**Slave Badges and the Slave-Hire System in Charleston, South Carolina, 1783-1865** Harlan Greene, Harry S. Hutchins, Jr., Brian E. Hutchins, 2008-08-25 The slave-hire system of Charleston, South Carolina, in the 1700s and the 1800s produced a curious object--the slave badge. The badges were intended to legislate the practice of hiring a slave from one master to another, and slaves were required by law to wear them. Slave badges have become quite collectible and have excited both scholarly and popular interest in recent years. This work documents how the slave-hire system in Charleston came about, how it worked, who was in charge of it, and who enforced the laws regarding slave badges. Numerous badge makers are identified, and photographs of badges, with commentary on what the data stamped on them mean, are included. The authors located income and expense statements for Charleston from 1783 to 1865, and deduced how many slaves were hired out in the city every year from 1800 on. The work also discusses forgeries of slave badges, now quite common. There is a section of 20 color plates.

**Using Images to Teach Critical Thinking Skills** Diane M. Cordell, 2015-11-10 Learn how to teach visual literacy through photography--an easy way for you to combine student interest with resources at hand to enhance a key learning skill. Research indicates that 75 to 90 percent of classroom learning occurs through the visual system, making visual literacy a key component of information literacy and of critical thinking--a requirement throughout the Common Core standards. It's no surprise then that visual literacy is increasingly recognized as a competency that should be part of every student's skill set. Fortunately, this critical skill can be incorporated into existing curriculum, and this book shows you how to do just that. Written for K-12 classroom teachers and librarians, this all-you-need-to-know volume discusses the importance of visual literacy in education and examines how it helps address current learning standards. The book shows you how to use photography and digital images to cultivate critical thinking, inquiry, and information literacy; provides examples of the use of photographic images in the classroom and in real life; and addresses how students can be ethical practitioners in a digital world. In addition, the book includes sample lessons you can easily implement, regardless of your level of technical and photographic expertise. A resource list of photo editing, curation, and museum sites is included.

**British Army Cap Badges of the Second World War** Peter Doyle, Chris Foster, 2012-07-20 In their companion volume to *British Army Cap Badges of the First World War*, authors Peter Doyle and Chris Foster present an overview of the main cap badges worn by the British Army during the Second World War, which continued the rich and varied tradition of British regimental insignia. This book describes and illustrates, for the first time in high quality full colour, the main types of cap badge worn. With many amalgamations, war-raised units and special forces, British military insignia from the period have a surprising range that differs substantially from that worn by the soldiers of the previous generation. As in the first book, this volume contains contemporary illustrations of the soldiers themselves wearing the badges. Employing the skills of an established writer (and collector) and artist, it provides a unique reference guide for anyone interested in the British Army of the period.

**The Web and Parents** Judy Hauser, 2009-09-23 This introduction of Web 2.0 tools is written for parents who want to understand how their children are using today's Internet, both in school and in their social lives. For parents who want to raise their comfort level with today's Web capabilities, for those who want to enhance their children's Internet usage in and out of school, and for those who want to be prepared for potential dark alleys in the online world, *The Web and Parents: Are You Tech Savvy?* is a welcome new resource. Don't know a blog from a Wiki? MySpace from Facebook? An RSS feed from an instant message? *The Web and Parents* provides a brief introduction to these and other aspects of Web 2.0, including podcasts, forums, graphic generators, photo storage and file-sharing sites, and more. Parents will get a sense of what each tool or resource does, how they themselves might use them--lots of grownups do, really--and the role each plays in current K-12 education and in the lives of school-age children. With this crash course on today's Internet, the Web becomes a place where families come together, not drift apart.

**Reward Learning with Badges** Brad Flickinger, 2022-08-30 This accessible guide shares how and why badges work and the secrets to designing great challenges that motivate students to build skills and take control of their learning. As an elementary technology teacher, author Brad Flickinger observed that his students had little motivation to use the devices surrounding them for anything other than gameplay and entertainment. His solution was to rethink his teaching, adding elements of gamification, challenge-based learning, design thinking and other approaches to learning. With this, the badge system was born. By incorporating badges, students are motivated by using the familiar challenges of gameplay as they earn visual indicators of progress and complete challenges. At the same time, they are mastering skills and progressing academically. *Reward Learning with Badges* shows how to implement a successful badging system in your classes. You'll learn to think differently about motivation and achievement and prepare to embark on your own badging initiative. The book includes: • Step-by-step planning advice • Tips on implementation and technology • Support from examples and success stories With this book, you'll learn everything you need to know to start badging, including how to introduce badging to students, faculty and parents; how to design physical and digital badges; how to relate badges to standards and curricular goals and more. Audience: K-8 classroom teachers
