**How Good Are You at Backgammon?** Nicolaos S.

Tzannes,Basil Tzannes,2001-04-03 If you already play backgammon, don't you sometimes wonder how good you really are? Well, this book is your chance to really find out. The 50 situations presented here, cover most of the aspects of the game, from initial moves to bearing off strategies. Each problem is graded on the basis of 5 points for the optimum play and some partial credit for sub-optimum but adequate ones, if such exist. If you rack up a score of 225-250, you rank right up there with the experts you should think seriously of competing in Backgammon Tournaments. If you score 200-224, you are not an expert yet, but you are rapidly approaching this point. A score of 135-199 indicates that you are a good, sound player, probably the best in

your neighborhood. If you score less than 135 points, there is no need for despair. Study this book carefully. It can serve as a case studies tool for improving your game. Besides, the problems presented are not only mind-taxing, they are also entertaining. And the justifications for the optimum play are clearly explained, often culminating in various useful rules of thumb (the closer-closest rule, the rule of even, etc.) for difficult, but commonly occurring situations. Good luck!

Tzannes, Basil Tzannes, 1977 Backgammon is experiencing a revival, rapidly becoming one of the most popular table games in the world internet included. Backgammon is not just a game; it is an obsession. In some countries of Southern Europe and the Middle East, it is a way of life. A typical game of backgammon lasts 6-8 minutes if it is Hit or Gioul, and double that if it is Plakoto or Moultezim. These are the fastest, most absorbing minutes in a player's lifetime. The game moves in lightening speed and requires total concentration. The mixture of chance and skill are perfectly balanced in Hit the other games leaning heavier on skill. There is hardly a moment of boredom when you play backgammon. Even when the game seems hopelessly lost, there is

still a finite probability of a turnaround. The suspense is always there, the tension is never ending. What more would you want for an evening of . . . relaxation? This book is written to fill a void the almost total absence of information on backgammon games, other than basic Hit usually called backgammon in the West. The authors find it incredible that Gioul, Plakoto and Moultezim still remain a well-kept secret among backgammon connoisseurs. Gioul is the most fun-filled game played on the board every dice throw a surprise. Plakoto is without doubt the king of Backgammon games. Moultezim is a serious game for the purist, the consummate space strategist. Players who are unaware of these games are not really fulfilled. This book, illustrated with more than 300 diagrams, illustrations and exercises, aims to change all that, and turn all casual players into full-fledged backgammon experts.
