**News Search, Blogs and Feeds** Lars Vage, Lars Iselid, 2010-09-27 This book is about news search and monitoring. Aimed at professionals with a strategic need of monitoring the surrounding world, users with a need to find the best news sources, monitoring services and news search strategies and techniques will benefit from reading this book. The main purpose is to present a practical handbook with an analysis of readily available tools, blending with passages of a theoretical nature. It is also useful for students at LIS programmes and related information programmes and for librarians and information professionals. The authors aim to aid the reader in reaching a greater understanding of the core in news search and monitoring. Presents effective tools to evaluate news search engines and databases Harness the power of RSS (Real Simple Syndication) feeds in online news search and monitoring Learn how to navigate and critically question the news found in the blogosphere

**Internet Research Skills** Niall O'Dochartaigh, Niall Ó Dochartaigh, 2007 Internet Research Skills is a clear and concise guide to the effective use of the Internet for students in the social sciences. The open web is becoming central to student research practice, not least because of its accessibility, and this clear text describes search strategies and outlines the critical skills necessary to deal with such diverse and disorganized materials. This book covers all of the essential aspects of Internet research, with each chapter containing a number of illustrations, inset boxes, and short exercises.

**The DIY Style Finder** KariAnne Wood, 2019-03-05 Let Your Style Shine KariAnne Wood could tell you a lot about decorating. After all, she's an expert. But this book isn't about her. It's about you. It's about the colors, textures, and patterns that make your heart sing. It's about the creative ideas you can't wait to try in your own home. It's about finding your one-of-a-kind style and then just going for it. And KariAnne is here to help you. Featuring her home and those of four of her blogger friends—Yvonne Pratt (StoneGable), Bre Doucette (Rooms for Rent), Laura Putnam (Finding Home Farms), and Carmel Phillips (Our Fifth House), KariAnne takes you on a tour representing five major design styles—Farmhouse, Traditional, Coastal, Transitional, and Contemporary. From the entryway to the living room to the kitchen to outdoor spaces, you'll find tips and decorating inspiration for each of these different styles—to encourage you to create a home that's amazingly, wonderfully, uniquely YOU.

**Communities and Technologies 2007** Charles Steinfield, Brian T. **DNA and Social Networking** Debbie Kennett, Chris Pomery, 2011-10-21 Family history research has come a long way from the local record office - now twenty-first-century scientific and technological developments have changed the way we look into our family past, allowing us to delve further back. There are many tools which were not conceived with the genealogist in mind which are now increasingly being exploited by family historians, either to advance their research or to network with other genealogists. Many family historians struggle to cope with these new technologies and need guidance on how to use these new tools effectively. Bang up-to-date, this book offers a guide on how to use social networking such as Facebook and Twitter as a research tool and explains the facts and potential of DNA testing for the genealogist. This is the future of family history.

**Clear Blogging** Robert Walsh, 2007-05-01 Clear Blogging, an Apress Technology in Action book, answers in non-technical terms what blogging has to offer and why and how you should blog. If you've never read a blog, but keep hearing that term on the news, Clear Blogging shows why blogging has shaken up mainstream media, and how you could

end up on CNN. If you've just begun reading blogs, it's your travel guide to the Blogosphere. Includes 50 interviews with successful bloggers who influence products, policy makers, potential employers and millions of readers and gain an online reputation - and real profits - from blogging.

**Search and Social** Rob Garner, 2012-10-18 This is a hands-on guide to building a successful real-time content marketing platform. It shows you how to develop, implement, monitor, and optimize tactics for developing a strategic plan that encompasses content, platform, and community management. Including up-to-date tools and technologies, this book explains how to use the right tools for everything from creating search and social content to effectively using social media platforms. You will learn the exact areas where search and social overlap, and how to shift to a real-time and participatory approach in your publishing efforts.

***Social Information*** Scott Brown, 2012-07-04 Information available through 'traditional' business and competitive resources can be complimented by information gained through social media tools. Social Information is a must-have book for competitive and business researchers in any discipline including librarians, information professionals, intelligence analysts, students and marketing personnel, and explores how more 'traditional' resources can be complimented by social media tools. The book outlines different categories of social tools, competitive and business applications of these tools, and provides example searches with screenshots. The book provides concrete search examples, as well as strategies and approaches for searching social tools that may be available today or that may emerge tomorrow. Readers will learn ways to quickly develop new search strategies as new tools and features emerge. The future of social tools and information, and the lasting impact that these tools have had on how information plays a part in our lives, our businesses and our careers is discussed. The title is structured into seven chapters, covering: the impact of social media, and the approach of the book; a brief history of business and competitive information and the rise of social tools; blogs and microblogs; video, audio and images; social search engines; and the future of social information. The book specifically explores business and competitive information and approaches using social media tools Written by a highly knowledgeable and long-time practitioner and researcher in the field Provides both practical and strategic search approaches, so that the skills learned will be readily transferable to other social tools, and to social tools as they evolve

Untangling the Web National Security Agency (NSA),2013 Use the internet like a real spy. Untangling the Web is the National Security Agency's once-classified guide to finding information on the internet. From the basic to the advanced, this 650-page book offers a fascinating look at tricks the real spies use to uncover hidden (and not-so-hidden) information online. Chapters include: Google hacks Metasearch sites Custom search engines Maps & mapping Uncovering the invisible internet Beyond search engines: Specialized research tools Email lookups Finding people Researching companies A plain english guide to interworking Internet toolkits Finding ISPs Cybergeography Internet privacy and security ....and over a hundred more chapters. This quote from the authors hints at the investigative power of the techniques this book teaches: Nothing I am going to describe to you is illegal, nor does it in any way involve accessing unauthorized data, [...but] involves using publicly available search engines to access publicly available information that almost certainly was not intended for public distribution. From search strings that will reveal secret documents from South Africa ( filetype: xls site: za confidential ) to tracking down tables of Russian passwords ( filetype: xls site: ru login ), this is both an instructive and voyeuristic look at how the most powerful spy agency in the world uses Google.
