Skip Ad In 5 Gordon Torr,Faisal Ahmed,2018-11-10

The Chief Marketing Officer has never had it so good. Or so bad. Just as data, technology and real-time insights have made it possible to connect, measure and adjust brand messaging at every point of the customer journey, ad-skipping is teaching the same customers to ignore it - and ad-blocking is enabling them to avoid it entirely. The CMO's paradox won't be resolved by the traditional tools of brand planning, nor by doubling down on digital surveillance and manipulation. Now a digital maverick and a seasoned creative director have combined their experience and knowledge of the world's biggest brands to put forward a radical alternative. Outlined in five brief chapters, their phenomenological model reveals that the fastest growing businesses are succeeding by removing the physical, emotional and informational friction that currently intervenes between buyers and sellers - in some cases by facilitating purchase and delivery - but increasingly by removing the kind of brand noise that is turning the expected customer response of attraction very suddenly to repulsion. The ad-blocker's guide to brand planning is timely, important - and unskippable. About the authors: Faisal Ahmed is a digital trailblazer who continues to defy categorisation. He has advised video game companies, Premier League football clubs, pharmaceutical corporates and the UK government, among many others. Faisal co-authored the definitive guide to digital marketing in healthcare, and is leading the fight for greater diversity in UK and global advertising. Gordon Torr is a former global creative director of J. Walter Thompson, a part-time brand planner, a part-time novelist, an international conference speaker and the author of *Managing Creative People*.

Ad Blocking Survival Guide Neil Smyth,2016-04-04 Over

200 million people now use an ad blocker when browsing the internet, a 41% increase over the preceding 12 month period. This widespread use of ad blocking technology is expected to result in over \$20 billion in lost advertising revenue this year alone. Despite the magnitude of these numbers, the threat of ad blocking is largely an invisible threat to the average web publisher. Unless steps are taken to assess the impact of ad blocking on an individual website, the only sign that ad blocking is an issue is likely to be a decline in advertising revenue. Ad blocking is certainly far from the only challenge faced by web publishers today. The good news, however, is that ad blocking is one of the few areas where web publishers have some control over how to respond to the issue. We can't cure ad blindness, stop ad budgets migrating to Facebook, and whatever is causing revenues from Google AdSense advertising to decline is far beyond our control. What we do control is our own websites and, by extension, how we react to, communicate with and respond to visitors using ad blocking is entirely up to us. While there is no one size fits all solution, the goal of this book is to outline a range of proven strategies designed to not only detect, quantify and mitigate the threat of ad blocking, but also move beyond advertising as a sole source of revenue. The chapters in this book cover a variety of options, including code examples, ranging from passive measuring of ad blocking behavior to the more aggressive step of denying access to visitors using an ad blocker. Topics covered in this book include: Learn how ad blocking works Detect when visitors are blocking ads Assess ad blocking impact on your site Use ad reinsertion to fill blocked ads Generate revenue beyond advertising Persuade visitors to whitelist your website Learn how to deny site access to ad blockers Track visitor whitelist compliance rates Generate revenue with native advertising

Reasons for ad-avoidance and its effect on website publishers Christina Neumayer, 2021-10-18 Bachelor Thesis from the year 2019 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, University of Mannheim, language: English, abstract: This literature review summarises current research on general attitudes towards the presence of advertisements in the media. It analyses reasons for and methods of ad-avoidance, focussing on ad-avoidance using ad-blockers on the internet. The detrimental effects of ad-blockers on website revenues and quality underline the ongoing conflict of interests between website publishers and ad-blockers. Furthermore, the thesis at hand summarises publishers' reactions to ad-blockers and provides an outlook on possible solutions to the conflict.

Will Ad Blocking Break the Internet? Ben Shiller, Joel Waldfogel, Johnny Ryan, 2017 Ad blockers allow Internet users to obtain information without generating ad revenue for site owners; and by 2016 they were used by roughly a quarter of site visitors. Given the ad-supported nature of much of the web, ad blocking poses a threat to site revenue and, if revenue losses undermine investment, a possible threat to consumers' access to appealing content. Using unique, proprietary, and site-specific data on the share of site visitors using ad blockers at a few thousand sites, along with Alexa traffic data, we explore the impact of ad blocker usage on site quality, as inferred from traffic ranks, 2013-2016. We find that each additional percentage point of site visitors using ad blockers raises (worsens) its traffic rank by about 0.6 percent over a 35 month period, with stronger effects at initially worse-ranked sites. We provide additional evidence of causality by showing that the

relationship between traffic trends and eventual ad blocking does not predate ad blocking. Plausible instruments for ad blocking also deliver consistent results. Effects of ad blocking on revenue are compounded by the fact that ad blocking reduces visits, while also generating less revenue from remaining visitors employing ad blockers. We conclude that ad blocking poses a substantial threat to the ad-supported web.

Charting the Sustainable Future of ASEAN in Science and Technology Nurul Zawani Alias, Rizana Yusof, 2020-04-23 This book showcases selected conference papers addressing the sustainable future of ASEAN from the perspectives of science and technology disciplines. In addressing the 17 Sustainable Development Goals (SDGs) envisioned by the United Nations in the domains of environment, health and well-being, posing potential means of reducing inequalities globally, the authors target specific issues and challenges confronting the fast-growing region of ASEAN and present suggestions for co-operation and commitment from governments, non-governmental organisations (NGOs) and society at large, in line with the ASEAN Vision 2020. Papers are selected from the 3rd International Conference on the Future of ASEAN (ICoFA) 2019, organised by Universiti Teknologi MARA in Malaysia, whose conference theme “Charting the Sustainable Future of ASEAN” enables intellectual discourse on sustainability issues from science and technology, as well as business and the social sciences. The selection of papers is published in two books, comprised of scholarly and practical insights on sustainability in ASEAN. This book from science and technology scholars is of interest to researchers and policymakers interested in sustainability developments in the ASEAN region.

Unpacking Creativity Paula Pérez Sobrino, Jeannette

Littlemore, Samantha Ford, 2021-09-02 Figurative communication (the use of metaphor, metonymy, hyperbole and irony) provides economy of expression, clarity, persuasiveness, politeness, evaluation, and communication of emotions. However, it also increases the potential for misunderstanding in situations when people lack shared background knowledge. This book combines theoretical frameworks with empirical studies that measure the effectiveness of different approaches to the use of figurative language in advertisements, to show how to maximise the benefits of creative metaphor and metonymy in global advertising. It highlights how subtle differences in colour, layout, and combinations of different kinds of figurative language affect the reception and appreciation of creative advertising, shedding new light on the nature of figurative communication itself. With a balance between theory, experiments and practical case studies, this book is accessible for academics in linguistics and communication studies, as well as advertising and marketing professionals.

Cyber Crime Investigator's Field Guide Bruce Middleton, 2022-06-22 Transhumanism, Artificial Intelligence, the Cloud, Robotics, Electromagnetic Fields, Intelligence Communities, Rail Transportation, Open-Source Intelligence (OSINT)—all this and more is discussed in Cyber

Crime Investigator's Field Guide, Third Edition. Many excellent hardware and software products exist to protect our data communications systems, but security threats dictate that they must be all the more enhanced to protect our electronic environment. Many laws, rules, and regulations have been implemented over the past few decades that have provided our law enforcement community and legal system with the teeth needed to take a bite out of cybercrime. But there is still a major need for individuals and professionals who know how to investigate computer network security incidents and can bring them to a proper resolution. Organizations demand experts with both investigative talents and a technical knowledge of how cyberspace really works. The third edition provides the investigative framework that needs to be followed, along with information about how cyberspace works and the tools that reveal the who, where, what, when, why, and how in the investigation of cybercrime. Features New focus area on rail transportation, OSINT, medical devices, and transhumanism / robotics Evidence collection and analysis tools Covers what to do from the time you receive the call, arrival on site, chain of custody, and more This book offers a valuable Q&A by subject area, an extensive overview of recommended reference materials, and a detailed case study. web equus
embodies a
paradox he is at
once in chains yet
also has the
capacity to be
free like christ
equus must first
suffer in order to
bring salvation
alan will be saved
he says by riding
away on equus
the horse can
thus be
interpreted as

alan s escape
from the
pressures of his
family life and
modern society
