Il Sistema dei controlli negli Enti locali Elena Gori,Stefano Pozzoli,2013-07 Il sistema dei controlli negli Enti locali è un eterno work in progress. A partire dalla L. 142/1990, attraverso la c.d. Legge La Loggia e la modifica dei criteri di nomina dei revisori, fino ad arrivare al Decreto Enti locali (D.L. 174/2012), c'è stato un susseguirsi di interventi normativi che hanno cercato di implementare e migliorare, di volta in volta, i controlli esterni ed interni. La conseguenza è un sistema dei controlli complesso e non sempre chiaro: coloro che sono preposti alle verifiche si trovano perciò di fronte ad una mole di adempimenti che percepiscono come formali e non funzionali al loro lavoro quotidiano sebbene la norma, per quanto eterogenea ed in parte contraddittoria e lacunosa, proponga molteplici strumenti che, se ben utilizzati, consentirebbero di migliorare la consapevolezza e la razionalità dell'azione di Governo e di gestione dei Comuni e delle Province. Spetta allora ai singoli enti sfruttare al meglio le opportunità che il legislatore offre loro, implementando un sistema di controlli adeguato alla complessità delle competenze istituzionali che si svolgono sia in via diretta sia attraverso le aziende partecipate. Da qui la volontà di proporre un manuale sui controlli di ampio respiro, che evidenzii collegamenti e sovrapposizioni e, al tempo stesso, delinei gli attori, i tempi e gli strumenti operativi e le loro caratteristiche principali. Il testo, aggiornato al Decreto Enti locali e al D.Lgs. 33/2013 (Decreto Trasparenza), ha quindi come primo obiettivo quello di illustrare il percorso legislativo, evidenziandone le carenze come anche i punti di innovazione. Il secondo obiettivo è quello di fornire una "lettura" degli strumenti che la normativa e la cultura aziendale oggi propongono ai Comuni ed alle Province nello sforzo di arrivare ad un sistema dei controlli, esterni ed interni, che tuteli il cittadino e permetta ad amministratori e dirigenti di guidare l'Ente locale con la dovuta consapevolezza. Elena Gori, Ricercatore confermato di Economia aziendale presso la Facoltà di Economia dell'Università di Firenze; membro della commissione "Università" del Consiglio nazionale dei dottori commercialisti ed esperti contabili. Stefano Pozzoli, Professore ordinario di Ragioneria delle amministrazioni pubbliche locali presso la Facoltà di Economia dell'Università di Napoli Parthenope; esperto della Corte dei Conti in materia di Enti locali, membro della commissione per i principi contabili ex legge 196/2009.

Human Performance and Limitations in Aviation R. D. Campbell, Michael Bagshaw, 2008-04-15 Human error is cited as a major cause in over 70% of accidents, and it is widely agreed that a better understanding of human capabilities and limitations - both physical and psychological - would help reduce human error and improve flight safety. This book was first published when the UK Civil Aviation Authority introduced an examination in human performance and limitations for all private and professional pilot licences. Now the Joint Aviation Authorities of Europe have published a new syllabus as part of their Joint Aviation Requirements for Flight Crew Licensing. The book has been completely revised and rewritten to take account of the new syllabus. The coverage of basic aviation psychology has been greatly expanded, and the section on aviation physiology now includes topics on the high altitude environment and on health maintenance. Throughout, the text avoids excessive jargon and technical language. There is no doubt that this book provides an excellent basic understanding of the human body, its limitations, the psychological processes and how they interact with the aviation environment. I am currently studying for my ATPL Ground Exams and I found this book to be an invaluable aid. It is equally useful for those studying for the PPL and for all pilots who would like to be reminded of their physiological and psychological limitations. -General Aviation, June 2002
