Archive Everything Gabriella Giannachi, 2023-09-19 How the archive evolved to include new technologies, practices, and media, and how it became the apparatus through which we map the everyday. In *Archive Everything*, Gabriella Giannachi traces the evolution of the archive into the apparatus through which we map the everyday. The archive, traditionally a body of documents or a site for the preservation of documents, changed over the centuries to encompass, often concurrently, a broad but interrelated number of practices not traditionally considered as archival. Archives now consist of not only documents and sites but also artworks, installations, museums, social media platforms, and mediated and mixed reality environments. Giannachi tracks the evolution of these diverse archival practices across the centuries. Archives today offer a multiplicity of viewing platforms to replay the past, capture the present, and map our presence. Giannachi uses archaeological practices to explore all the layers of the archive, analyzing Lynn Hershman Leeson's !Women Art Revolution project, a digital archive of feminist artists. She considers the archive as a memory laboratory, with case studies that include visitors' encounters with archival materials in the Jewish Museum in Berlin. She discusses the importance of participatory archiving, examining the "multimedia roadshow" Digital Diaspora Family Reunion as an example. She explores the use of the archive in works that express the relationship between ourselves and our environment, citing Andy Warhol and Ant Farm, among others. And she looks at the transmission of the archive through the body in performance, bioart, and database artworks, closing with a detailed analysis of Lynn Hershman Leeson's Infinity Engine.

*Archive Fever* Jacques Derrida, 1996 As a depository of civic record and social history whose very name derives from the Greek word for town hall, the archive would seem to be a public entity, yet it is stocked with the personal, even intimate, artifacts of private lives. It is this inherent tension between public and private which inaugurates, for Derrida, an inquiry into the human impulse to preserve, through technology as well as tradition, both a historical and a psychic past. What emerges is a marvelous expansive work, engaging at once Judaic mythos, Freudian psychoanalysis, and Marxist materialism in a profound reflection on the real, the unreal, and the virtual.

**Counter-Archive** Paula Amad, 2010-09-23 Tucked away in a garden on the edge of Paris is a multimedia archive like no other: Albert Kahn's Archives de la Planète (1908-1931). Kahn's vast photo-cinematographic experiment preserved world memory through the privileged lens of everyday life, and Counter-Archive situates this project in its biographic, intellectual, and cinematic contexts. Tracing the archive's key influences, such as the philosopher Henri Bergson, the geographer Jean Brunhes, and the biologist Jean Comandon, Paula Amad maps an alternative landscape of French cultural modernity in which vitalist philosophy cross-pollinated with early film theory, documentary film with the avant-garde, cinematic models of temporality with the early Annales school of history, and film's appropriation of the planet with human geography and colonial ideology. At the heart of the book is an insightful meditation upon the transformed concept of the archive in the age of cinema and an innovative argument about film's counter-archival challenge to history. The first comprehensive study of Kahn's films, Counter-Archive also offers a vital historical perspective on debates involving archives, media, and memory.

**The Silence of the Archive** David Thomas, Simon Fowler, Valerie Johnson, 2017-05-11 Foreword by Anne J Gilliland, University of California Evaluating archives in a post-truth society. In recent years big data initiatives, not to mention Hollywood, the video game industry and countless other popular media, have reinforced and even glamorized the public image of the archive as the ultimate repository of facts and the hope of future generations for uncovering 'what actually happened'. The reality is, however, that for all sorts of reasons the record may not have been preserved or survived in the archive. In fact, the record may never have even existed - its creation being as imagined as its contents. And even if it does exist, it may be silent on the salient facts, or it may obfuscate, mislead or flat out lie. The Silence of the Archive is written by three expert and knowledgeable archivists and draws attention to the many limitations of archives and the inevitability of their having parameters. Silences or gaps in archives range from details of individuals' lives to records of state oppression or of intelligence operations. The book brings together ideas from a wide range of fields, including contemporary history, family history research and Shakespearian studies. It describes why these silences exist, what the impact of them is, how researchers have responded to them, and what the silence of the archive means for researchers in the digital age. It will help provide a framework and context to their activities and enable them to better evaluate archives in a post-truth society. This book includes discussion of: enforced silences expectations and when silence means silenced digital preservation, authenticity and the future dealing with the silence possible solutions; challenging silence and acceptance the meaning of the silences: are things getting better or worse? user satisfaction and audience development. This book will make compelling reading for professional archivists, records managers and records creators, postgraduate and undergraduate students of history, archives, librarianship and information studies, as well as academics and other users of archives.

*Lost Children Archive* Valeria Luiselli, 2020-02-04 NEW YORK TIMES 10 BEST BOOKS OF THE YEAR • “An epic road trip [that also] captures the unruly intimacies of marriage and parenthood ... This is a novel that daylights our common humanity, and challenges us to reconcile our differences.” —The Washington Post In Valeria Luiselli’s fiercely imaginative follow-up to the American Book Award-winning *Tell Me How It Ends*, an artist couple set out with their two children on a road trip from New York to Arizona in the heat of summer. As the family travels west, the bonds between them begin to fray: a fracture is growing between the parents, one the children can almost feel beneath their feet. Through ephemera such as songs, maps and a Polaroid camera, the children try to make sense of both their family’s crisis and the larger one engulfing the news: the stories of thousands of kids trying to cross the southwestern border into the United States but getting detained—or lost in the desert along the way. A breath-taking feat of literary virtuosity, *Lost Children Archive* is timely, compassionate, subtly hilarious, and formally inventive—a powerful, urgent story about what it is to be human in an inhuman world.

*The Archive of the Forgotten* A. J. Hackwith, 2020-10-06 In the second installment of this richly imagined fantasy adventure series, a new threat from within the Library could destroy those who depend upon it the most. The Library of the Unwritten in Hell was saved from total devastation, but hundreds of potential books were destroyed. Former librarian Claire and Brevity the muse feel the loss of those stories, and are trying to adjust to their new roles within the Arcane Wing and Library, respectively. But when the remains of those books begin to leak a strange ink, Claire realizes that the Library has kept secrets from Hell—and from its own librarians. Claire and Brevity are immediately at odds in their approach to the ink, and the potential power that it represents has not gone unnoticed. When a representative from the Muses Corps arrives at the Library to advise Brevity, the angel Rami and the erstwhile Hero hunt for answers in other realms. The true nature of the ink could fundamentally alter the afterlife for good or ill, but it entirely depends on who is left to hold the pen.

**The Allure of the Archives** Arlette Farge, 2013-09-24 DIVA Arlette Farge’s *Le Goût de l’archive* is widely regarded as a historiographical classic. While combing through two-hundred-year-old judicial records from the Archives of the Bastille, historian Farge was struck by the extraordinarily intimate portrayal they provided of the lives of the poor in pre-Revolutionary France, especially women. She was seduced by the sensuality of old manuscripts and by the revelatory power of voices otherwise lost. In *The Allure of the Archives*, she conveys the exhilaration of uncovering hidden secrets and the thrill of venturing into new dimensions of the past. Originally published in 1989, Farge’s classic work communicates the tactile, interpretive, and emotional experience of archival research while

sharing astonishing details about life under the Old Regime in France. At once a practical guide to research methodology and an elegant literary reflection on the challenges of writing history, this uniquely rich volume demonstrates how surrendering to the archive's allure can forever change how we understand the past./div

*An Uncommon Archive*, 2015 This unusual volume is a selection of images from the projects, books and saved references found in the hard drives, stored files and archives of T. Adler Books. The collection draws from the seemingly disparate worlds of surfing, fashion and style, fishing, music, fine art, rock climbing, travel and adventure. The photographs, paintings, ephemera, illustrations and contact sheets are arranged in pairs and sequences suggesting subtle connections and parallels. Iconic historical images, works by well-known contemporary artists and photographers, and beautiful outdoor photographs blend and share page space with found paintings, incidental vacation snapshots and NASA imagery; works by classic photographers such as Walker Evans, Dorothea Lange and Jacques Henri Lartigue share space with contemporary photographers Craig Stecyk, Ed Templeton, Tim Barber, Dewey Nicks and Thomas Campbell; a portrait of JFK seated in a sailboat eating an ice cream cone is paired with a 1905 photograph of the launch of the steamer Frank J. Hecker; formal portraits of John Muir and Duke Kahanamoku and open ocean photos (above and below the surface) by Wayne Levin and Corey Arnold are scattered throughout the volume, alongside paintings by Maynard Dixon and Robert Overby, nineteenth-century Cyanotypes by Anna Atkins and a handpainted sign by Stephen Powers. Iconic surfing photographs by Don James, Ron Church, Steve Wilkings, Leo Hetzel, Jeff Hornbaker, Art Brewer, Jim Russi, Jeff Divine and Jim Driver are mixed with dramatic climbing images from Glen Denny, Mike Graham, Allen Steck, Johannes Mair and Jeff Johnson. But it is the editor's imaginative sequencing and pairing of these photographs that provides the unique pleasure of this book. A fresh, blue-sky and water-drenched elegance carries the volume along, resulting in a melding of tone and composition, gestures and cultures, associations and connections that reinforce the individual images.
