So what are you waiting for? Get this book now, and start creating a great business plan for your business today. Also recently added in the last update of this book is a business plan sample since many people commented that they wanted a business plan example. Although for my taste as an entrepreneur, I rather give you lots of great business planning strategies and theory that you can use in the real world instead of having a business plan template or workbook to write your business plan from. After all, a business plan is just a document. But to make your business a success, you will have to do it in the real world. So when you try to figure out how to create a business plan, don't just focus on the business plan document. Instead, focus on a plan for the real world with actionable and effective strategies. Get the book now, and start planning your business today.

Burn the Business Plan Carl J. Schramm, 2018-01-16 Business startup advice from the former president of the Ewing Marion Kaufmann Foundation and cofounder of Global Entrepreneurship Week and StartUp America, this “thoughtful study of ‘how businesses really start, grow, and prosper’...dispels quite a few business myths along the way” (Publishers Weekly). Carl Schramm, the man described by The Economist as “The Evangelist of Entrepreneurship,” has written a myth-busting guide packed with tools and techniques to help you get your big idea off the ground. Schramm believes that entrepreneurship has been misrepresented by the media, business books, university programs, and MBA courses. For example, despite the emphasis on the business plan in most business schools, some of the most successful companies in history—Apple, Microsoft, Google, Facebook, and hundreds of others—achieved success before they ever had a business plan. *Burn the Business Plan* punctures the myth of the cool, tech-savvy twenty-something entrepreneur with nothing to lose and venture capital to burn. In fact most people who start businesses are juggling careers and mortgages just like you. The average entrepreneur is actually thirty-nine years old, and the success rate of entrepreneurs over forty is five times higher than that of those under age thirty. Entrepreneurs who come out of the corporate world often have discovered a need for a product or service and have valuable contacts to help them get started. Filled with stories of successful entrepreneurs who drew on real-life experience rather than academic coursework, *Burn the Business Plan* is the guide to starting and running a business that will actually work for the rest of us.
