Monsters of River and Rock Adrian Smith,2021-07-20 Come to the riverbank with Adrian Smith and cast a line on the wild side. 'Beautifully written account' Dave Simpson, The Guardian 'Writes beautifully' The Sun Welcome to the world of Adrian Smith, playing his Jackson guitar onstage to millions - while behind the scenes he explores far-flung rivers, seas and lakes, waterways and weirs, in a fearless quest for fishing nirvana. Hooked on the angling adrenaline rush since first catching perch from East London canals on outings with his father, Adrian grew up to be in one of Rock's most iconic bands. On tour, his gear went with him. The fish got bigger. The adventures more extreme. In Monsters of River and Rock you'll hear about his first sturgeon: a whopping 100-pounder from the roaring rapids of Canada's Fraser River that nearly wiped him out mid-Maiden tour. Then there's the close shave with a shark off the Virgin Islands whilst wading waist-deep for bonefish. Not to mention an enviable list of specimen coarse fish from the UK.

Music Industry Management Verena Stickler,2011-09-02 Research Paper (undergraduate) from the year 2008 in the subject Communications - Broadcast and entertainment, grade: 1,6, London Metropolitan University (London Metropolitan University), language: English, abstract: Britney Spears is an American pop music singer, songwriter, dancer, actress and author. She has sold over 83 million records worldwide and is the only female in music history to have had her first four albums debut at No. 1. Britney's extremely successful career took off in the late 90's and was targeted at a teenage audience, with emphasis put on her projected image. Her at times controversial music videos and live performances have contributed to her success immensely as have product endorsements and merchandising. Britney, who was discovered by Larry Rudolph in 1995, was created and supported by a strong management team. Ever since splitting from long time manager Rudolph in 2004, Britney's management has changed constantly with even her being her own manager at one point. Combined with her current personal struggles this is having a rather negative impact on her career, with her image suffering greatly under these circumstances. Although sales for her newest album "Blackout" have been doing well, critics tend to credit the producers rather than Britney herself. Other critics question as to whether the album, which is predominantly perceived as good, is enough to maintain her successful career. Taking all these current factors into consideration, it is advisable to contract a strong and stable management team for Britney who will step in to save her flagging career and simultaneously help her regain her high public profile.

Unworthy, Chosen, and Forgiven Michael Gilcreast,2022-03-16 I thought long and hard before I even imagined to write any book, but somehow people just kept telling me to write a book out of the blue. I started to write, and nothing came of it for over ten years. I have only made it to page 44 of my manuscript. My biggest question, which led to my real motivation to write, was How can different people from different states I visited kept telling me the same thing? Could they all be wrong? It was in March 2020, everything was shut down, I was in attendance at the AFFI mini-convention in Maryland, and it was closed down by the governor. Therefore, from all points in my life, God made sure that I would write. I was out of excuses and I just encouraged myself to write the movie-like book of my life. I have done many one-on-one, premarital, marriage pastoral feedback sessions, inside and outside the church. I only came to find out in some way, shape, or form that people have problems of sorts that were similar to my own. I think of myself as an unorthodox writer and now pastor/author that loves the truth with the desire to be a help for people. I now see a new parallel that was within me all along because my first passion was to become a doctor, so I could help people. More than half of my life have either been in the Air Force or working for the Department of Defense at the Pentagon in some type of full-time capacity. I even survived the war act of September 11 (911)! Yet I have a story to tell, starting from a dysfunctional family to chasing women, becoming a womanizer, stories of infidelity, unemployment, lying, stealing, divorce, bad credit, bankruptcy, gambling, and even several attempts to commit suicide! If the truth be told, I never thought that I would live past the age of thirty-five! While I thought that I was unworthy, I found out that God had chosen me to live again and to tell my story and to be the pastor that I am today! I was truly a lost soul! On this same path of my life, I have found redemption and a second chance to experience true and unconditional love in the form of Melody. A love that could have only been birthed by God's grace! Truly, my soul loves Jesus!

Metallic Amorphous Alloy Reinforcements in Light Metal Matrices S. Jayalakshmi,M. Gupta,2015-02-24 This book presents cutting-edge research on the design and development of novel, advanced high-strength, light-weight materials via the incorporation of novel reinforcements, namely, metallic amorphous alloys/bulk metallic glasses (BMG), in light metal matrix composites (LMMCs) based on Al and Mg. The book begins with an introduction to conventional ceramic reinforced light metal matrix composites, along with the major drawbacks which limit their application. Metallic amorphous alloys/Bulk Metallic Glasses (BMG) are new class of metallic materials that are distinctly differently from conventional metals/alloys in terms of their structure and thermal behavior, and exhibit extremely high strength (1 to 2 GPa) and large elastic strain limit (1 to 2%). Given these unique properties, upon their incorporation into Al/Mg-matrices, they provide superior interfacial properties, i.e. high degree of compatibility with the matrix due to their metallic nature when compared to conventional ceramic reinforcements, and thereby significantly enhance the mechanical performance of LMMCs. Amorphous/BMG reinforced LMMCs is an emerging research field and the existing literature is meager. This book discusses the various processing methods that would be suitable for these novel materials. A comparison of mechanical properties and strengthening mechanisms of amorphous/BMG reinforced composites with those of conventional ceramic composites is presented. Future research directions and wider research potential of the novel materials are discussed, and prospective applications are highlighted. For ease of understanding and comparison, appropriate schematics, tables, and figures are provided.
