An Investigation of Tungdunge Mundhum, A Kirat Mythology

Dr. Nawa Raj Subba, 2023-09-18 Tungdunge Mundhum is a cultural heritage of the Kirat Limbu community. It is an ancestral worship in the Kirat community, especially of the Samba clan. It can be called a mythology. This study aims to look scientifically at the knowledge, values, and beliefs hidden within the civilization. In this book, there is a task to find the story in the historical background. Here, the narrative is analyzed based on evidence and theory. The description is brought to a logical conclusion on the theoretical ground of the socio-biological model. Tungdunge Mundhum, a cultural mythology, should not be limited to a tradition. Thus, an attempt has been made to understand it from an anthropological point of view through the study. A preliminary review of this research has been published as a booklet and article, which is found to be read with interest by the reader. This book is more detailed on mythology belonging to the Kirat-Sen-Samba clan. History and genealogy indicate that the history of the Samba clan evolved with the Kirat-Sen-Samba lineage. This Mundhum is also found to be supportive of the historical facts. The study concentrated on that evidence. This research work will be helpful to the researcher as it has been analyzed and synthesized by various evidences. It includes ethnographic base, genealogy, and different perspectives of Kirat Limbu communities.

Kirat Limbu Culture - Anthropological Investigation - into

Phyang Samba Ethnicity Dr. Nawa Raj Subba, 2023-08-15 Human existence is believed to be incomplete without the enrichment of culture. Some individuals wholeheartedly immerse themselves in their cultural surroundings, while others observe from a distance. The ancient Kirat civilization of Nepal predates any religious texts we have. Unfortunately, their profound cultural wisdom has primarily faded, leading to a disheartening void in our understanding of ancient knowledge. The plight of the indigenous communities in the land nurtured by their toil and sacrifice is a cause for concern. Neglecting the valuable contributions of these indigenous communities in the name of progress leaves us incomplete. Through a thorough anthropological study of the Kirat Limbu community, we've arrived at factual and logical conclusions regarding the questions they've raised. This writer endeavors to share this information, driven purely by academic value and recognition. Recognizing his responsibility, this writer, in the later stages of life, has felt a sense of urgency in preserving the positivity of research. The book is published to document synthesized knowledge based on trustworthy information and data, thereby sharing it with readers. This book is expected to be a valuable resource for those seeking to understand the true essence of Nepali soil, to explore the rich Kirat civilization, its culture, and the intricate tapestry of ethnic issues—best of luck on this enlightening journey.

Cities of the Future Mady Mohamed,Asmaa Ibrahim,Mohamed

Fekry,2023-01-01 This book seeks to address the key challenges and opportunities of future cities embracing novel approaches and grounded technologies in pursuing a vision for smart, inclusive cities. The objective of this book is to discuss multiple areas at the local, national, and international levels and how these challenges can hinder the development objectives planned to be achieved by the cities of the future. The chapters featured in this collection were presented at the 6th Mmaryat International Conference (MIC 2022), held at the Effat University, Jeddah. MIC's objective is to build bridges between science, technology, and innovation, seen as the key levers of attaining the SDGs. This book provides the most innovative ideas presented at the conference to address the key manifestation of "future cities to embrace novel approaches and grounded technologies in the pursue of a vision for smart inclusive cities. It thus represents a platform for diverse contributions from academics and practitioners to present their different perspectives addressed theoretically as well as in practice concerning the challenges and opportunities of future cities. This includes contributions from decision-makers, architects, urban planners, urban designers, entrepreneurs, and educators to stimulate discussion covering the latest on the challenges and opportunities for better future cities in the different domains of

architecture, building science and technology, environmental design, mobility & infrastructure, urban design & landscape, housing & real estate developments, urban planning, governance, socio-cultural & economic development, community engagement, tourism and heritage revitalization.
