Tomorrow, the World Stephen Wertheim,2020-10-27 A new history explains how and why, as it prepared to enter World War II, the United States decided to lead the postwar world. For most of its history, the United States avoided making political and military commitments that would entangle it in European-style power politics. Then, suddenly, it conceived a new role for itself as the world's armed superpower—and never looked back. In *Tomorrow, the World*, Stephen Wertheim traces America's transformation to the crucible of World War II, especially in the months prior to the attack on Pearl Harbor. As the Nazis conquered France, the architects of the nation's new foreign policy came to believe that the United States ought to achieve primacy in international affairs forevermore. Scholars have struggled to explain the decision to pursue global supremacy. Some deny that American elites made a willing choice, casting the United States as a reluctant power that sloughed off "isolationism" only after all potential competitors lay in ruins. Others contend that the United States had always coveted global

dominance and realized its ambition at the first opportunity. Both views are wrong. As late as 1940, the small coterie of officials and experts who composed the U.S. foreign policy class either wanted British preeminence in global affairs to continue or hoped that no power would dominate. The war, however, swept away their assumptions, leading them to conclude that the United States should extend its form of law and order across the globe and back it at gunpoint. Wertheim argues that no one favored “isolationism”—a term introduced by advocates of armed supremacy in order to turn their own cause into the definition of a new “internationalism.” We now live, Wertheim warns, in the world that these men created. A sophisticated and impassioned narrative that questions the wisdom of U.S. supremacy, *Tomorrow, the World* reveals the intellectual path that brought us to today’s global entanglements and endless wars.

But their peaceful life is shattered one day when a neighbor's two-year-old daughter drowns in the Goodwins' pond while under Alice's care. Tormented by the accident, Alice descends even further into darkness when she is accused of sexually abusing a student at the elementary school. Soon, Alice is arrested, incarcerated, and as good as convicted in the eyes of a suspicious community. As a child, Alice designed her own map of the world to find her bearings. Now, as an adult, she must find her way again, through a maze of lies, doubt and ill will. A vivid human drama of guilt and betrayal, *A Map of the World* chronicles the intricate geographies of the human heart and all its mysterious, uncharted terrain. World on the Move Paolo Mauro,Tomas Hellebrandt,2016-12-20 The world is poised on the threshold of economic changes that will reduce the income gap between the rich and poor on a global scale while reshaping patterns of consumption. Rapid economic growth in emerging-market

economies is projected to enable consumers worldwide to spend proportionately less on food and more on transportation, goods, and services, which will in turn strain the global infrastructure and accelerate climate change. The largest gains will be made in poorer parts of the world, chiefly sub-Saharan Africa and India, followed by China and the advanced economies. In this new study, Tomas Hellebrandt and Paulo Mauro detail how this important moment in world history will unfold and serve as a warning to policymakers to prepare for the profound effects on the world economy and the planet.

Thieves' World® Joe Haldeman, John Brunner, Philip José Farmer, 2020-02-04 Missing Game of Thrones? Dare to “be pulled into political intrigues, watch new gods replace old, and witness fortunes rise and fall and rise again” (Book Riot). A classic series for a new generation of fantasy adventure fans, *Thieves' World®* paved the way for the shared-world anthology tradition with epic worldbuilding, unforgettable characters, and nonstop action thanks to the legendary authors who contribute to it. The series's groundbreaking debut features stories by John Brunner, Lynn Abbey, Poul Anderson, Andrew J. Offutt, Robert Lynn Asprin, Joe Haldeman, Christine DeWees, and Marion Zimmer Bradley, who populate the lawless city of Sanctuary with orphans and wizards, fortune tellers and emperors, merchants and madams, spies,

assassins, and, of course, thieves. “Sanctuary was the city where anything could happen, where characters created by some of the best fantasy writers of the generation crossed paths and shared adventures.” —Black Gate “A bold and daring experiment in fantasy storytelling . . . We are introduced to the cast of characters, including beggars and crime lords, wizards and soldiers, minstrels and thieves, as this new chapter in the life of Sanctuary begins, life under the governorship of Prince Kadakithis.” —Fantasy-Faction

The World Richard Haass, 2021-05-11 The New York Times Bestseller “A superb introduction to the world and global issues. Richard Haass has written something that is brief, readable, and yet comprehensive—marked throughout by his trademark intelligence and common sense.” —Fareed Zakaria An invaluable primer from Richard Haass, president of the Council on Foreign Relations, that will help anyone, expert and non-expert alike, navigate a time in which many of our biggest challenges come from the world beyond our borders. We live in a global era, in which what happens thousands of miles away often affects our lives. Although the United States is bordered by two oceans, those oceans are not moats. And the so-called Vegas rule—what happens there stays there—does not apply. Globalization can be both good and bad, but it is not something that individuals or countries can opt out of. The choice we face is how to respond. The World focuses on history, what makes each region of the world tick, the many challenges globalization presents, and the most influential countries, events, and ideas, to provide readers with the background they need to make sense of this complicated and interconnected world.
