Corruption and Targeted Sanctions Anton

Moiseienko, 2019-02-01 In *Corruption and Targeted Sanctions*, Anton Moiseienko analyses the blacklisting of foreigners suspected of corruption and the prohibition of their entry into the sanctioning state from an international law perspective. The implications of such actions have gained prominence with the increased adoption of the so-called Magnitsky legislation internationally.

Raising Red Flags N.R. Jenzen-Jones, Jonathan Ferguson, 2014-11-18 This report examines the significant range of arms and munitions carried and employed throughout the conflict by armed individuals on all sides. It also examines, somewhat less extensively, the range of armoured vehicles and aircraft observed in the conflict. This report examines over 100 distinct weapons systems, over 60 different types of munitions, and over 70 different models of armoured fighting vehicles, as well as miscellaneous associated materiel, in the context of the ongoing conflict in Ukraine. Particular attention is paid to items which may indicate flows of arms and munitions into and within the affected areas of Ukraine. Beginning with an assessment of the arms and munitions employed during the initial unrest in Kiev, in February 2012, the report documents relevant materiel up until the time of publication

Rethinking the Security-Development Nexus Sasha

Jesperson, 2016-12-01 This book critically examines the security-development nexus through an analysis of organised crime responses in post-conflict states. As the trend has evolved, the security-development nexus has received significant attention from policymakers as a new means to address security threats. Integrating the traditionally separate areas of security and development, the nexus has been promoted as a new

strategy to achieve a comprehensive, people-centred approach. Despite the enthusiasm behind the security-development nexus, it has received significant criticism. This book investigates four tensions that influence the integration of security and development to understand why it has failed to live up to expectations. The book compares two case studies of internationally driven initiatives to address organised crime as part of post-conflict reconstruction in Sierra Leone and Bosnia. Examination of the tensions reveals that actors addressing organised crime have attempted to move away from a security approach, resulting in incipient integration between security and development, but barriers remain. Rather than discarding the nexus, this book explores its unfulfilled potential. This book will be of much interest to students of war and conflict studies, development studies, criminology, security studies and IR in general.

Constitutionalism and the Economy in Africa

Charles M. Fombad, Nico Steytler, 2022-11-14 Despite expectations that the celebrated second wave of constitutional democracy in the 1990s would facilitate economic development, Africa remains the continent with the highest level of poverty in the world. The fight against poverty hinges on a vibrant economy that creates jobs and income by generating enough revenue to enable the state to take pro-development measures. However, instead of the economic benefits that were supposed to accrue from the constitutional reforms of the last three decades (including entrenching a market economy), African economies remain weak, a situation that has been aggravated by the COVID-19 pandemic. By focusing on the relationship between constitutionalism and economic growth in Africa, this volume addresses five questions: (1) In the constitutional reforms of the 1990s and thereafter, did constitutions also reflect the

shift towards a market economy, and if so, in what manner? (2) Given that agriculture and extractive industries are the main sources of state revenue in many African economies, how are matters of land and other natural resources dealt with constitutionally? (3) Where the market economy is captured in a constitution, what is the state's relationship to that economy: interventionist or laissez-faire, or somewhere in between? Have constitutions also established a 'social' state that provides its citizens with the basic elements of a dignified life? (4) In the process of constitution-making and implementation concerning the economy, what impact has globalization had on constitutionalism and economic growth in Africa? (5) Finally, how has the relationship between constitutionalism and economic growth played out in practice? Is there a symbiotic relationship? Has constitutionalism led (or may do so) to greater economic prosperity? Constitutionalism and the Economy in Africa offers a range of comprehensive arguments and case studies that will be of interest and use to academics, post-graduate students, judges, lawyers, economists, and policy makers involved in the economic role of the State, the impact of globalization, and the constitutional foundations for land and natural resources exploitation.

Dirty Entanglements Louise I. Shelley, 2014-07-28
The entangled threat of crime, corruption, and terrorism now deserves high-level policy attention because of its growth trajectory. Using lively case studies, this book analyzes the transformation of crime and terrorism and the business logic of terrorism. Louise I. Shelley concludes that corruption, crime, and terrorism will remain important security challenges in the twenty-first century as a result of economic and demographic inequalities in the world, the rise of ethnic and sectarian violence, climate change, the

growth of technology, and the failure of nineteenth- and twentieth-century institutions to respond to these challenges when they emerged.

Conflict, Crime, and the State in Postcommunist Eurasia Svante Cornell, Michael Jonsson, 2014-02-11 Conflict, Crime, and the State in Postcommunist Eurasia examines the emergence and evolution of a crime-conflict nexus and the relationship between ideologically motivated insurgents and profit-motivated criminal organizations in the region.

Frustrated Democracy in Post-Soviet Azerbaijan Audrey L. Altstadt, 2017-05-23 Frustrated Democracy in Post-Soviet Azerbaijan follows a newly independent oil-rich former Soviet republic as it adopts a Western model of democratic government and then turns toward corrupt authoritarianism. Audrey L. Altstadt begins with the Nagorno-Karabagh War (1988-1994) which triggered Azerbaijani nationalism and set the stage for the development of a democratic movement. Initially successful, this government soon succumbed to a coup. Western oil companies arrived and money flowed in—a quantity Altstadt calls almost unimaginable—causing the regime to resort to repression to maintain its power. Despite Azerbaijan's long tradition of secularism, political Islam emerged as an attractive alternative for those frustrated with the stifled democratic opposition and the lack of critique of the West's continued political interference. Altstadt's work draws on instances of censorship in the Azerbaijani press, research by embedded experts and nongovernmental and international organizations, and interviews with diplomats and businesspeople. The book is an essential companion to her earlier works, *The Azerbaijani Turks: Power and Identity Under Russian Rule* and *The Politics of Culture in Soviet Azerbaijan, 1920-1940*.

Media Capture And Corrupt Journalists Tomislav Maršić, 2022-11-13 This book explores the form,

dynamics, and main reasons for media capture and conspiracy between editors and executive politicians in Central and Eastern Europe (CEE) since 2000. Situated in the literatures on Europeanization, democratization, party studies, and media studies, the book aims to connect these fields by showing that internal party dynamics play an important role in motivating executive politicians to hijack or collaborate with media. Against this backdrop, the book tells the story of Croatian journalism in the context of media-mafia conglomerates, political corruption, and media hijacking, and examines how traditional democratic drivers that the literature frequently cites, such as Europeanization and party competition, failed to prevent systematic transgressions by politicians. Methodologically, the book takes a two-pronged approach. First, nearly 50 interviews were conducted with Croatian investigative journalists, from which the narratives about the relationships between government politicians and editors over 15 years were reconstructed. In a second step, a sample of 40,000 media articles was subjected to a computational sentiment analysis, covering the same 15-year period and showing high levels of cooperation between corrupt politicians and corrupt media outlets.

Surviving the Peace Peter Lippman, 2019-11-15
Surviving the Peace is a monumental feat of ground-level reporting describing two decades of postwar life in Bosnia, specifically among those fighting for refugee rights of return. Unique in its breadth and profoundly humanitarian in its focus, Surviving the Peace situates digestible explanations of the region's bewilderingly complex recent history among interviews, conversations, and tableaux from the lives of everyday Bosnians attempting to make sense of what passes for normal in a postwar society. Essential reading for students of the former Yugoslavia and anyone

interested in postwar or post-genocide studies, *Surviving the Peace* is an instant classic of long-form reporting, an impossible accomplishment without a lifetime of dedication to a place and people.

Legacies of Empire Sandra Halperin, Ronen Palan, 2015-08-06 The nation-state is a fairly recent historical phenomenon. Human history over the past two to four millennia has been dominated by empires, and the legacies of these empires continues to shape the contemporary world in ways that are not always recognised or fully understood. Much research and writing about European colonial empires has focused on relations between them and their colonies. This book examines the phenomenon of empire from a different perspective. It explores the imprint that imperial institutions, organisational principles, practices, and logics have left on the modern world. It shows that many features of the contemporary world - modern armies, multiculturalism, globalised finance, modern city-states, the United Nations - have been profoundly shaped by past empires. It also applies insights about the impact of past empires to contemporary politics and considers the long-term institutional legacies of the American 'empire'.

The Legacy of Jair Bolsonaro and the Federal Government of Brazil [?] *A Dictatorial Government facilitating Abuse of Power, Rule-of-Law Violations and Violations of Human Rights in the Federative Republic of Brazil* Dr. Mark O'Doherty, 2020-02-07 With the world's fourth largest democracy having elected an oppressive, far-right government into power, emotions are running high in Brazil - today's Brazil being at risk of becoming a dictatorship again, with press freedom violations, police violence and overall human rights violations increasing dramatically in the country - especially among the LGTB community,

Brazil having the highest number of transgender murders globally. Inequality is another topic this book explores, with more than fifty million Brazilians - nearly 25 percent of the population - living below the poverty line; having family incomes of no more than \$389 per month and only \$5.50 a day. Also, deforestation in the Brazilian Amazon is a lucrative business largely driven by criminal networks that threaten and attack government officials, forest defenders and indigenous people who try to stop them; according to a report by Human Rights Watch. Hence it is very important that rule-of-law, justice, peace and prosperity are restored in Brazil.

The Defaulting State and the South China Sea Arbitration Alfredo C. Robles Jr., 2023-05-27 This book focuses on the legal and procedural problems caused by China's default in the South China Sea Arbitration. Many of these problems arose because in several respects, China departed from the conduct of other defaulting States in cases before the International Court of Justice. The book argues that the Tribunal, confronted with the difficulties of maintaining the balance between two parties in a situation of default, drew on the full range of its powers to ensure that neither China nor the Philippines would suffer from China's default. Further, the book describes the shortcomings of the submissions of putative amicus curiae. It refutes China's questioning of the independence and impartiality of the experts and of the judges. In so doing, it explains the expert opinions and the Tribunal's assessments of the latter in the areas of satellite imagery, coral reef ecology, and navigational safety, while rebutting the half-truths and counter-truths disseminated by Chinese scholars about the proceedings. The book compares China's threats to the independence of the Tribunal to its behavior towards Chinese judges. It places China's

accusations of bias against the Tribunal in the context of China's domestic situation, and concludes that the Tribunal, acting independently and impartially, was able to perform the judicial function, despite China's default.

The Nature of the Future Marina

Gorbis, 2013-04-09 A leading futurist offers an inspiring portrayal of how new technologies are giving individuals so much power to connect and share resources that networks of individuals, not big organizations, will solve a host of problems by reinventing business, education, medicine, banking, government, and scientific research.

Legislative Decline in the 21st Century Irina

Khmelko, Rick Stapenhurst, Michael L.

Mezey, 2020-01-24 Irina Khmelko, Frederick

Stapenhurst, and Michael L. Mezey have assembled an authoritative guide to the declining institutional capacities of legislatures around the world. Case studies represent a diverse sample of countries, ranging from newer democracies emerging from the post-communist world to more established but at times fragile democracies in Asia. Although largely focused on newer democratic systems, readers will be able to identify key factors that explain the general global trend toward the empowerment of executives at the expense of national legislatures. The cases, although different from one another, identify several factors that have explained the erosion of legislative power, including historical legacies, institutional design, economic factors, external factors, political polarization, personalization of politics, and the rise of populism. Original data and the presentation of testable theoretical propositions about the growing imbalance between executives and national legislatures moves the field in a promising new direction. *Legislative Decline in the 21st Century* will be of interest to students and scholars of Legislative Studies and

Comparative Politics. Lessons drawn from these case studies will allow policy makers to explore new solutions that can lead to the improved quality of democracy in countries around the world.

Deconstructing Money Laundering Risk Noémi També Bearpark, 2022-07-14 This book examines the interpretation of the risk-based approach (RBA) and its application across the banking industry. It explores the ways conflicting risk interpretation and deconstruction of money laundering risk have unintended consequences across the banking industry. Furthermore, it offers a theoretical framework that can be adopted and implemented by risk practitioners to address money laundering (ML) risks. The interpretation and application of the RBA influences the way money laundering risk is perceived, presented, and managed, often resulting in misalignment among stakeholders. Moreover, AML practitioners interpret money laundering (ML) risk as an entity that can be contained, largely in ignorance of the fact that ML risk is self-referential. The book therefore addresses complex inter-system feedback phenomena that lead to de-risking and re-risking, and offers a new ML risk communication framework on this basis. It will be of value to researchers and also to stakeholders within financial institutions, financial intelligence units and regulators in the fight against money laundering.

Turkish-Azerbaijani Relations Murad Ismayilov, Norman A. Graham, 2016-05-20 An east-west axis of Azerbaijan and Turkey has grown into prominence within the broader structure of regional dynamics in Eurasia over the past two decades. Yet few, including among policy advisors and policy makers in either of the two states, have attempted to look deeper into the forces that lie behind the workings of this important regional nexus, a reality that resulted in a dual crisis in

bilateral relations towards the end of the second decade of interaction. This volume investigates the underlying causes that shaped the dynamics within the structure of the bilateral relationship between Azerbaijan and Turkey. It features chapters by both scholars from the region and international experts in the field, and therefore provides both in-house and outside perspectives on developments within the complex structure of the relationship. With its analysis portfolio including historical, political, economic, socio-cultural, ideological, and international underpinnings of this regional alliance, the volume offers the most systematic and broad ranged analysis of the matter available to date. The book will serve as an important resource for students and scholars of post-Soviet Studies, Central Asia and the Caucasus, and the Middle East, while also being of interest to those of International Relations and political science disciplines.

Dark Shadows Joanna Lillis, 2022-04-21 *Dark Shadows* is a compelling portrait of Kazakhstan, a country that is little known in the West. Strategically located in the heart of Central Asia, sandwiched between Vladimir Putin's Russia, its former colonial ruler, and Xi Jinping's China, this vast oil-rich state is carving out its place in the world as it contends with its own complex past and present. Journalist Joanna Lillis paints a vibrant picture of this emerging nation through vivid reportage based on 17 years of on-the-ground coverage, and travels across the length and breadth of this enigmatic country that lies along the ancient Silk Road and at the geopolitical and cultural crossroads where East meets West. Featuring tales of murder and abduction, intrigue and betrayal, extortion and corruption, this book explores how a president, Nursultan Nazarbayev, transformed himself into a potentate and the economically-struggling state he inherited at the

fall of the USSR into a swaggering 21st-century monocracy. A colourful cast of characters brings the politics to life: from strutting oligarchs to sleeping villagers, from principled politicians to striking oilmen, from crusading journalists to courageous campaigners. This new edition features two additional chapters covering the aftermath of Nazarbayev's fall from power in 2019; the Chinese government's repressions against the Kazakhs of Xinjiang as part of its crackdown on Muslim minorities; and an Afterword reflecting on the tumultuous events of January 2022 in Almaty. Traversing dust-blown deserts and majestic mountains, taking in glitzy cities and dystopian landscapes, *Dark Shadows* conjures up Kazakhstan as a living, breathing place, full of extraordinary people living extraordinary lives.

Elites and the Politics of Accountability in Africa Wale Adebawale, Rogers Orock, 2021-05-24

Elites and the Politics of Accountability in Africa examines the ways that accountability offers an effective interpretive lens to the social, cultural, and institutional struggles of both the elites and ordinary citizens in Africa. Each chapter investigates questions of power, its public deliberation, and its negotiation in Africa by studying elites through the framework of accountability. The book enters conversations about political subjectivity and agency, especially from ongoing struggles around identities and belonging, as well as representation and legitimacy. Who speaks to whom? And on whose behalf do they speak? The contributors to this volume offer careful analyses of how such concerns are embedded in wider forms of cultural, social, and institutional discussions about transparency, collective responsibility, community, and public decision-making processes. These concerns affect prospects for democratic oversight, as well as questions of alienation,

exclusivity, privilege and democratic deficit. The book situates our understanding of the emergence, meaning, and conceptual relevance of elite accountability, to study political practices in Africa. It then juxtaposes this contextualization of accountability in relation to the practices of African elites. *Elites and the Politics of Accountability in Africa* offers fresh, dynamic, and multifarious accounts of elites and their practices of accountability and locally plausible self-legitimation, as well as illuminating accounts of contemporary African elites in relation to their socially and historically situated outcomes of contingency, composition, negotiation, and compromise.

Conspiracy Theories in Eastern Europe Anastasiya Astapova, Onoriu Colăcel, Corneliu Pintilescu, Tamás Scheibner, 2020-10-29 This collection of state-of-the-art essays explores conspiracy cultures in post-socialist Eastern Europe, ranging from the nineteenth century to contemporary manifestations. Conspiracy theories about Freemasons, Communists and Jews, about the Chernobyl disaster, and about George Soros and the globalist elite have been particularly influential in Eastern Europe, but they have also been among the most prominent worldwide. This volume explores such conspiracy theories in the context of local Eastern European histories and discourses. The chapters identify four major factors that have influenced cultures of conspiracy in Eastern Europe: nationalism (including ethnocentrism and antisemitism), the socialist past, the transition period, and globalization. The research focuses on the impact of imperial legacies, nation-building, and the Cold War in the creation of conspiracy theories in Eastern Europe; the effects of the fall of the Iron Curtain and conspiracism in a new democratic setting; and manifestations of viral conspiracy theories in contemporary Eastern Europe and their

worldwide circulation with the global rise of populism. Bringing together a diverse landscape of Eastern European conspiracism that is a result of repeated exchange with the West, the book includes case studies that examine the history, legacy, and impact of conspiracy cultures of Bulgaria, Estonia, Hungary, Moldova, Poland, Romania, Russia, Slovakia, Ukraine, the former Yugoslav countries, and the former Soviet Union. The book will appeal to scholars and students of conspiracy theories, as well as those in the areas of political science, area studies, media studies, cultural studies, psychology, philosophy, and history, among others. Politicians, educators, and journalists will find this book a useful resource in countering disinformation in and about the region.

Foreign Actors' Influence on Azerbaijan's Energy Policy Tina Flegel, 2015-10-03 The author traces several energy policy decisions taken between 2006 and 2013 in Azerbaijan to find out how international actors tried to influence policy-making. The book facilitates understanding of the political mechanisms, threats and opportunities that characterize activities in Azerbaijan's energy sector illustrating strategic pitfalls and chances. Based on a detailed country analysis and the in depth comparison of four policy cases, the book deduces the political elite's rationale, and its practical consequences for transnational relations. It is relevant for scholars studying the political economy of rentier states and regimes in the authoritarian realm, as well as for young strategists in organizations that conduct business in countries dominated by tight informal networks.
