Work James Suzman,2022-01-18 This book is a tour de force. --Adam Grant, New York Times bestselling author of Give and Take A revolutionary new history of humankind through the prism of work by leading anthropologist James Suzman Work defines who we are. It determines our status, and dictates how, where, and with whom we spend most of our time. It mediates our self-worth and molds our values. But are we hard-wired to work as hard as we do? Did our Stone Age ancestors also live to work and work to live? And what might a world where work plays a far less important role look like? To answer these questions, James Suzman charts a grand history of work from the origins of life on Earth to our ever more automated present, challenging some of our deepest assumptions about who we are. Drawing insights from anthropology, archaeology, evolutionary biology, zoology, physics, and economics, he shows that while we have evolved to find joy, meaning and purpose in work, for most of human history our ancestors worked far less and thought very differently about work than we do now. He demonstrates how our contemporary culture of work has its roots in the agricultural revolution ten thousand years ago. Our sense of what it is to be human was transformed by the transition from foraging to food production, and, later, our migration to cities. Since then, our relationships with one another and with our environments, and even our sense of the passage of time, have not been the same. Arguing that we are in the midst of a similarly transformative point in history, Suzman shows how automation might revolutionize our relationship with work and in doing so usher in a more sustainable and equitable future for our world and ourselves.

Why We Work Barry Schwartz,2015-09-01 An eye-opening, groundbreaking tour of the purpose of work in our lives, showing how work operates in our culture and how you can find your own path to happiness in the workplace. Why do we work? The question seems so simple. But Professor Barry Schwartz

proves that the answer is surprising, complex, and urgent. We've long been taught that the reason we work is primarily for a paycheck. In fact, we've shaped much of the infrastructure of our society to accommodate this belief. Then why are so many people dissatisfied with their work, despite healthy compensation? And why do so many people find immense fulfillment and satisfaction through "menial" jobs? Schwartz explores why so many believe that the goal for working should be to earn money, how we arrived to believe that paying workers more leads to better work, and why this has made our society confused, unhappy, and has established a dangerously misguided system. Through fascinating studies and compelling anecdotes, this book dispels this myth. Schwartz takes us through hospitals and hair salons, auto plants and boardrooms, showing workers in all walks of life, showcasing the trends and patterns that lead to happiness in the workplace. Ultimately, Schwartz proves that the root of what drives us to do good work can rarely be incentivized, and that the cause of bad work is often an attempt to do just that. How did we get to this tangled place? How do we change the way we work? With great insight and wisdom, Schwartz shows us how to take our first steps toward understanding, and empowering us all to find great work.

Sugar Work Katie Marya, 2022 *Sugar Work* chronicles the complexities of womanhood, race, and gender that arose from growing up around sex work in Atlanta, Georgia in the late 1990s. Coders at Work Peter Seibel, 2009-12-21 Peter Seibel interviews 15 of the most interesting computer programmers alive today in *Coders at Work*, offering a companion volume to Apress's highly acclaimed best-seller *Founders at Work* by Jessica Livingston. As the words "at work" suggest, Peter Seibel focuses on how his interviewees tackle the day-to-day work of programming, while revealing much more, like how they became great programmers, how they recognize programming talent in others, and what kinds of problems they find most interesting. Hundreds of people have suggested names of programmers to interview on the *Coders at Work* web site: www.codersatwork.com. The complete list was 284 names. Having digested everyone's feedback, we selected 15 folks who've been kind enough to agree to be interviewed: Frances Allen: Pioneer in optimizing compilers, first woman to win the Turing Award (2006) and first female IBM fellow Joe Armstrong: Inventor of Erlang Joshua Bloch: Author of the Java collections framework, now at Google Bernie Cosell: One of the main software guys behind the original ARPANET IMPs and a master debugger Douglas Crockford: JSON founder, JavaScript architect at Yahoo! Work and Worship Matthew Kaemingk, Cory B. Willson, 2020-11-17 The modern chasm between secular work and sacred worship has had a devastating impact on Western Christianity. Drawing on years of research, ministry, and leadership experience, Kaemingk and Willson explain why Sunday morning worship and Monday morning work desperately need to inform and impact one another. Together they engage in a rich biblical, theological, and historical

exploration of the deep and life-giving connections between labor and liturgy. In so doing, Kaemingk and Willson offer new ways in which Christian communities can live seamless lives of work and worship.

Life's Work David Milch, 2023-09-12 The creator of *Deadwood* and *NYPD Blue* reflects on his tumultuous life, driven by a nearly insatiable creative energy and a matching penchant for self-destruction. *Life's Work* is a profound memoir from a brilliant mind taking stock as Alzheimer's loosens his hold on his own past. "This is David Milch's farewell, and it will rock you."—Susan Orlean, author of *The Orchid Thief* **ONE OF THE BEST BOOKS OF THE YEAR:** NPR, USA Today, Kirkus Reviews "I'm on a boat sailing to some island where I don't know anybody. A boat someone is operating and we aren't in touch." So begins David Milch's urgent accounting of his increasingly strange present and often painful past. From the start, Milch's life seems destined to echo that of his father, a successful if drug-addicted surgeon. Almost every achievement is accompanied by an act of self-immolation, but the deepest sadnesses also contain moments of grace. Betting on racehorses and stealing booze at eight years old, mentored by Robert Penn Warren and excoriated by Richard Yates at twenty-one, Milch never did anything by half. He got into Yale Law School only to be expelled for shooting out streetlights with a shotgun. He paused his studies at the Iowa Writers' Workshop to manufacture acid in Cuernavaca. He created and wrote some of the most lauded television series of all time, made a family, and pursued sobriety, then lost his fortune betting horses just as his father had taught him. Like Milch's best screenwriting, *Life's Work* explores how chance encounters, self-deception, and luck shape the people we become, and wrestles with what it means to have felt and caused pain, even and especially with those we love, and how you keep living. It is both a master class on Milch's unique creative process, and a distinctive, revelatory memoir from one of the great American writers, in what may be his final dispatch to us all.

Show Your Work! Austin Kleon, 2015-11-04 Kata Edgar Allan Poe, sebagian besar penulis takut jika proses berkaryanya diketahui orang lain. Sementara itu, Pablo Picasso kerap membuat orang yang berkomunikasi dengannya justru kehilangan energi dan motivasi berkarya. Ya, keduanya memang maestro legendaris, tapi sekarang bukan saatnya lagi berkarya ala mereka. Bukan juga zamannya Mozart sang genius musik. Ini eranya kamu, siapa pun kamu, bisa berkarya! Lalu, apa kuncinya? Tunjukkan saja. Di zaman keterbukaan ini, semua orang punya kesempatan sama untuk jadi hebat. Jangan sembunyikan proses kreatifmu. Undang orang-orang untuk melihatnya. Jangan khawatir kritik, karena itu bahan pelajaran buatmu. Ide yang menurutmu tidak menarik, siapa tahu luar biasa bagi orang lain. Lebih dari itu, karyamu juga bisa menginspirasi orang lain. Jadi, tunggu apa lagi? Tak perlu ragu atau malu. Berbagi karya membuatmu kaya! ... Semakin banyak kamu memberi, semakin banyak yang kembali kepadamu.-Paul Arden [Mizan, Noura Books, Karya, Hidup, Berkarya, Kerja, Indonesia]

Ghost Work Mary L. Gray, Siddharth Suri, 2019 A startling exposé of the invisible human workforce that powers the web--and how to bring it out of the

shadows. Hidden beneath the surface of the internet, a new, stark reality is looming--one that cuts to the very heart of our endless debates about the impact of AI. Anthropologist Mary L. Gray and computer scientist Siddharth Suri unveil how the services we use from companies like Amazon, Google, Microsoft, and Uber can only function smoothly thanks to the judgment and experience of a vast human labor force that is kept deliberately concealed. The people who do 'ghost work' make the internet seem smart. They perform high-tech, on-demand piecework: flagging X-rated content, proofreading, transcribing audio, confirming identities, captioning video, and much more. The shameful truth is that no labor laws protect them or even acknowledge their existence. They often earn less than legal minimums for traditional work, they have no health benefits, and they can be fired at any time for any reason, or for no reason at all. An estimated 8 percent of Americans have worked in this 'ghost economy,' and that number is growing every day. In this unprecedented investigation, Gray and Suri make the case that robots will never completely eliminate 'ghost work' and the unchecked quest for artificial intelligence could spark catastrophic work conditions if not stopped in its tracks. Ultimately, they show how this essential type of work can create opportunity--rather than misery--for those who do it.--Dust jacket.

Deep Work Cal Newport,2016-01-05 AN AMAZON BEST BOOK OF 2016 PICK IN BUSINESS & LEADERSHIP WALL STREET JOURNAL BUSINESS BESTSELLER A BUSINESS BOOK OF THE WEEK AT 800-CEO-READ Master one of our economy's most rare skills and achieve groundbreaking results with this “exciting” book (Daniel H. Pink) from an “exceptional” author (New York Times Book Review). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep--spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In *Deep Work*, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four rules, for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, *Deep Work* takes the reader on a journey through memorable stories--from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air--and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. *Deep Work* is an indispensable guide to anyone seeking focused success in a distracted world.

Spanning the duration of Cheever's long and distinguished career, these sixty-one stories chronicle and encapsulate the lives of what has been called "the greatest generation." From the early wonder and disillusionment of city life in "The Enormous Radio" to the surprising discoveries and common mysteries of suburbia in "The Housebreaker of Shady Hill" and "The Swimmer," these are tales that have helped define the form. Featuring a preface by the Pulitzer Prize-winning author, *The Stories of John Cheever* brings together some of the finest short stories ever written. Cheever's crowning achievement is the ability to be simultaneously generous and cynical, to see that the absurd and the profound can reside in the same moment, and to acknowledge both at the detriment of neither. —The Guardian

This Woman's Work Kim Gordon, Sinead Gleeson, 2022-05-03 Edited by iconic musician Kim Gordon and esteemed writer Sinéad Gleeson, this powerful collection of award-winning female creators shares their writing about the female artists that matter most to them. This book is for and about the women who kicked in doors, as pioneers of their craft or making politics central to their sound: those who offer a new way of thinking about the vast spectrum of women in music. *This Woman's Work: Essays on Music* is edited by iconic musician Kim Gordon and esteemed writer Sinéad Gleeson and features an array of talented contributors, including: Anne Enright, Fatima Bhutto, Jenn Pelly, Rachel Kushner, Juliana Huxtable, Leslie Jamison, Liz Pelly, Maggie Nelson, Margo Jefferson, Megan Jasper, Ottessa Moshfegh, Simone White, Yiyun Li, and Zakia Sewell. In this radical departure from the historic narrative of music and music writing being written by men, for men, *This Woman's Work* challenges the male dominance and sexism that have been hard-coded in the canons of music, literature, and film and has forced women to fight pigeon-holing or being side-lined by carving out their own space. Women have to speak up, to shout louder to tell their story—like the auteurs and ground-breakers featured in this collection, including: Anne Enright on Laurie Anderson; Megan Jasper on her ground-breaking work with Sub Pop; Margo Jefferson on Bud Powell and Ella Fitzgerald; and Fatima Bhutto on music and dictatorship. *This Woman's Work* also features writing on the experimentalists, women who blended music and activism, the genre-breakers, the vocal auteurs; stories of lost homelands and friends; of propaganda and dictatorships, the women of folk and country, the racialized tropes of jazz, the music of Trap and Carriacou; of mixtapes and violin lessons.

Work Rules! Laszlo Bock, 2015-04-07 From the visionary head of Google's innovative People Operations comes a groundbreaking inquiry into the philosophy of work -- and a blueprint for attracting the most spectacular talent to your business and ensuring that they succeed.
