Star-Spangled Banner Marc Ferris, 2014-09-13 In September, 2014, Baltimore and the United States will mark the bicentennial of the event that inspired The Star-Spangled Banner. But Francis Scott Key's poem, set to a British drinking song, has not always been our anthem, nor even especially popular. Aiming at a broad readership, Ferris examines the history of the song through the generations that followed the War of 1812, the kinds of Americans who rallied behind the song, and the successful lobbying effort that in 1933 convinced Congress to adopt the music and four stanzas as our official national anthem. Since then many citizens have called for its replacement with something less warlike; people quarrel over its apparent militarism and also difficulty level. Politically, Ferris finds, the song has an interesting and somewhat tortured story. Are we the only nation on earth with a controversial national anthem?—Provided by publisher.

The Big Book of Maryland Ghost Stories Ed Okonowicz, 2010 The narratives in this new book are more than just tales of haunting spirits; they are also about our land and our history, and Ed breathes life into them as few writers have done before. This is quite simply the largest and best collection ever published on the subject. Hal Roth, Tidewater Times columnist Maryland has been an important crossroads since its settlement more than 375 years ago. That strategic location has provided the Old Line State with a rich history and a large body of folklore, from the seafaring legends of the Eastern Shore to the mountain tales of the rugged western counties. Included in this collection of more than 140 stories are tales of ghosts of executed Hessians in Cecil County, the haunts of Fort McHenry, spirits of notorious Maryland residents John Wilkes Booth and Edgar Allen Poe, tragic specters at the Antietam Battlefield, and the tortured ghosts of prisoners of war at Point Lookout.

Graphic Design Stephen J. Eskilson, 2019-05-21 A classic and indispensable account of graphic design history from the Industrial Revolution to the present Now in its third edition, this acclaimed survey explores the evolution of graphic design from the 19th century to the present day. Following an exploration of design's prehistory in ancient civilizations through the Industrial Revolution, author Stephen J. Eskilson argues that modern design as we know it grew out of the influence of Victorian-age reformers. He traces the emergence of modernist design styles in the early 20th century, examining the wartime politicization of regional styles. Richly contextualized chapters chronicle the history of the Bauhaus and the rise of the International Style in the 1950s and '60s, and the postmodern movement of the 1970s and '80s. Contemporary considerations bring the third edition up to date, with discussions of app design, social media, emojis, big data visualization, and the use of animated graphics in film and television. The contemporary phenomenon of the citizen designer, professionals who address societal issues either through or in addition to their commercial work, is also addressed, highlighting protagonists like Bruce Mau and the Center for Urban Pedagogy. This edition also features 45 additional images, an expanded introduction and epilogue, and revised text throughout. A newly redesigned interior reinforces the fresh contents of this now-classic volume.

Mary Young Pickersgill Flag Maker of the Star-Spangled Banner Sally Johnston and Pat Pilling,2014-10-24 Mary Pickersgill and the Star-Spangled Banner tells the story of how a young widow in the summer of 1813 made two large flags for Fort McHenry in Baltimore. The young United States was at war with Great Britain, and Fort McHenry prepared for an attack from the British. All was ready at the fort except for a proper set of flags. George Armistead, commander at Fort McHenry, needed the hand sewn flags in a hurry giving Mary Pickersgill just six weeks to produce them. This book will explain how Mary Pickersgill learned to make flags, where she obtained the four hundred yards of fabric, woven only in England, to make the flag, how she organized a small work force of young women, including a free African-American indentured servant, to sew the flags and where she found a workplace to make such large flags. Surprisingly, Mary Pickersgill did not consider sewing the Star-Spangled Banner the greatest accomplishment of her life. Under her leadership, a Baltimore charitable organization helped poor widows find work to support their families. The organization raised the funds to build the Home for Aged Widows that opened with great publicity and fanfare six years before Mary Pickersgill died. The Pickersgill Retirement Home in Towson has its roots in Mary Pickersgill’s crowning achievement of her lifetime. The stirring history of Mary Pickersgill’s family is included in the book and helps explain Mary Pickersgill’s drive and determination to produce the flags for Fort McHenry when the city of Baltimore was under imminent attack. The book also describes how the Star-Spangled Banner became the most important object in the Smithsonian’s vast collection. In addition, the book recounts the history of the Star-Spangled Banner Flag House Association that preserved the little house on the corner of Pratt and Albemarle Streets as a museum to honor Mary Pickersgill’s legacy.
