Ghiyāth Rāsim Mad'hūn

Adrenalin Ghiyāth Rāsim Mad'hūn, 2017 Poetry. Middle Eastern Studies. Translated from the Arabic by Catherine Cobham. Here is ADRENALIN, Syrian-born, Stockholm-based Palestinian poet Ghayath Almadhoun's first collection to be published in English. This sinuous translation comprises poems that span years and continents, that circulate between cities, ideas, lovers, places of refuge, war zones, time zones, histories. Here is a vital, relentless, intertextual voice that refuses arrest by sentimentality, that pursues the poetry coursing underneath the poetry.

You & Me Forever Valerie Hsiung, 2020 Poetry. Asian American Studies. With her second volume, Valerie Hsiung proves herself to be a poet of lyric's volatile possibility, detonating poetry's uncertain truce between reader and speaker, the deadly and the inconsequential, the profound and the profane. YOU & ME FOREVER performs a multitude of teetering voices through a multitude of tangency points--between the violence enacted against girl bodies and the violence enacted against earth, between inherited language or mother tongue and made/found language or acquired tongue, between the speaking machine and the transhuman, between the woman as artist and the woman as monster, between the horizontality of plain speech and the verticality of lyric fragments. In response, the reader's role fluctuates from direct addressee to participant, from chorus member to puppet master--all while the dark angel of the circus hovers above like a shadow on the page. A storied, oscillating breath-scape, a wondrous tertium quid, Valerie Hsiung's YOU & ME FOREVER maps a world that moves as simultaneously paradoxical, relational, and permutational. Edged with the epic, speech-based and strange, the writings enact the promise of dreams as they address matters of hauntings and bodies, displacement, and the nature of capital, exile, and art. Here the narrative ripples, achieves both temporal and spatial possibilities, works both boundariness and dissolve. A destabilizing marvel.--Hoa Nguyen The first time I read Valerie Hsiung's YOU & ME FOREVER, I had a vision of a bonfire in which countless volumes of love-twisted and love-twisting works of literature, including sculptures and films, were reduced to ash, and from the ashes were intuitively yet precisely drawn filaments on which were inscribed prophetic dialogues that voiced the poet's relationship with the forces that would come to make, and perpetually threaten to unmake, her world. The second time I read YOU & ME FOREVER, there was neither filament nor fire, but an animated frieze, or maybe rainfall or serrated light, of intimate retribution, that is retributive intimacy. I say read, but that is not the word that accurately describes what actually happened.--Brandon Shimoda

Action, Freedom and Responsibility Subasini Barik, 2022-10-19 This book, a work on human doing, analyses and applies three central aspects of human life – Action, Freedom and Responsibility – in the wide spectrum of the Philosophy of Mind. Reflections on these issues and their interconnections have a significant effect on the Philosophy of Value and application of ethical theories in practical life. This book even reconstructs the conceptual connection between action and freedom, on the one hand, and that between freedom and responsibility, on the other. It also puts the concepts of freedom and determinism to critical test and reinterprets them from different angles and perspectives. The conventional doctrine of karma, based on the teachings of the Bhagavadgītā, is relieved from its usual deterministic presentation and a logically reasonable explanation is offered. Human actions and human agency are central concepts in the philosophy of mind and action. Free will and responsibility constitute the bedrock of the moral life of the human agents and the book pinpoints that freedom is meant to undertake the goal-oriented actions. It is, therefore, focused on the enquiry into the various aspects of philosophy of mind, as well as the philosophy of value.

Action Learning Wojciech W. Gasparski, 2017-11-30 Praxiology is the study of working and doing from the point of view of effectiveness. It has three components: analysis of concepts involving purposive actions; critique of modes of action from the viewpoint of efficiency; and normative advisory aspects in recommendations for increasing human efficacy. This sixth volume of the Praxiology series focuses on action learning. Learning from distinguishable action is surprisingly different than learning from a subject expert in human or book form. For those who have worked with and in action learning, the latest form is always distinguishably different from a former experience. Action learning programs are not, in general, intended to tackle puzzles, namely, questions to which an answer may be said to exist even if that answer is difficult to find; action learning is intended to help to develop the ability to tackle problems or opportunities, of which different persons, all experienced, intelligent, and motivated, might well advocate different courses of action, all reasonable. The essentials of action learning, according to this volume, are: there can be no learning unless the participant receives feedback about his/her performance; participants learn only of their own volition and never at the will of others; the volition to learn is most readily engendered by the lure of success or by the fear of calamity. Building upon these essentials, the authors view action learning as a process of inquiry beginning with the experience of not knowing what to do next, and finding that an answer is not available from current expertise. All chapters in this volume are sound contributions to the continuing debate on the processes of learning from distinguishable action. Action Learning is intriguing reading for sociologists, philosophers, managers, and researchers of all disciplines.

Essays on Freedom of Action (Routledge Revivals) Ted Honderich,2015-06-03 Essays on Freedom of Action, first published in 1973, brings together original papers by contemporary British and American philosophers on questions which have long concerned philosophers and others: the question of whether persons are wholly a part of the natural world and their actions the necessary effects of causal processes, and the question of whether our actions are free, and such that we can be held responsible for them, even if they are the necessary effects of casual processes. This volume will be of interest not only to those who are primarily concerned with philosophy but also to students in those many other disciplines in which freedom and determinism arise as problems.
