Block Shot Kennedy Ryan,2023-09-19 From award-winning author Kennedy Ryan comes the steamy, powerful second installment of the Hoops trilogy. If Jared Foster had a dollar for every time Banner Morales made his heart skip a beat-the heart everyone assumes is frozen over-he'd be richer than he already is. He's found success as a sports agent by always assuming no means I'll think about it. And he knows Banner's thinking about him. Her simmering anger? The way she puts him in his place? Foreplay. She thinks she's won the game, but they're just getting started. If Banner had a dollar for every time Jared broke her heart, she'd have exactly one dollar. One epic failure of a night. After parting on such bad terms, Banner has no intention of ever giving Jared a second chance. She's found success in a field ruled by men like him. She's learned to call the shots and block them when she has to. So she'll ignore the way he makes her heart pound. Sure, he seems carved from her most private fantasies, but she can get past that. She's got her one dollar, and Jared won't have her.

The Impact of Privacy Laws on Websites and Users Julia Schmitt,2022-03-30 Policymakers worldwide draft privacy laws to increase user privacy by imposing strict legal requirements. At the same time, policymakers grant websites a degree of freedom in implementing these requirements. However, the effects of privacy laws and the granted implementation freedom on websites and users remain unclear. Yet, when drafting privacy laws, policymakers need to trade-off between increasing user privacy and limiting the harm to websites' ability to earn revenue with the collected user data. Similarly, websites need to anticipate such effects, e.g., on their revenues, when deciding how to implement privacy laws. This dissertation encompasses three articles to shed light on the effects of privacy laws and their granted implementation freedom on websites' revenues and user privacy, using the enforcement of the EU's General Data Protection Regulation (GDPR). The articles show that while the GDPR has average negative effects on websites' revenues, these effects vary across websites' chosen implementation of GPDR. The dissertation further shows that the different implementations of the legal requirements impact user privacy. Thereby, this dissertation provides an empirical foundation of privacy laws' effects on websites' revenues and user privacy, aiding policymakers in evaluating or drafting privacy laws and websites in deciding how to implement them.
