The Responsible Administrator Terry L.

Cooper, 2011-04-08 Those who serve the public trust must take special care to ensure they make ethical and responsible decisions. Yet the realities of bureaucracies, deadlines, budgets, and demands for quick results make the payoffs for dealing formally with ethics seem unclear. Since its original publication, *The Responsible Administrator* has guided professionals and students alike as they grapple with the challenges of making ethical, responsible decisions in real world situations. This new edition includes information on coping with new demands for accountability, as well as new cases and examples, an examination of current issues relevant to administrative ethics, and supplementary materials for professors. Coopers theoretical framework and practical applications and techniques will help you consider all of the factors involved in a decision, ensuring that you balance professional, personal, and organizational values. Case studies and examples illustrate what works and what does not. *The Responsible Administrator* helps both experienced and novice public administrators and students become effective decision makers, provides them with a solid understanding of the role of ethics in public service and the framework to incorporate ethical and values-based decision making in day-to-day management.

Philip Dru Mandell Edward House, 2007-07-01

Philip Dru Edward Mandell House, 2020-04-25 In the year 1920, the student and the statesman saw many indications that the social, financial and industrial troubles that had vexed the United States of America for so long a time were about to culminate in civil war. Wealth had grown so strong,

that the few were about to strangle the many, and among the great masses of the people, there was sullen and rebellious discontent. The laborer in the cities, the producer on the farm, the merchant, the professional man and all save organized capital and its satellites, saw a gloomy and hopeless future. With these conditions prevailing, the graduation exercises of the class of 1920 of the National Military Academy at West Point, held for many a foreboding promise of momentous changes, but the 12th of June found the usual gay scene at the great institution overlooking the Hudson.

Philip Dru Edward M. House, 2020-05-04 In the year 1920, the student and the statesman saw many indications that the social, financial and industrial troubles that had vexed the United States of America for so long a time were about to culminate in civil war. Wealth had grown so strong, that the few were about to strangle the many, and among the great masses of the people, there was sullen and rebellious discontent. The laborer in the cities, the producer on the farm, the merchant, the professional man and all save organized capital and its satellites, saw a gloomy and hopeless future. With these conditions prevailing, the graduation exercises of the class of 1920 of the National Military Academy at West Point, held for many a foreboding promise of momentous changes, but the 12th of June found the usual gay scene at the great institution overlooking the Hudson. The President of the Republic, his Secretary of War and many other distinguished guests were there to do honor to the occasion, together with friends, relatives and admirers of the young men who were being sent out

to the ultimate leadership of the Nation's Army. The scene had all the usual charm of West Point graduations, and the usual intoxicating atmosphere of military display.
