The Whiteboard Daily Book of Cues Karl Eagleman,2022-07-26 There is no such thing as a "golden cue" that works for everyone 100% of the time. Therefore, the more cues a coach has in their toolbox, the more likely they will be able to effectively communicate with their athletes. Coaches use cues—short, easy-to-remember phrases—to help athletes perform movements correctly as well as to convey useful sports psychology perspectives. Athletes commonly hear movement cues like "Crush the Can" and "Grip the Ground" along with motivational cues like "Consistency is King." A passionate coach, lifelong athlete, and advanced degree holder in kinesiology, Karl Eagleman, creator of the popular Whiteboard Daily Instagram, has put together a valuable resource for coaches, athletes, and anyone who wants to improve their own movement. The Whiteboard Daily Book of Cues contains a comprehensive collection of illustrations drawn on a whiteboard—a medium that virtually all coaches are familiar with. It boasts the largest list of cues ever compiled, covering Olympic weightlifting, powerlifting, gymnastics, kettlebell exercises, and monostructural movements (running, rowing, jumping rope, etc.). Each illustration is hand drawn in a simple, stylized way to make the cues easy to retain and to utilize during training. No two athletes are the same; we all learn in our own unique ways. By providing hundreds of cues, this book will help coaches and athletes learn a new way to understand movement for themselves and/or to communicate safe, effective movement to others.

Sharing not Staring Trevor Millum,Chris Warren,2014-04-16 Sharing not Staring steers teachers towards using the interactive whiteboard in ways which purposefully tap into its huge potential to make teaching more interactive, more exciting, more creative and enjoyable. The approaches described in this updated and highly practical new edition fall into the following broad categories: • Spotlight and word cover/reveal effects – having the impact of a puzzle which emphasises the question as opposed to a standard answer • Text Organisation – enabling sequencing and exploration of syntax • PowerPoint – exploiting the creative potential of this often overused or misused tool. • Word – Performing the equivalent of conjuring tricks in the classroom. You can animate text, map it, organise it, hide it or scramble it. • Image, moving image and Flash – discovering the impact and potential of well chose still images or video clips. Flash programs that have specific applications with words can add to the wonder and magic of English. The activities outlined in this book can be undertaken with any of the popular brands of interactive white-board and are relevant with all age groups, across all educational borders.
