Articles of War Nick Arvin, 2006-02-14 George Tilson is an eighteen-year-old farm boy from Iowa. Enlisted in the Army during World War II and arriving in Normandy just after D-day, he is nicknamed Heck for his reluctance to swear. From summers of farm labor Heck is already strong. He knows how to accept orders and how to work uncomplainingly. But in combat Heck witnesses a kind of brutality unlike anything he could have imagined. Fear consumes his every thought and Heck soon realizes a terrible thing about himself: He is a coward. Possessed of this dark knowledge, Heck is then faced with an impossible task.

Atomic Habits James Clear, 2018-10-16 The #1 New York Times bestseller. Over 15 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong

system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits-whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

Articles of Faith Cynthia Gorney,2000-01-05 Nominated for the Los Angeles Times Book Prize, *Articles of Faith* is a powerful exploration of one of the most divisive issues in our recent political history, and the only book to portray the passion of both sides of the abortion conflict. Drawing from more than five hundred interviews as well as previously unseen archival material, Cynthia Gorney has written a compelling narrative that explores the years between *Roe v. Wade* (1973) and *William L. Webster v. Reproductive Health Services* (1989), the first case to challenge the *Roe* decision before an anti-*Roe* court. Meet Judith Widdicombe, the registered nurse who runs the abortion underground in 1960s St. Louis and then the first legal clinic after *Roe v. Wade*. And meet Samuel Lee, a young pacifist and would-be seminarian whose provocative abortion bill becomes the centerpiece of *William L. Webster v. Reproductive Health Services*. The Supreme Court case brings the two advocates head-to-head.

The book is accompanied by the CD-ROM *ESL Baseball and Other Games*. The CD-ROM offers software that provides additional practice directly correlated to, but not repetitive of, the text.
