Computers and Astrology Patricia Foreman,1992 Computers and Astrology - ISBN 0-9624648-1-3 Computers and Astrology is a unique keep-by-your-computer reference for astrologers. There is no other book of its kind that tells you in graphic detail the many options available in today's high-powered astrological computing programs. Here you can find answers to such questions as: what's the difference between the 20+ different house systems - and which one is best to use when? What are progressed angles and primary directions? What is the significance of planetary patterns such as kite, grand cross, yod, etc. How to read a 90° sort graphic ephemeris? The answers are all here - often graphically with over 100 diagrams and tables to clarify confusing concepts. Computers and Astrology is actually four books in one: (1) a Universal Software User's Guide that describes the many options available when electronically casting charts. This section includes examples of chart output types, house systems, coordinates, points, city databases, ephemeris, asteroids, uranians and more; (2) a software comparison methodology that explains how to assess commercially available astrology programs to find the most suitable one based upon your needs and budget, (3) an astrological dictionary that offers an encyclopedia presentation of hard to find astrology and astronomy related facts and definitions; (4) information useful for casting charts such as time zones, major life transits, and a listing of over 1,000 major world city coordinates. Software programs evolve daily, but almost all the information in this book remains timelessly current. You can find more about Computers and Astrology, including the table of contents,

The Secret Language of Astrology Roy Gillett,2017-03-07 A beautifully illustrated practical guide to astrology - with a unique Astrolabe™ weblink that allows you to download personalised birth charts for free, in a matter of moments. What is the effect of each of the planets on your zodiac sign? What is the influence of the 12 houses? What are aspects and how do they relate to your birth chart? In this unique book and weblink package, renowned astrologer Roy Gillett uncovers the hidden layers of astrology to explain the complex interplay of influences that shape our character. The Secret Language of Astrology gives access to an Astrolabe™ website created exclusively for the book, enabling you to create a detailed birth chart for yourself, or for family or friends, within seconds. A historical introduction traces the history of astrology from antiquity to the present day. The second part of the book, The Elements of Astrology, looks at the planets, the zodiac signs, the twelve houses and the aspects. The emphasis throughout is on equipping the reader to analyse their birth chart, by examining the influences and showing how they combine to shape our lives and our potential for growth. The third part, Putting the Pieces Together, shows you how to apply all this information when reading a full birth chart. Thoroughly practical, but with a wealth of historical and cultural detail, as well as superb illustrations and photographs, this is a landmark in astrological publishing.

[How to Do Your Own Astrological Chart](#) Esme Morgan,2014-03-08 Hi, I was a professional astrologer for more than two decades, and having had so many clients express curiosity about how a chart is created and interpreted, I've put together this little 'How-To' book on how to do it yourself. It's aimed at beginners who have an interest in astrology but no previous experience in creating a chart. Contrary to popular belief, you don't have to be a math wizard to do the calculations involved. In this book, you will be instructed on how to either use a computer program to do the calculations for you (highly recommended), or be brave and follow the alternative instructions on how to do it all yourself the hard way. In the first part of the book, I give you links to where you can download free versions of all the materials you will need, kindly provided for free on various websites. The latter part of the book consists of one big reference database in which I've composed individual interpretations for every planet, sign, House and aspect, which you can put together to create a full chart reading. So, this is not another 'Sun Sign' book, but is about what goes on behind the creating and interpretation of a complete birth chart, and shows you, hopefully easily and painlessly, how to do it yourself. I try to keep things as simplified and straightforward as possible in order to reduce 'information overload'! Thanks for looking and I hope you will find this book informative and enjoyable!

Astrology Kevin Burk,2001 In Astrology: Understanding the Birth Chart, Kevin Burk takes you step-by-step from the core basics to the finer complexities of chart interpretation while avoiding sidetracks into obscure techniques and fuzzy thinking. As a teacher, Burk also understands that a real grasp of the subject entails more than just learning the techniques-it also involves grasping the underlying principles that make those techniques valid. Astrology: Understanding the Birth Chart is designed to be useful to all students of astrology, from beginners to more advanced practitioners, and will help you develop an integrated, synthesized approach to understanding the birth chart. You will discover how classical astrology can enrich your understanding of the planets, signs, and houses. You will explore the meaning of the Lunar Nodes, eclipses, the angles, retrograde planets, and aspect patterns. You will also learn how to identify key themes in the chart, and how to relate the different aspects and elements together to gain a holistic understanding of the birth chart-and of the individual. An up-to-date listing of astrological organizations and software programs is included that offers a wealth of resources for any astrologer. In short, this is a well-designed course that provides a solid foundation for anyone who is interested in practicing astrology quickly and with confidence. While many books at this level simply give you a set of techniques and ready-made interpretations, this book will give you a deeper grasp of an art and science that has its expression in the world around us, but its roots in the invisible world of primal origins.

Mapping Your Birthchart Stephanie Clement,Stephanie Jean Clement,Cosmic Patterns,2003 Mapping Your Birthchart removes the mystery from astrology so readers can look at any chart and get a basic understanding of the person behind it. Learn the importance of the planets, the different signs of the zodiac, and how they relate to everyday life.

Self-Evident Astrology Jeffrey Sayer Close,2009-08 In SELF-EVIDENT ASTROLOGY (TM) the planets mean what they are and are what they mean. It is this simple. All we need to understand astrology is to look into the nature of the solar system and sky around us. This book shows that the physical arrangement of the solar system, the orbital positions, the inclinations of orbital planes and things such as the mere size of a planet lead to a natural meaning for each planet. Jeffrey Sayer Close has been an amateur astrologer for 40 years and the Director of the Astrological Bureau of Ideas (www.aboi.com) for the past 12 years. He has a B.A. in physics and a M.A. in telecommunications. He has designed telecommunications network for over 25 corporations and built his own successful telecom software company. He has often been quoted and written about in trade press. He has also made guest appearances on Andrea Klim's Turn To The Stars TV show in Manchester, NH. Mr. Close has taken his background in science, his experience in complex networks and long experience in astrology and found new, more basic fundamentals of astrology. These fundamentals have incorporated in his innovative astrological software, INTREPID.

Vibrational Astrology David Cochrane,2021-08 This book is an introduction to Vibrational Astrology. The fundamental concepts of Vibrational Astrology have some overlap with the concepts in other systems of astrology, but also differ significantly from what students of astrology and professional astrologers may have learned in other astrological systems. Some of the topics covered in this book are: the way in which planets provide essential simple functions and what the function of each planet is, the effect of different astrological vibrations (harmonic aspects), the impact of planetary configurations such as Isotrops, the effect of zodiac signs, and the effect of astrological houses. This book provides a thorough grounding in the fundamentals of Vibrational Astrology. A careful reading of this provides the essential language and ideas that are used throughout all of the applications of Vibrational Astrology.
