My findings in this book could save you years if you're a budding EA developer. I will show you how I make a simple MacD EA, how I combine EAs and how I use higher time frames and time factors to improve their performances. I came across truths in of Law of Large Numbers (rigorous testing), Law of Diminishing Returns (using too much filters), Fibonacci Sequence (the larger Cycle is interdependent on the smaller Cycles) and many more learning experiences as an EA developer. If you work in the Trading Department of a bank this book is proof that not all Algorithms exist in High Speed. With the COMP EAs all losses are paper losses ...
