Crip Up the Kitchen Jules Sherred,2023-05-09 A comprehensive guide and recipe collection that brings the economy and satisfaction of home cooking to disabled and neurodivergent cooks. Crippling / Crip Up: A term used by disabled disability rights advocates and academia to signal taking back power, to lessen stigma, and to disrupt ableism as to ensure disabled voices are included in all aspects of life. When Jules Sherred discovered the Instant Pot multicooker, he was thrilled. And incensed. How had no one told him what a gamechanger this could be, for any home cook but in particular for those with disabilities and chronic illness? And so the experimenting—and the evangelizing—began. The kitchen is the most ableist room in the house. With 50 recipes that make use of three

key tools—the electric pressure cooker, air fryer, and bread machine—Jules has set out to make the kitchen accessible and enjoyable. The book includes pantry prep, meal planning, shopping guides, kitchen organization plans, and tips for cooking safely when disabled, all taking into account varying physical abilities and energy levels. Organized from least to greatest effort (or from 1 to “all your spoons,” for spoonies), beginning with spice blends and bases, Jules presents thorough, tested, inclusive recipes for making favourites like butter chicken, Jules’s Effin’ Good Chili, Thai winter squash soup, roast dinners, matzo balls, pho, samosas, borshch, shortbread, lemon pound cake, and many more. Jules also provides a step-by-step guide to safe canning and a template for prepping your freezer and pantry for post-surgery. With rich accompanying photography and food histories, complete nutritional information and methods developed specifically for the disabled and neurodivergent cook, *Crip Up the Kitchen* is at once inviting, comprehensive, and accessible. If you’ve craved the economy and satisfaction of cooking at home but been turned off by the ableist approach of most cookbooks—this one’s for you!

Desert Gardens of Steve Martino Caren Yglesias, 2018-04-03 This survey of twenty-one gardens by Steve Martino, whose work blends colorful, man-made elements with native plants to reflect the sun-drenched beauty of the desert, is sure to inspire gardeners, landscapers, and admirers of California and the Southwest. For more than thirty years, Steve Martino has been committed to the development and advancement of landscape architecture in the Southwest. His pioneering work with native plant material and the development of a desert-derived design aesthetic is widely recognized. A recurring theme of his work is the dramatic juxtaposition of man-made elements with ecological processes of the region. His love for the desert--the interplay of light and shadow, the colors, plants, and wildlife--inspires his work. As Martino explains, Gardens consist of two worlds, the man-made and the natural one. I've described my design style as 'Weeds and Walls'--nature and man. I use native plants to make the transition from a building to the

adjacent natural desert. Though Martino's work is deeply connected to the natural world, he also has a flair for the dramatic, which is apparent from his lively color selections, sculptural use of plants, and keen attention to lighting, shadows, and reflections. Boldly colored stucco walls frame compelling views of the desert and sky, expanding the outdoor living area while solving common site problems such as lack of privacy or shade. Interspersed are custom structures molded in translucent fiberglass in vivid hues--colorful arbors, outdoor showers, and internally lit benches.
