Webcam Scam Jillian Powell,2006 Carl's family is thrilled when they are chosen for a reality TV show.

Webcam Daniel Miller,Jolynna Sinanan,2014-03-12 The use of webcam, especially through Skype, has recently become established as one more standard media technology, but so far there has been no attempt to assess its fundamental nature and consequences. Yet webcam has profound implications for many facets of human life, from self-consciousness and intimacy to the sustaining of long-distance relationships and the place of the visual within social communications. Based on research in London and Trinidad, this book shows how 'always-on' webcam is becoming an entirely different phenomenon from the initial use of webcam as a videophone. Webcam is examined within the framework of 'polymedia' - that is, the new environments created by the simultaneous presence of a multiplicity of communication technologies - and used to exemplify a theory of attainment that accepts media technologies as aspects of, rather than detracting from, our basic humanity.

Webcam - a Novel of Terror Jack Kilborn,Joe Konrath,2016-05-12 He's watching you. Right now-- Title page.

Moving Images John Fullerton,Astrid Söderbergh Widding,2000-06-22 Seventeen essays examining the impact of new media on the history of cinema. In 1888, Thomas Edison announced that he was experimenting on "an instrument which does for the eye what the phonograph does for the ear, which is the recording and reproduction of things in motion." Just as Edison's investigations were framed in terms of the known technologies of the phonograph and the microscope, the essays in this collection address the contexts of innovation and reception that have framed the development of moving images in the last one hundred years. Three concerns are of particular interest: the contexts of innovation and reception for moving image technologies; the role of the observer, whose vision and cognitive processes define some of the limits of inquiry and epistemological insight; and the role of new media, which, engaging with the domestic sphere as cultural interface, are transforming our understanding of public and private spheres. The seventeen previously unpublished essays in *Moving Images* represent the best of current research in the history of this field. They make a timely and stimulating contribution to debates concerning the impact of new media on the history of cinema. Contributors include: William Boddy, Carlos Bustamante, Warren Buckland, Valeria Camporesi, Bent Fausing, Oliver Gaycken, Alison Griffiths, Christopher Hales, Jan Holmberg, Solveig Jülich, Frank Kessler, Jay Moman, Sheila C. Murphy, Pelle Snickars, Paul C. Spehr, Björn Thuresson, and Åke Walldius.

The Webcam as an Emerging Cinematic Medium Paula Albuquerque,2018 All the world's a stage - literally so, given the ubiquitous presence of webcams recording daily life in cities. This footage, allegedly documentary, recreates cities as cinematic environments as people interact with the multitudes of cameras and screens around them. Paula Albuquerque's original research and experimental films, presented in this groundbreaking book, expose fictionalising elements in archival webcams and explore video surveillance as an urban condition that influences both perceptions of the past and visions of the future.

Lunar and Planetary Webcam User's Guide Martin Mobberley,2006-08-03 This book de-mystifies the jargon of webcams

and computer processing, and provides detailed hints and tips for imaging the Sun, Moon and planets with a webcam. It demonstrates how inexpensive tools are revolutionizing imaging in amateur astronomy. Anyone with a modest telescope and a webcam can now obtain jaw-dropping lunar and planetary images to rival those taken with mid-range astronomical CCD cameras costing thousands of dollars. A glance through the images in this book shows just what spectacular results can be achieved by using a webcam with your telescope! Your scientific results will be sought by professional astronomers.

Webcam Jan Tighe, 2016-12-23 Welcome to Central Park in New York City, where a tiny creature weaves a spiritual and mystical Web. He is a photographer of sorts and a secret admirer of his surroundings. He's especially intrigued by human creatures who inhabit the earth but are unaware of their shared dependency. Chosen and anointed by a Higher Power, the creature's Web captures humans who will discover and embrace their greatest virtue to make a difference on the planet. During a terrorist attack on New York City, the voice of humanity will become stronger than the voice of the enemy. Ordinary people, unaware of a protective and supportive Web beneath their feet, tip the scales of suffering and war with their compassion and love. Webcam is for you.

Webcam J A Konrath, 2019-11-06 Someone is stalking webcam models. He lurks in the untouchable recesses of the black web. He's watching you. Right now. When watching is no longer enough, he comes calling. He's the last thing you'll ever see before the blood gets in your eyes. Chicago Homicide Detective Tom Mankowski (The List, Haunted House) is no stranger to homicidal maniacs. But this one is the worst he's ever chased, with an agenda that will make even the most diehard horror reader turn on all their lights, and switch off all Internet, wifi, computers, and electronic devices. Konrath reaches down into the depths of depravity and drags the terror novel kicking and cyber-screaming into the 21st century. WEBCAM by J.A. Konrath I'm texting you from inside your closet. Wanna play?:) If you are a more sensitive (or adventurous) reader, the Konrath scale rates specific categories from 1 (lowest) to 10 (highest) to give you some idea if this is your kind of book. WEBCAM by JA Konrath Scary - 8 Violent - 7 Funny - 4 Sexy - 5 Crossover - Characters also appear in the Jack Daniels Thriller series and the Jack Daniels and Associates Mystery series This book was previously published under the pen name Jack Kilborn.

Webcam Savvy Clarence Jones, 2017-02-04 If you want to succeed in that next webcam job audition or news interview, you'd better learn how to do it. To get the job - or to get your point across in a news story - you need a lot of webcam savvy. Otherwise, you wind up at the unemployment office; or on the cutting room floor at the network or local TV station. Looking self-confident, relaxed, sincere, and unrehearsed takes a lot of practice.

Very few of us are born with it. You also need the right webcam, and know how to set it up. We have become so accustomed to slickly produced video, you scream AMATEUR-BEGINNER using the built-in camera in a laptop, shot at a strange angle, with the clutter of your bedroom and a barking dog in the background. This book will help you choose the right webcam and microphone (they're very inexpensive); teach you how to build a simple set and place everyday lights; and how to maintain eye contact. There's another secret in this book: successful interviews need to include -- a magic formula that will impress an employer, or guarantee you'll be included in tonight's TV news story. Author Clarence Jones knows what he's writing about. He was a prize-winning TV reporter for 14 years, than an on-camera coach for government and corporate executives for 30 years. He has five other books currently in print -- one of them reviewers call the bible for news media relations.

Sweetie 2.0 Simone van der Hof, Ilina Georgieva, Bart Schermer, Bert-Jaap Koops, 2019-07-06 This book centres on Webcam Child Sex Tourism and the Sweetie Project initiated by the children's rights organization Terre des Hommes in 2013 in response to the exponential increase of online child abuse. Webcam child sex tourism is a growing international problem, which not only encourages the abuse and sexual exploitation of children and provides easy access to child-abuse images, but which is also a crime involving a relatively low risk for offenders as live-streamed webcam performances leave few traces that law enforcement can use. Moreover, webcam child sex tourism often has a cross-border character, which leads to jurisdictional conflicts and makes it even harder to obtain evidence, launch investigations or prosecute suspects. Terre des Hommes set out to actively tackle webcam child sex tourism by employing a virtual 10-year old Philippine girl named Sweetie, a so-called chatbot, to identify offenders in chatrooms. Sweetie 1.0 could be deployed only if police officers participated in chats, and thus was limited in dealing with the large number of offenders. With this in mind, a more pro-active and preventive approach was adopted to tackle the issue. Sweetie 2.0 was developed with an automated chat function to track, identify and deter individuals using the internet to sexually abuse children. Using chatbots allows the monitoring of larger parts of the internet to locate and identify (potential) offenders, and to send them messages to warn of the legal consequences should they proceed further. But using artificial intelligence raises serious legal questions. For instance, is sexually interacting with a virtual child actually a criminal offence? How do rules of criminal procedure apply to Sweetie as investigative software? Does using Sweetie 2.0 constitute entrapment? This book, the outcome of a comparative law research initiative by Leiden University's Center for Law and Digital Technologies (eLaw) and the Tilburg Institute for Law, Technology, and Society (TILT), addresses the application of substantive criminal law and criminal procedure to Sweetie 2.0 within various jurisdictions around the world. This book is especially relevant for legislators and policy-makers, legal practitioners in criminal law, and all lawyers and academics interested in internet-related sexual offences and in Artificial Intelligence and law.

Webcam Chronicles (Second Edition) Vitelli William (author),1901

Ana Voog - Dreaming on Stage Ana Voog,2008-06-16 Coming from a background as a major label recording artist, in 1997 Minnesota based artist Ana Voog started the second continuous 24/7 home webcam, which was the first oriented towards performance art, as well as featuring traditional and new medium artworks. Her webcam has lasted a decade, and her anacam project has been included in the New York Museum of Modern Art, the Weisman Art Museum, and the Walker Art Center; with television appearances on E!, A & E, Hard Copy, and Vibe; and print coverage in such periodicals as USA Today, Newsweek, The Boston Globe, The New York Post, and Playboy. This book is nothing more nor less than an edited collection of Ana Voog's photography, art and writings with a brief introduction to situate schizophrenic artist J.D. Casten's self-effacing minimalist approach to curating the work-the book itself really has no author, but rather a subject with a unique voice (the work of Ana Voog) and an editor with an eye for quality.
