**Duncan Forbes**

Arabic Language Handbook Mary Catherine Bateson, 1967 The demand for information on learning Arabic has grown spectacularly as English-speaking people have come to realize how much there is yet to know about other parts of the world. It is fitting that this Arabic Language Handbook, complementing Georgetown University Press's exceptional Arabic language textbooks, is the first in a new series: Georgetown Classics in Arabic Language and Linguistics. Sparked by the new demand, this reprint of a genuinely gold-standard language volume provides a streamlined reference on the structure of the Arabic language and issues in Arabic linguistics, from dialectics to literature. Originally published in 1967, the essential information on the structure of the language remains accurate, and it continues to be the most concise reference summary for researchers, linguists, students, area specialists, and others interested in Arabic.

**The Arabic Language** Anwar G. Chejne, 1968 The Arabic Language was first published in 1969. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Arabic, with its rich literary heritage, is one of the major languages of the world. It is spoken by about one hundred million people inhabiting a wide and important area of the Middle East. Yet the language and its significant role in history are little known in the English-speaking countries except among specialists. This book will, it is hoped, help to introduce the language and demonstrate its importance to a wider audience. Professor Philip K. Hitti of Princeton University writes in the foreword: Until recently Arabic studies in this country had been limited to the graduate level and confined to a few universities. Since World War II they have inched their way to the undergraduate curriculum of a small number of universities. But they are still top-heavy and anemic. They will so remain unless they send

their roots deeper down into high schools and enlist the interest of a widening circle of nonspecialists. Hence the value of this work by Professor Chejne. It is a commendable attempt to introduce the Arabic language, with its features and problems, to students and nonspecialists, to tell the story of its dramatic evolution from a tribal dialect to one of the few carriers of world culture, to indicate its unique relation to the religion of Islam and its role in the development of modern Arab nationalism. The book, written in a language intelligible to the layman, sums up what is already known and presents the contribution of the author.

**Arabic Language and Its Linguistics** N.U. AHMED, 2018-02-05 Arabic Language and its Linguistics is an important book for knowing the source of Arabic language and its linguistic aspect as well. Arabic is the youngest living representative of Semitic languages and it has occupied a vital role in the linguistic scenario of the present world. It carries information of robust culture in the Middle East, Africa and Asia. Importance of Arabic increased to a great extent for its being a commercial language in the international markets of the world. In fact, Arabic achieved the status of official and working language on December 18, 1973, in the domain of the United Nations. Affords are also made in this book to highlight the common linguistics along with the Arabic language and its linguistics in a befitting manner.

*Arabic Grammar and Linguistics* Yasir Suleiman, 1999 This book explores aspects of the Arabic Grammatical Tradition and Arabic Linguistics from both a theoretical and descriptive perspective. It also touches on issues of relevance to other disciplines, particularly Qur'anic exegesis and jurisprudence. The links between the fields of language and religion are historically strong in the Arabic and Islamic traditions as so much time and effort was spent by grammarians in interpreting the precise meanings of two of the main sources of Islamic jurisprudence - the Quran and Hadith. Prof Suleiman has assembled an international team of experts in this area and presents a thorough review of the sources and arguments. The book will be of interest to all students, researchers and teachers of Arabic Language and Culture.

وفا حسن Wafa Hassan, 2017 This practical book series is an excellent tool for teachers and students of Arabic in the United States. The workbooks and supporting teachers' guide are geared toward educating not only at the collegiate level but at the high school level, as well. The pedagogy in these books conforms to the World-Readiness Standards for Learning Languages, meaning students are given a firm foundation and clear benchmarks in their language-learning journey. Arabic I is broken into four major units--including an introduction and units that focus on relationships, food, and clothing--to familiarize the beginner with language related to everyday life. Students participate in

exercises targeting listening, speaking, reading, and writing skills, and receive access to a complimentary online component to aid in their language practice. Exercises place a large emphasis on Arabic culture, backed by the notion that cultural knowledge is essential to language learning.

The Influence of English Language in the Arab World Yacoub Aljaffery,2015-02-15 Essay from the year 2010 in the subject Speech Science / Linguistics, grade: College, language: English, abstract: Sometimes during the fifth century, the Quran that's written in Arabic introduced the Arabic language to be the language of the Muslim empire that spread around the world: Nadvi (2003) Arabic became the official language of a world empire whose boundaries stretched from the Oxus River in Central Asia to the Atlantic Ocean, and even northward into the Iberian Peninsula of Europe. As Islam continued to spread through the world, Arabic inherently followed.(P. 2). Arabic became prestige

because of the variety of sciences that were invented by Arabs like Chemistry, Algebra and Astronomy. Things have changed today, and the language that is mostly used around the world is the English language due to the advanced technology and the political power that USA, and the English speaking countries has in the world. Hollywood movies and pop culture have a big impact in spreading English language throughout the world. Middle Eastern countries, especially gulf countries like Saudi Arabia, UAE, Kuwait and Iraq have been heavily influenced by English Language in the last few years. Since Islam has urged people to learn other nations' language for security purposes, English language has been taking big part of the Arabic speaking countries. That desire to learn other languages has increased since the second Gulf war in 2003.

Teaching Arabic as a second language in Dubai. The influence of technology and innovation  
Mohamed Moghazy, 2021-01-11 Seminar paper from the year 2020 in the subject Speech Science / Linguistics, grade: A, University of Illinois at Urbana-Champaign, language: English, abstract: The main issue to be examined is the influence of technology and innovation in ASL in Dubai. Faryadi (2007) examined interactive media's role in teaching the Arabic language and discovered that the integration of technology allows instructors to improve their lessons based on achieving effectiveness and creativity in knowledge transfer. Learners are easily persuaded to reason and think critically in the classrooms through interactive media. Arabic as a second language (ASL) is an upcoming social exploration area in Dubai and the larger UAE. However, there is insufficient literature on the subject. Teaching and learning ASL is the subject of increasing controversy. Amara (2017) states that Arabic is the official language in the UAE; however, the majority of the population speaks English because UAE was a British colony until 1971. Given that the UAE is one of the Arab countries, the Arabic language is one of the national curriculum's key subjects apart from Social Studies and Islamic Education.

According to AlHagbani, and Khan (2016), over the last few years, there has been the increased significance of teaching the Arabic language for non-Arabic speakers in the UAE with the main objectives being: to develop an awareness of learners about relationships between the Arabic language and Arabic or Islamic culture, enhance awareness of the need for the Arabic language across the world and improve both oral and written communication skills to strengthen the process of obtaining informational literacy level. One divide argued that Arabic was a dying language in the Middle East in the face of the globalized English language, according to Sabbah (2016). Different studies indicate that the other controversial divisions argued that the Arabic language was a growing language in the UAE.
