Punk Taco Adam Wallenta, Makana Wallenta, 2022-06-22 The adventure continues in the second volume of Punk Taco that follows the 2019 Best Kids Comic or Graphic Novel Ringo Award-winning Punk Taco Volume 1. Punk Taco and the band have been kidnapped and brought to a planet in an unknown part of the universe that is being threatened by a giant so enormous, our heroes are the size of ants in comparison. Despite their small size and the impossible odds they face together, Punk Taco must inspire new friends and allies to stand tall, join forces, and let their voices be heard, before the giant destroys their planet. Action, adventure, and humor abound in this tale of inner strength, unity, and friendship created by Adam Wallenta and his 10-year-old son, Makana.

Raspberry Pi GPU Audio Video Programming Jan Newmarch, 2016-12-19 Delve into the Broadcom VideoCore GPU used on the Raspberry Pi and master topics such as OpenGL ES and OpenMAX. Along the way, you'll also learn some Dispmanx, OpenVG, and GPGPU programming. The author, Jan Newmarch bumped into a need to do this kind of programming while trying to turn the RPi into a karaoke machine: with the CPU busting its gut rendering MIDI files, there was nothing left for showing images such as karaoke lyrics except for the GPU, and nothing really to tell him how to do it. Raspberry Pi GPU Audio Video Programming scratches his itch and since he had to learn a lot about RPi GPU programming, he might as well share it with you. What started as a side issue turned into a full-blown project of its own; and this stuff is hard. What You'll Learn Use Dispmanx and EGL on Raspberry Pi Work with OpenMAX and its components, state, IL Client Library, * * Buffers, and more on RPi Process images and video on RPi Handle audio on RPi Render OpenMAX to OpenGL on the RPi Play multimedia files on the RPi Use OpenVG for text processing and more Master overlays Who This Book Is For You should be comfortable with C programming and at least some concurrency and thread programming using it. This book is for experienced programmers who are new or learning about Raspberry Pi.

Save Yourself! How You CAN Troubleshoot Your Own Audio/Video Problems Fred Whissel, 2007-07 You really can find and fix many of your own audio/video problems, and this book not only shows you how but claims it can be fun! The author spent more than 20 years troubleshooting the same problems for his Jackson Hole, Wyoming customers -- many of whom were rich and famous celebrities. Harrison Ford, Gerry Spence, Bo Derek, Bob Ballard -- you'll read about them (and others) here. Plus, you'll find real troubleshooting tips. But if you somehow screw up a repair and end up dead, don't come running back to us to complain.

Audio, Video, and Media in the Ministry Clarence Floyd Richmond, 2010-04-19 In a worship service, a great measure of responsibility rests on those who volunteer in the audio, video, and media ministries. When everything is going well, no one notices, but when the microphones don't work or the projected song lyrics aren't in sync, everyone does. A well-functioning audio, video, and media team can help the congregation enter into a deeper and more meaningful worship. Each area of AV ministry is included: sound, projection, lighting, audio, video, broadcast, and web. The book also provides tips and instructions on selecting equipment and the set-up, storage, operation, and maintenance of it. Other leadership topics such as trouble-shooting problems in rehearsal and during services as well as tips for working with ministry leaders, musicians, and fellow congregants are discussed. If you're a new volunteer to this ministry or just wanting a topical refresher, this handbook is the perfect guide for you.
