Bella Vista Xyta Lucas,Dale Phillips,2021-04-05 Bella Vista, located in the southwest corner of the Ozark Mountains, was originally founded in the valley of Little Sugar Creek. It is a place of great natural beauty and abundant resources. First used by Native Americans as a hunting and fishing ground, the area remained sparsely settled until after the Civil War. By 1915, this beautiful valley was seen as a perfect spot for a recreational resort community. In 1917, Bella Vista was purchased by the Linebarger brothers, who created one of the nation's premier resorts. In 1963, Cooper Communities expanded the resort into a full-time recreational retirement community, adding lakes, golf courses, and other facilities. Today, Bella Vista is a city of over 30,000 people from all over North America.

The Protected Vista Tom Brigden,2019-05-03 The Protected Vista draws a historical lineage from the eighteenth-century picturesque to present-day planning policy, highlighting how the values embedded within familiar views have developed over time through appropriation by diverse groups for cultural and political purposes. The book examines the intellectual construction of the protected vista, questioning the values entrenched within the view, by whom, and how they are observed and disseminated, to reveal how these views have been, and continue to be, part of a changing historical and political narrative. With a deeper knowledge and understanding of the shifting values in urban views, we will be better equipped to make decisions surrounding their protection in our urban centres. The book identifies the origins of current view protection policy in the aesthetic convention of the picturesque, drawing on a range of illustrated examples in the UK, the US, Australia, Canada and South Africa, to serve as a useful reference for students, researchers and academics in architecture, architectural conservation, landscape and urban planning.
