important. We were lucky that the virus evolved into what seemed to be a less virulent version of itself, and the vector mosquitoes were concentrated elsewhere. Finally, this book represents a tour de force in scholarship involving nearly 4,000 sources of information and does not shy from a detailed examination

of the controversies, conspiracies, and long-term consequences when we avoid learning from outbreaks, such as Zika.

Uncharted Country, Uncertain Future Carl Douglass,2015-11-10 Sybil Norcroft, M.D., Ph.D, F.A.C.S. leaves California under a cloud. She has been found innocent of a murder charge there but cannot be certain that she will succeed in her new profession as a Wolf News Medical Consultant. The health news story of the century falls into her lap, and the novice commentator runs with the story of weaponized Marburg virus, murdered pygmy slaves, and a world-wide manhunt for the perpetrators. Sybil succeeds beyond anyone's prediction, gains a new daughter in the Congo, and a host of serious friends and enemies who will be part of the rest of her life. She becomes a media darling and an accidental CIA operative. Sybil has to learn like never before how to keep secrets in the new and uncharted country where she now lives.

**BLOOD and KIN** Razaq IVORI,2013-10-09 Blood and kin is about life about love about hate about pain about black about white. Then it goes on to tell about the darkness in the black and the bleakness in the white. Blood and Kin is about women about men about sex about weakness about naivety about virginity and promiscuity. its about sin about the blessings of the gods in heaven and the ones on earth. About finger

nails and daggaers that fail, about death and dying and crys for life a whiff of life. Blood and Kin is about living or leaving

A LUDIC SOCIETY Natalie Denk, 2021-09-09 Contemporary game scholarship offers a broad palette of theories and methods inherited from such fields as sociology and communication studies, experimental sciences, literary analysis, educational sciences and cultural critique. At large, this inherently interdisciplinary research aims for a holistic perspective on the 'LUDIC SOCIETY'. With that in mind, this book is organized into four sections that present related and often intertwined ideas and observations about the ways we manifest ourselves in games and play, how games represent us in the present and in the past, how games and play change us, and what it all may mean for contemporary society. This book invites readers to engage with the key challenges of a ludic society, explore new perspectives and initiate fruitful discussions. It is aimed at both passionate game scholars and all those who want to get a first taste of the multifaceted research field of game studies.

**HUMAN Only** Razaq Ivori,2015-03-24 Human Only is about life, about strife, about the world and the pains in it. About wars and sickness and the brisk business made from its plagues. Human Only is a drama piece copied from the realities and the unrealities of life. It is about knives that cut and lies that hurt. It is not about religion but the mad rush about it, not about love but the lack of it. Human Only is what it is--only human.
