

Big

Edward T. Welch

Alcoholics Anonymous Bill W.,2014-09-04 A 75th anniversary e-book version of the most important and practical self-help book ever written, Alcoholics Anonymous. Here is a special deluxe edition of a book that has changed millions of lives and launched the modern recovery movement: Alcoholics Anonymous. This edition not only reproduces the original 1939 text of Alcoholics Anonymous, but as a special bonus features the complete 1941 Saturday Evening Post article “Alcoholics Anonymous” by journalist Jack Alexander, which, at the time, did as much as the book itself to introduce millions of seekers to AA’s program. Alcoholics Anonymous has touched and transformed myriad lives, and finally appears in a volume that honors its posterity and impact.

The Big Book of Chic Miles Redd,2020-06-24 Internationally acclaimed interior design sensation Miles Redd is known for his quirky brand of cozy glamour. His unique aesthetic vision is characterized by playful mélanges of high and low, invigorated with whimsical splashes of color and modern gestures. Drawing on inspirations ranging from Richard Avedon fashion photographs to Rene Gruau illustrations, Redd has crafted interiors for a wide

array of venues. His Trademark approach to design has brought to life rooms infused with boldness, fantasy, and sophistication. This lavishly illustrated volume will be an inspiration to anyone interested in spirited, eclectic design.

The Big Book of Concepts Gregory Murphy, 2004-01-30

Concepts embody our knowledge of the kinds of things there are in the world. Tying our past experiences to our present interactions with the environment, they enable us to recognize and understand new objects and events. Concepts are also relevant to understanding domains such as social situations, personality types, and even artistic styles. Yet like other phenomenologically simple cognitive processes such as walking or understanding speech, concept formation and use are maddeningly complex. Research since the 1970s and the decline of the classical view of concepts have greatly illuminated the psychology of concepts. But persistent theoretical disputes have sometimes obscured this progress. The Big Book of Concepts goes beyond those disputes to reveal the advances that have been made, focusing on the major empirical discoveries. By reviewing and evaluating research on diverse topics such as category learning, word meaning, conceptual development in infants and children, and the basic level of

categorization, the book develops a much broader range of criteria than is usual for evaluating theories of concepts.

The Big Book of Dashboards Steve Wexler, Jeffrey Shaffer, Andy Cotgreave, 2017-04-24 The definitive reference book with real-world solutions you won't find anywhere else The Big Book of Dashboards presents a comprehensive reference for those tasked with building or overseeing the development of business dashboards. Comprising dozens of examples that address different industries and departments (healthcare, transportation, finance, human resources, marketing, customer service, sports, etc.) and different platforms (print, desktop, tablet, smartphone, and conference room display) The Big Book of Dashboards is the only book that matches great dashboards with real-world business scenarios. By organizing the book based on these scenarios and offering practical and effective visualization examples, The Big Book of Dashboards will be the trusted resource that you open when you need to build an effective business dashboard. In addition to the scenarios there's an entire section of the book that is devoted to addressing many practical and psychological factors you will encounter in your work. It's great to have theory and evidenced-based research at your disposal, but what will you do

when somebody asks you to make your dashboard 'cooler' by adding packed bubbles and donut charts? The expert authors have a combined 30-plus years of hands-on experience helping people in hundreds of organizations build effective visualizations. They have fought many 'best practices' battles and having endured bring an uncommon empathy to help you, the reader of this book, survive and thrive in the data visualization world. A well-designed dashboard can point out risks, opportunities, and more; but common challenges and misconceptions can make your dashboard useless at best, and misleading at worst. The Big Book of Dashboards gives you the tools, guidance, and models you need to produce great dashboards that inform, enlighten, and engage.

Twelve Steps and Twelve Traditions Trade Edition Bill W., 1953
Twelve Steps to recovery.

The Big Book of Less Irene Smit, Astrid van der Hulst, Editors of Flow magazine, 2019-04-02 From Flow, a beautiful, mindful guide to having less stuff. Less stress. Less distraction. Less everything. In less comes the freedom of letting go. This thoughtful and surprising book shows us how to get there, by paring down not just the jumble of things around us, but the clutter in our heads, too. And to help, interact with special paper goodies, including a one-thought-

a-day diary, a foldout tiny house to let you imagine the pleasures of living in a small and cozy space, and art posters that depict a beautiful picture of what it means to do less, not more. Paper goodies from The Big Book of Less include: 2 journals A dot journal poster 4 art posters 1 foldout tiny house with 20 accessories And even more hidden treasures Decluttering your life and mind makes room for more—more listening, more focus, more wisdom, more time. More life.

Little, Big John Crowley, 2012-05-22 John Crowley's masterful Little, Big is the epic story of Smoky Barnable, an anonymous young man who travels by foot from the City to a place called Edgewood—not found on any map—to marry Daily Alice Drinkawater, as was prophesied. It is the story of four generations of a singular family, living in a house that is many houses on the magical border of an otherworld. It is a story of fantastic love and heartrending loss; of impossible things and unshakable destinies; and of the great Tale that envelops us all. It is a wonder.

Big Book of Earth & Sky Bodie Hodge, Laura Welch, 2017-01-30 Let your child take an exciting, visual journey from Earth's core to the edge of the outer atmosphere! Explore the elements that make up the soil, the sea, and the sky. Examine

detailed charts and graphs about the earth's crust, caves, and clouds. Scan facts and figures on weather, mountains, and more, based on the best-selling Wonders of Creation series! Designed by the creative team that developed the innovative and award-winning Big Book of History, the Big Book of Earth and Sky unfolds as a 15-foot chart. It is removable so it can be viewed either panel-by-panel or hung on the wall as a full-length display. A teacher's guide helps bring out additional insights with questions, education activities, and additional readings, all of which enhance this excellent reference tool and help a parent or teacher utilize it within their science curriculum. This stunning chart will pique the interest of children and bring a study of God's world to brilliant life!

The Big Book about Being Big Coleen Murtagh

Paratore, 2019-07 A beautifully illustrated picture book with a BIG message, BIG is the perfect gift to celebrate all the biggest milestones in life, in the spirit of Dr. Seuss's Oh, the Places You'll Go! Are you big yet? Follow three young friends as they figure out that being BIG isn't measured by years, or weight, or inches. It's being healthy. Being imaginative. Being kind and helpful. It's being a friend to others, and a friend to the Earth. It's being the biggest YOU you can be! Every day, in lots of little ways, readers will

discover we all have the chance to be BIG! Touching on ideas such as health, citizenship, and imagination, BIG is the key to heartfelt dialogue between children and caregivers about the importance of values over valuables.

This Is Big Marisa Meltzer, 2020-04-14 From a contributor to The Cut, one of Vogue's most anticipated books bravely and honestly (Busy Philipps) talks about weight loss and sheds a light on Weight Watchers founder Jean Nidetch: a triumphant chronicle (New York Times). Marisa Meltzer began her first diet at the age of five. Growing up an indoors-loving child in Northern California, she learned from an early age that weight was the one part of her life she could neither change nor even really understand. Fast forward nearly four decades. Marisa, also a contributor to the New Yorker and the New York Times, comes across an obituary for Jean Nidetch, the Queens, New York housewife who founded Weight Watchers in 1963. Weaving Jean's incredible story as weight loss maven and pathbreaking entrepreneur with Marisa's own journey through Weight Watchers, she chronicles the deep parallels, and enduring frustrations, in each woman's decades-long efforts to lose weight and keep it off. The result is funny, unexpected, and unforgettable: a testament to how transformation goes far beyond a

number on the scale.

Big B. B. Hiller,1988

The Big Book of Bugs Matthew Robertson,1999 A collection of unusual facts, games, puzzles, activities, and artwork centering around the world of insects.

Big Brain Book Leanne Boucher Gill,2021-06-01 2022 KIDS' BOOK CHOICE AWARDS WINNER FOR BEST INFO MEETS GRAPHICS! Readers are welcomed to the Lobe Labs and Dr. Brain activities in this brightly illustrated, highly engaging book that uses science to answer interesting questions that kids have about the brain and human behavior. This is a fun primer on psychology and neuroscience that makes complex psychological phenomenon and neural mechanisms relatable to kids through illustrations, interesting factoids, and more. Chapters include: What is the brain made up of and how does it work? Why can't I tickle myself? Why do they shine a light in my eyes when I hit my head in the game? Answers draw from both psychology and neuroscience, giving ample examples of how the science is relevant to the question and to the reader's life experiences.

I Went Walking ,2005-08 During the course of a walk, a young boy identifies animals of different colors.

Big Book of WHO All-Stars The Editors of Sports Illustrated Kids, 2021-10-19 Big Book of WHO is a book your young sports fans will return to again and again! Big Hunger Andrew Fisher, 2018-04-13 How to focus anti-hunger efforts not on charity but on the root causes of food insecurity, improving public health, and reducing income inequality.

Food banks and food pantries have proliferated in response to an economic emergency. The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity. This was meant to be a stopgap measure, but the jobs never came back, and the “emergency food system” became an industry. In *Big Hunger*, Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti-hunger movement. From one perspective, anti-hunger leaders have been extraordinarily effective. Food charity is embedded in American civil society, and federal food programs have remained intact while other anti-poverty programs have been eliminated or slashed. But anti-hunger advocates are missing an essential element of the problem: economic inequality driven by low wages. Reliant on corporate donations of food and money, anti-hunger organizations have failed to hold business accountable for offshoring jobs, cutting benefits, exploiting workers and rural communities, and resisting wage increases. They have become part of a “hunger industrial complex” that seems as self-perpetuating as the more famous military-industrial complex. Fisher lays out a vision that encompasses a broader definition of hunger characterized by a

focus on public health, economic justice, and economic democracy. He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti-hunger sector. It is only through approaches like these that we can hope to end hunger, not just manage it.

The Big Book of the Dead Marion Winik, 2019-09-17 Marion Wink is esteemed for bringing humor and wit to that most unavoidable of subjects: death. At last, Winik's critically acclaimed, cult favorites, *Glen Rock Book of the Dead* and *Baltimore Book of the Dead*, have been carefully combined in their proper chronological order, revealing more clearly than ever before the character hidden throughout these stories: Winik herself. Featuring twelve additional vignettes along with a brand-new introduction, *The Big Book of the Dead* continues Winik's work as an empathetic, witty chronicler of life.

The Big Nine Amy Webb, 2019-03-05 A call-to-arms about the broken nature of artificial intelligence, and the powerful corporations that are turning the human-machine relationship on its head. We like to think that we are in control of the future of artificial intelligence. The reality, though, is that we -- the everyday people whose data powers AI -- aren't actually in control of anything.

When, for example, we speak with Alexa, we contribute that data to a system we can't see and have no input into -- one largely free from regulation or oversight. The big nine corporations -- Amazon, Google, Facebook, Tencent, Baidu, Alibaba, Microsoft, IBM and Apple--are the new gods of AI and are short-changing our futures to reap immediate financial gain. In this book, Amy Webb reveals the pervasive, invisible ways in which the foundations of AI -- the people working on the system, their motivations, the technology itself -- is broken. Within our lifetimes, AI will, by design, begin to behave unpredictably, thinking and acting in ways which defy human logic. The big nine corporations may be inadvertently building and enabling vast arrays of intelligent systems that don't share our motivations, desires, or hopes for the future of humanity. Much more than a passionate, human-centered call-to-arms, this book delivers a strategy for changing course, and provides a path for liberating us from algorithmic decision-makers and powerful corporations.

Embark on a transformative journey with is captivating work,
Discover the Magic in Big . This enlightening ebook, available for
