Unlocking Access to Finance for SMEs: A Cross-Country Analysis Mr. Armand Fouejieu, Anta Ndoeye, Tetyana Sydorenko, 2020-03-13 Countries in the MENAP and CCA regions have the lowest levels of financial inclusion of small and medium enterprises (SMEs) in the world. The paper provides empirical evidence on the drivers of SME access to finance for a large sample of countries, and identifies key policy priorities for these two regions: economic and institutional stability, competition, public sector size and government effectiveness, credit information infrastructure (e.g., credit registries), the business environment (e.g., legal frameworks for contract enforcement), and financial supervisory and regulatory capacity. The analysis also shows that improving credit information, economic competition, the business environment along with economic development and better governance would help close the SME financial inclusion gap between MENAP and CCA regions and the best performers. The paper concludes on the need to adopt holistic policy strategies that take into account the full range of macro and institutional requirements and reforms, and prioritize these reforms in accordance with each country's specific characteristics.

Unlock Your Creative Genius Bernard Golden, 2010-04-06 A Noted Psychologist Shows You How to... 'Embrace Your Passion? Maximize Your Courage to Create? Identify and Overcome Personal Barriers? Awaken Your Natural Curiosity? Increase Your Emotional Intelligence to Create? Prepare to Be Inspired Bernard Golden has provided a comprehensive manual of cognitive behavioral therapy for alleviating creative block. This book is a must-read for all students of creativity, as well as for writers, artists, inventors, and all individuals who feel their creative powers percolating just out of reach. It will become required reading for my course. -SHELLEY H. CARSON, Ph.D., HARVARD UNIVERSITY, Lecturer and Assistant Head Tutor, Psychology Instructor for the course Creativity: Madmen, Geniuses, and Harvard Students Creativity is one of life's great sources of fulfillment, whether it is expressed in the arts, science, business, or sheer entertainment. When we are at our creative best, we experience emotions of joy, excitement, anticipation, hope, and deep satisfaction. Unfortunately, for many people such moments of uninhibited creative drive are all too rare. Often, when we try to be creative, we also experience the inhibiting emotions of anxiety, self-doubt, judgmental attitudes, or even shame, guilt, and physical discomfort. Psychologist Bernard Golden helps us to be our authentic selves by pursuing our individual creative paths in this motivational guide. Filled with the insights and practical techniques culled from his almost thirty years as a psychotherapist, *Unlock Your Creative Genius* gives you the tools to unleash your creative imagination and manage the tension and negative mind-body reactions that often impede the creative flow. Golden first offers a variety of strategies that help the reader become aware of the often-unconscious obstacles to creative fulfillment. Among these are fear of failure; survivor's guilt, when friends or loved ones are ill or have died; the shame of failing to meet our own or others' unrealistic expectations; grandiose fantasies; problems with self-discipline; a pattern of dependency that impedes self-motivation; and an aversion to being alone even though creative expression usually demands time by ourselves. To counter these negative reactions, Golden provides guidelines to enhance positive emotions such as openness to change, trust, and the commitment essential for creativity. He also stresses the need to promote physical calm to offset tension and the importance of developing self-compassion, a vital resource in dealing with fear, shame, and guilt. This inspiring, helpful, and very practical book offers readers the freedom to live authentically as they access, accept, and act on their creative genius. Bernard Golden, Ph.D. (Chicago, IL), a clinical psychologist since 1977, is the author of *Healthy Anger: How to Help Children and Teens Manage Their Anger* and the coauthor (with Jan Fawcett, MD, and Nancy Rosenfeld) of *New Hope for People with Bipolar Disorder*.

Unlock the Sales Game Ari Galper, 2015-04-15 Ari Galper's *Unlock The Game* is the greatest sales breakthrough in the last 20 years. Brian Tracy, Founder of Brian Tracy International Stop selling, start creating trust. If you flick through the pages of typical sales books and sales training material, you will find a constant flow of sales messages like, Focus on closing the sale, Overcome objections, Be relentless, Accept rejection as a normal part of selling, Use persuasion to get useful information about your prospects, and Chase the sale. In short, get the sale at the expense of the human relationship. For the customer, this approach is transparent and all too familiar. Crossing social boundaries and adding pressure to the sales process makes it a gut-wrenching and painful process. There is a much better way to succeed in selling – moving away from the hidden agenda of focusing on making the sale to a place of complete trust and authenticity. When you arrive at this place, it opens up a whole new world of sales opportunities for you and your business. In other words, when you stop selling and start building authentic relationships based on trust, authenticity and integrity, the possibilities are endless. Ari Galper, The World's #1 Authority on Trust-Based Selling, and founder of *Unlock The Game*, the most successful trust-based selling approach adopted by thousands of business owners and sales consultants worldwide, has dramatically changed the way millions of sales transactions are made today. In his new book *Unlock The Sales Game*, he directly challenges all the selling rules that are considered status quo thinking among most small and large businesses and provides a new and authentic sales mindset -- along with his very powerful trust-based languaging -- that is taking the sales world by storm. Here's a sampling of what you'll discover: Seven Ways to Cut Loose from Old Sales Thinking How to Sales Call Using Your Right Brain – So You Can Make Selling Enjoyable and Productive Seven Steps to Selling Follow-Up Seven Ways to Stop Chasing Decision Makers How to Recognise and Diffuse Hidden Pressures in Selling The Surprising Truth About Selling – Three Selling Myths and Why They Hurt You No More Selling Scripts? Unlock Teen Brainpower Judy Willis, 2019-11-13 All teens today, born after 2000, were thrust into a world with challenges and opportunities non-existent for previous generations. The compelling natures of the internet and social media, combined with the accelerated accumulation of information and changing facts, place exceedingly high demands on their brains' still developing critical control centers. Without guided opportunities, though, their brains will not achieve adequate capability to develop these control centers until their late twenties or beyond. While this book is for teens, it is parents, dedicated to their children's success, who will guide them to the book's resources so they can develop the brain circuits they need now, instead delaying a further ten years. Teens will enjoy learning about the neuroscience describing how their brains learn best and then choosing the activities they like, to activate their brain's neuroplasticity to build their essential control networks now. Through the activities and keys in this book, they will assume the drivers' seats as they boost their focus, organization, planning, motivated effort, thoughtful decision making, emotional self-regulation, and memory construction. As teens build the brains they want by using the guided skills they choose, they will embark on the path to achieving their highest potentials, effectively and joyfully.
