Answering the Call Nathaniel R. Jones,2010-03-01 “Jones, a trailblazing African American judge, delivers an urgently needed perspective on American history . . . [A] passionate and informative account” (Booklist, starred review). *Answering the Call* is an extraordinary eyewitness account from an unsung hero of the battle for racial equality in America—a battle that, far from ending with the great victories of the civil rights era, saw some of its signal achievements in the desegregation fights of the 1970s and its most notable setbacks in the affirmative action debates that continue into the present in Ferguson, Baltimore, and beyond. Judge Nathaniel R. Jones's groundbreaking career was forged in the 1960s: As the first African American assistant US attorney in Ohio; as assistant general counsel of the Kerner Commission; and, beginning in 1969, as general counsel of the NAACP. In that latter role, Jones coordinated attacks against Northern school segregation—a vital, divisive, and poorly understood chapter in the movement for equality—twice arguing in the pivotal US Supreme Court case *Bradley v. Milliken*, which addressed school desegregation in Detroit. He also led the national response to the attacks against affirmative action, spearheading and arguing many of the signal legal cases of that effort. *Answering the Call* is “a stunning, inside story of the contemporary struggle for civil rights . . . Essential reading for understanding where we are today—underscoring just how much work is left to be done” (Vernon E. Jordan Jr., civil rights activist). “A forthright testimony by a witness to history.” —Kirkus Reviews

Question Answering for the Curated Web Rishiraj Saha Roy,Avishek Anand,2021-10-28 Question answering (QA) systems on the Web try to provide crisp answers to information needs posed in natural language, replacing the traditional ranked list of documents. QA, posing a multitude of research challenges, has emerged as one of the most actively investigated topics in information retrieval, natural language processing, and the artificial intelligence communities today. The flip side of such diverse and active interest is that publications are highly fragmented across several venues in the above communities, making it very difficult for new entrants to the field to get a good overview of the topic. Through this book, we make an attempt towards mitigating the above problem by providing an overview of the state-of-the-art in question answering. We cover the twin paradigms of curated Web sources used in QA tasks – trusted text collections like Wikipedia, and objective information distilled into large-scale knowledge bases. We discuss distinct methodologies that have been applied to solve the QA problem in both these paradigms, using instantiations of recent systems for illustration. We begin with an overview of the problem setup and evaluation, cover notable sub-topics like open-domain, multi-hop, and conversational QA in depth, and conclude with key insights and emerging topics. We believe that this resource is a valuable contribution towards a unified view on QA, helping graduate students and researchers planning to work on this topic in the near future.

Answering Speech Daniel J. Brendsel,2023-06-27 Pursuing an Expansive Life of Prayer In wondrous contrast to silent idols, the one true God speaks. He addresses his people in love, and it's their great privilege to answer him in prayer. At its root, prayer isn't mere self-expression or a prod to get a silent God to speak, but it is a learned skill to answer God's initiating word in Christ. Through this thoughtful book, author and pastor Daniel J. Brendsel explains how responding to God can nurture prayerful engagement with Scripture, shape healthy rhythms among God's praying people, and spur excitement for communion with God. For those disappointed by their current life of prayer, *Answering Speech* invites readers to enter into an expansive and exuberant life of response to the Father through the Son in the power of the Holy Spirit. Offers a Unique Perspective: Explores how Christians are not initiators of prayer but responders to what God has already done Appeals to Pastors and Thoughtful Laypersons: Focuses on important issues that should be taught within the local church Theological yet Accessible: Deeply rooted in theology, this book offers encouragement and practical rhythms for prayer

Flexible Query Answering Systems Henning Christiansen,Mohand-Said Hacid,Troels Andreasen,Henrik Legind Larsen,2004-06-17 This volume constitutes the proceedings of the Sixth International Conference on Flexible

Query Answering Systems, FQAS 2004, held in Lyon, France, on June 24–26, 2004. FQAS is the premier conference for researchers and practitioners concerned with the vital task of providing easy, flexible, and intuitive access to information for every type of need. This multidisciplinary conference draws on several research areas, including databases, information retrieval, knowledge representation, soft computing, multimedia, and human-computer interaction. With FQAS 2004, the FQAS conference series celebrated its tenth anniversary as it has been held every two years since 1994. The overall theme of the FQAS conferences is innovative query systems aimed at providing easy, flexible, and intuitive access to information. Such systems are intended to facilitate retrieval from information repositories such as databases, libraries, and the Web. These repositories are typically equipped with standard query systems that are often inadequate for users. The focus of FQAS is the development of query systems that are more expressive, informative, cooperative, productive, and intuitive to use.

Amy's Answering Machine Amy Borkowsky, 2002-02-15 Does your mother call you in a panic whenever there's a storm warning for your area? Does she act as though it's her duty to alert you to every health story on the news? Have you ever been briefly out of touch with your mother only to find she's phoned everyone short of the National Guard to track you down -- or, just maybe, are you that mother? Take comfort in knowing you're not alone, as Amy Borkowsky shares more than a decade's worth of maddening phone messages from her hilariously overprotective mom. Based on the hit CD of the same name, Amy's Answering Machine features actual messages in which Amy's mom warns her not to wear a red bathrobe because a friend's grandson said that red is a gang color...advises her not to get a cat because what if you finally found a nice guy and he was allergic?...cautions her not to wear crepe-soled shoes because they were just saying on the news that if you're ever in a plane crash, crepe is no good if you have to go down the slide. Amy also reveals the stories behind the messages and shares calls not available on CD, each one brimming with the worry and annoying comments only a loving mother could dish out. The same warnings and suggestions that had Amy cringing are sure to have you doubled over with laughter. But before you turn the page, take some advice from Amy's mom: Make sure you have plenty of reading light, because squinting causes crow's feet.

Answering Questions With Statistics Robert Szafran, 2011-10-20 Finally, an introductory statistics text that provides broad coverage, limited theory, clear explanations, plenty of practice opportunities, and examples that engage today's students! Using General Social Survey data from 1980 and 2010, Robert Szafran asks students to consider how young adults have changed over the last 30 years. Students learn to select an appropriate data analysis technique, carry out the analysis, and draw appropriate conclusions. Changes in subjective beliefs (such as freedom of speech and abortion) and objective characteristics (like years of schooling and marital status) are examined. In answering the question about how young adults have changed, students acquire a broad knowledge of basic statistics and extensive experience with SPSS.

Answering Queries Using Views Foto Afrati, Rada Chirkova, 2017-12-04 The topic of using views to answer queries has been popular for a few decades now, as it cuts across domains such as query optimization, information integration, data warehousing, website design, and, recently, database-as-a-service and data placement in cloud systems. This book assembles foundational work on answering queries using views in a self-contained manner, with an effort to choose material that constitutes the backbone of the research. It presents efficient algorithms and covers the following problems: query containment; rewriting queries using views in various logical languages; equivalent rewritings and maximally contained rewritings; and computing certain answers in the data-integration and data-exchange settings. Query languages that are considered are fragments of SQL, in particular, select-project-join queries, also called conjunctive queries (with or without arithmetic comparisons or negation), and aggregate SQL queries.

Questioning and Answering Practices across Contexts and Cultures Cornelia Ilie, 2021-07-26 This book showcases innovative research about the multi-functional and dynamic interrelatedness of questioning and answering practices in institution- and culture-specific interactions ranging from under-explored to extensively researched ones: South-Korean talk shows, Japanese interviews, Chinese news interviews, police-civilian interactions in the USA, Italian interviews and courtroom examinations, Japanese parliamentary debates and Prime Minister's Questions in the UK Parliament. Challenging the view that questions are asked with the purpose of seeking information and eliciting answers, these studies open up new research avenues through insightful investigations and critical scrutiny that problematize the question-answer paradigm, through which meanings are conveyed, negotiated and/or contested, and through which relationships are established, maintained and/or challenged. Significant findings show that questioning and answering strategies are shaped by the specific norms and constraints of particular communities of practice, while at the same time they are shaping the very same communities of practice. This book will appeal to interdisciplinary scholars and practitioners across the linguistic, media, political, legal and social sciences.

Reasoning Web: Logical Foundation of Knowledge Graph Construction and Query Answering Jeff Z. Pan, Diego Calvanese, Thomas Eiter, Ian Horrocks, Michael Kifer, Fangzhen Lin, Yuting Zhao, 2017-02-28 This volume contains some lecture notes of the 12th Reasoning Web Summer School (RW 2016), held in Aberdeen, UK, in September 2016. In 2016, the theme of the school was "Logical Foundation of Knowledge Graph Construction and Query Answering". The notion of knowledge graph has become popular since Google started to use it to improve its search engine in 2012. Inspired by the success of Google, knowledge graphs are gaining momentum in the World Wide Web arena. Recent years have witnessed increasing industrial take-ups by other Internet giants, including Facebook's Open Graph and Microsoft's Satori. The aim of the lecture note is to provide a logical foundation for constructing and querying knowledge graphs. Our journey starts from the introduction of Knowledge Graph as well as its history, and the construction of knowledge graphs by considering both explicit and implicit author intentions. The book will then cover various topics, including how to revise and reuse ontologies (schema of knowledge graphs) in a safe way, how to combine navigational queries with basic pattern matching queries for knowledge graph, how to setup an environment to do experiments on knowledge graphs, how to deal with inconsistencies and fuzziness in ontologies and knowledge graphs, and how to combine machine learning and machine reasoning for knowledge graphs.

Answering Mormons' Questions Bill McKeever, Eric Johnson, 1983 The Church of Jesus Christ of Latter-Day Saints currently boasts millions of members, thousands of missionaries, and congregations on every continent as well as in the vast majority of the world's countries. It's clear that their influence is still growing in our communities, places of business, and in the political arena. It's also clear that Christians need to be prepared to answer questions from Mormon friends, neighbors, co-workers, and from fellow believers as well. In this updated and expanded edition of McKeever's popular and practical book, authors Bill McKeever and Eric Johnson provide ready responses to the common questions Mormons ask. With more than six decades of combined experience, the authors tackle such tough questions as: Why don't you accept Mormons as Christians? Do you believe Mormonism is a cult? If the LDS church is not true, which church is? How can you explain the many contradictions found throughout the Bible? After offering analysis and responses to these and other questions, McKeever and Johnson provide helpful appendices that summarize Mormon beliefs, provide 101 Bible references to use in conversation, and expose common logical fallacies. Originally published in the 1980s, this volume has been--and will continue to be--a classic resource to help Christians become more successful in sharing their faith with Mormons.
