*Animals* Emma Jane Unsworth, 2015-10-06 It is the moment every twenty-something must confront: the time to grow up. Adulthood looms, with all its numbing tranquility and stifling complacency. The end of prolonged adolescence is near. Laura and Tyler are two women whose twenties have been a blur of overstayed parties, a fondness for drugs that has shifted from cautious experimentation to catholic indulgence, and hangovers that don't relent until Monday morning. They've been best friends, partners in excess, for the last ten years. But things are changing: Laura is engaged to Jim, a classical pianist who has long since given up the carousing lifestyle. He disapproves of Tyler's reckless ways and of what he perceives to be her bad influence on Laura. Jim pulls Laura toward adulthood and responsibility, toward what society says she should be, but Tyler isn't ready to let her go. But what does Laura want for herself? And how can she choose between Tyler and Jim, between one life she loves and another she's supposed to love? Raw, uproarious, and deeply affecting, *Animals* speaks to an entire generation caught between late-adolescence and adulthood wondering what exactly they'll have to give up in order to grow up.

**On Animals** Susan Orlean, 2021-10-12 NATIONAL BESTSELLER "Magnificent." —The New York Times \* "Beguiling, observant, and howlingly funny." —San Francisco Chronicle \* "Spectacular." —Star Tribune (Minneapolis) \* "Full of astonishments." —The Boston Globe Susan Orlean—the beloved New Yorker staff writer hailed as "a national treasure" by The Washington Post and the author of the New York Times bestseller *The Library Book*—gathers a lifetime of musings, meditations, and in-depth profiles about animals. "How we interact with animals has preoccupied philosophers, poets, and naturalists for ages," writes Susan Orlean. Since the age of six, when Orlean wrote and illustrated a book called *Herbert the Near-Sighted Pigeon*, she's been drawn to stories about how we live with animals, and how they abide by us. Now, in *On Animals*, she examines animal-human relationships through the compelling tales she has written over the course of her celebrated career. These stories consider a range of creatures—the household pets we dote on, the animals we raise to end up as meat on our plates, the creatures who could eat us for dinner, the various tamed and untamed animals we share our planet with who are central to human life. In her own backyard, Orlean discovers the delights of keeping chickens. In a different backyard, in New Jersey, she meets a woman who has twenty-three pet tigers—something none of her neighbors knew about until one of the tigers escapes. In Iceland, the world's most famous whale resists the efforts to set him free; in Morocco, the world's hardest-working donkeys find respite at a special clinic. We meet a show dog and a lost dog and a pigeon who knows exactly how to get home. Equal parts delightful and profound, enriched by Orlean's stylish prose and precise research, these stories celebrate the meaningful cross-species connections that grace our collective existence.

**The Encyclopedia of Animals**, 2004 This lavishly illustrated trade reference to mammals, birds, reptiles, amphibians, fishes, and invertebrates features hundreds of glorious photos, masterful illustrations, and informative maps.

**The Animal Book** Steve Jenkins, 2013 The Caldecott Honor-winning author/illustrator of *What Do You Do With a Tail Like This?* offers a visual feast in this rich treasury that explores the world around us and the extraordinary creatures that we share it with. 50,000 first printing.

Talking to Animals Jon Katz, 2017-05-02 New York Times bestselling author Jon Katz—"a Thoreau for modern times" (San Antonio Express-News)—offers us a deeper understanding of the inner lives of animals and teaches us how we can more effectively communicate with them, made real by his own remarkable experiences with a wide array of creatures great and small. In *Talking to Animals*, journalist Jon Katz—who left his Manhattan life behind two decades ago for life on a farm where he is surrounded by dogs, cats, sheep, horses, cows, goats, and chickens—marshals his experience to offer us a deeper insight into animals and

the tools needed for effectively communicating with them. Devoting each chapter to a specific animal from his life, Katz tells funny and illuminating stories about his profound experiences with them, showing us how healthy engagement with animals falls into five key areas: Food, Movement, Visualization, Language, and Instincts. Along the way, we meet Simon the donkey who arrives at Katz's farm near death and now serves as his Tai Chi partner. We meet Red the dog who started out antisocial and untrained and is now a therapy dog working with veterans from Iraq and Afghanistan. And we meet Winston, the dignified and brave rooster who was injured defending his hens from a hawk and who has better interpersonal skills than most humans. Thoughtful and intelligent, lively and powerful, this book will completely change the way you think about and interact with animals. Katz's "honest, straightforward, and sometimes searing prose will speak to those who love animals, and might well convert some who do not" (Booklist).

**Wild Animals I Have Known** Ernest Thompson Seton, 2017-11-16 'The most precious book of my childhood' – Sir David Attenborough Meet Old Lobo, a gigantic grey wolf whose death-defying predations on sheep and cattle herds are the scourge of farmers and ranchers in the Currumpaw region of northern New Mexico. This great wolf is just one of the animals whose true stories come to life in this engrossing collection of tales by the celebrated naturalist Ernest Thompson Seton (1860-1946). Combining scientific observations of animals in their natural habitats with a romantic vision of nature and the narrative skills of a born storyteller, Seton created an extraordinary collection of tales that gave the animal story new force and believability as a literary genre. Critically and popularly acclaimed upon its initial appearance in 1898, *Wild Animals I Have Known* remains, more than a century later, the best-known and best-loved of his works. Each tale focuses on an individual creature: the clever crow, Silverspot; Raggylug, a young cottontail rabbit; the author's errant hound, Bingo; Redruff, a Don Valley partridge; a wild horse known as The Mustang; Vixen, The Springfield Fox; and Wully, faithful sheep dog by day and treacherous killer by night. Seton offers affectionate but realistic portraits of each animal, stressing the commonality between his subjects and their human neighbours. In addition to his popular wildlife stories, the author is well known for his work as an illustrator and painter. This edition faithfully reproduces the layout of the original volume, as well as all 200 of the author's distinctive illustrations. Animal lovers, environmentalists, naturalists, and any reader who appreciates a lively yarn will cherish this memorable wildlife classic.

**Fifteen Animals!** Sandra Boynton, 2023-06-06 Meet one animal-loving boy's fifteen pets in this counting board book featuring the lively language and distinctive illustrations from the one and only Sandra Boynton. Who else but Sandra Boynton could imagine fifteen Bobs in one book? Actually, that's fourteen Bobs, and one Simon James Alexander Ragsdale the Third (he's a turtle), which gives *Fifteen Animals!* the added dimension of being a unique counting book—count the Bobs, count the pets, count the bunnies, count the fish. And, for the first time, a person character, an earnest little boy who loves animals and happily sings: I really like animals, I like them a lot. Fifteen animals is what I've got. I've got fifteen animals. They're friendly and tame, and I've given each one a special name. Make that Bob.

**Inside Animal Hearts and Minds** Belinda Recio, 2017-08-01 As Charles Darwin suggested more than a century ago, the differences between animals and humans are "of degree and not of kind." Not long ago, ethologists denied that animals had emotions or true intelligence. Now, we know that rats laugh when tickled, magpies mourn as they cover the departed with greenery, female whales travel thousands of miles for annual reunions with their gal pals, seals navigate by the stars, bears hum when happy, and crows slide down snowy rooftops for fun. In engaging text, photographs, and infographics, *Inside Animal Hearts and Minds* showcases fascinating and heart-warming examples of animal emotion and cognition that will foster wonder and empathy. Learn about an orangutan who does

“macramé,” monkeys that understand the concept of money, and rats that choose friendship over food. Even language, math, and logic are no longer exclusive to humans. Prairie dogs have their own complex vocabularies to describe human intruders, parrots name their chicks, sea lions appear capable of deductive thinking akin to a ten-year-old child’s, and bears, lemurs, parrots, and other animals demonstrate numerical cognition. In a world where a growing body of scientific research is closing the gap between the human and non-human, *Inside Animal Hearts and Minds* invites us to change the way we view animals, the world, and our place in it.

If animals went to work . . . what would they do? Mail carrier Kangaroo would carry cards and packages in her pouch. Librarian Owl would read books aloud. And Snake would rat-rattle to let everyone know about the wet cement and construction zone in the road. Across the animal kingdom, every creature would be helpful in their own special way. *Mr. Farmer's Buffet for Animals* Thomas Farmer,2015-06-08 Mr. Farmer’s Buffet for Animals can help a child find the happiness in helping another who is less fortunate. This is a book that every parent should share with his or her child. Hopefully it will bring a message home that will inspire children to enjoy happiness by giving to others. It is great family reading that easily leads to discussions about how one person can make a change—whether it is for his or her own kind or just a hungry little squirrel. One is never too young or too old to learn to care for others.

*Other Animals in Twenty-First Century Fiction* Catherine Parry,2017-07-19 This book is about ordinary animals and how they are imagined in twenty-first century fiction. Examining contemporary animal representations and the fraught and potent distinctions humans fashion between themselves and all other animals, it asks how a range of novels make, re-make or un-make traditional conceptions of the creatures we love, admire, eat, vilify and abuse. *Other Animals’* detailed readings of horses, an animalised human, a donkey, ants, chickens and chimpanzees develop new critical practices in Literary Animal

Studies. They explore the connections between fictional animal representation, narrative form, ethics, and the lives and warm bodies of the real-world creatures that precede and exceed our imagination. Human-animal relationships are conditioned by our imaginative shapings of other animals, and by our sense of distinction from them, and *Other Animals* opens out how fictional animal forms and tropes respond to, participate in, or challenge the ways animals' lives are lived out in consequence of human imaginings of them.

**Historical Animals** Julia Moberg, 2015-02-10 Throughout history, animals have shaped the world as we know it. But rarely have they received the recognition they deserve. Until now. This inside look at history's most famous animals features wacky verse, cool facts, historical stats, and zany cartoon art. Meet Alexander the Great's horse Bucephalus, who was his battle companion for nearly 30 years. Learn about Mozart's starling bird that helped him write music by singing along as he composed. Read about the Ethiopian goats that discovered the coffee bean, Marco Polo seeing dragons in China, and a dog named Boatswain that saved Napoleon's life. From the cobra that killed Cleopatra to Cairo, the dog that helped hunt down Osama bin Laden, *Historical Animals* has these stories and more!

*Lions and Tigers and Hamsters* Mark Goldstein, 2019-05-07 From the time Dr. Mark Goldstein was a little boy—even before he had his first dog—he was fascinated by creatures both domestic and wild. After graduating veterinary school at Cornell University, he became a veterinarian in clinical practice, then director of zoos in Boston and Los Angeles, then head of a progressive humane society where he advocated for animal welfare. During his extraordinary 30-year career, Dr. Mark has accrued a lifetime of experiences working with all sorts of animals and the people who care for them. Dr. Mark's life with animals taught him more than how to be a great doctor, it taught him how to live life. The stories in this book reflect those lessons; they will make you laugh and cry as they entertain and amaze you. Each real-life experience sheds light on the challenges and hard work of the talented individuals who work in the world of animal welfare. These are stories that illustrate the tremendous impact animals have on our daily lives—they are hallmarks of the sacred importance of the human-animal bond. On your journey through the exhilarating life of Dr. Mark, you'll meet some of the finned, furred, and feathered animals who offered him invaluable insights—Harold the hamster, Sasha the Siberian tiger, St. Francis the German Shepherd, Ralph the buffalo, Gus the stallion, Frank the goldfish, and many more fascinating creatures!
