How to Leak Documents and Surf the Web Anonymously Nathan Bowie,2020-03-31 Every day it seems there's something new in the news regarding information or the lack thereof. This involves regular uncensored web, email/web-based communications, phone services, file sharing, payments, and more. Instead of the usual Install Tor on your personal machine you will find on many articles and books this will delve a bit deeper and focus on more serious security. No conspiracy BS, no off the grid mentality, certainly no claims that all information should be leaked, and overall a theme of remaining ethical.
